GENERAL NEWS.

French forces have taken Bachmali, in Tonquin. Corvallis warehousemen offer 75 cents a bushel for wheat. Tunnel No. 3, on the Oregon Pacific road, is completed. Anti-monopolists hold a meeting at Eugene next Saturday. New arrivals from Dakota are thoroughly pleased with Oregon. The Ainsworth bridge will be completed by the middle of May. In Jackson county the school children have increased 477 during the year. Much wheat is being hauled to Lewiston and freighted by steam from there. There is prospect of a civil war among the Creek Indians in Indian Territory. Mrs. Newman, of Lafayette, aged 84, who broke a leg by a fall, died of the effect. It appears that no selection has been made as yet for a location for the Indian school. In Minnesota and Dakota the acreage in cultivation for 1884 is increased 10 to 20 per cent. At the school election in Portland C. H. Dodd was elected director and Wm. Church clerk. Judge J. H. Reed, a Democratic lawyer, long a resident of Portland, recently died at Seattle. The Linn county agricultural society will hold their fair September 27, 28 and 29, near Albany. R. G. Cusick, aged 72, died lately on a farm in Linn county, where he had lived for thirty years. Sixty new immigrants have settled near Dayton, W. T., and say the rush this way is tremendous. The prospect for building at Portland seems as good last year. Improvements are going on everywhere. A railroad train was wrecked in Ohio near Columbiana and a lot of people were killed and wounded. The too great shipment of salmon to New York glutted that market and spoiled the trade—the salmon spoiled too. It is said European papers are being shoved into Pennsylvania, and the children of Penn don't like it. Why should they? James NeSmith, son of ex-Senator NeSmith, was badly hurt by an accident received when crossing a bridge near home. Philip Foster, so well known on the Barlow road, lies low and his recovery is in doubt. He located there in 1845, almost forty years ago. Tilden says, positively, he will not be a candidate for president; that he is not able on account of physical weakness to undertake the duties of president. It seems probable that President Arthur will veto the Fitz-John Porter bill. Robert Lincoln says the passage of the bill is an insult to his father's memory. The Indian school will remain at Forest Grove, as sixty acres of land has been deeded there for the purpose and the location is approved at Washington. The Northern Pacific has not emigrant cars enough to accommodate the flood travel to this coast. It is said that a very good class people are now coming here. From four acres of ground a market gardener at Morris, Ill., during the past season, made a net profit of \$1300, not including the vegetables of his own family. The Walla Walla cannery is closed for want of fruit to run it. What they put up last season didn't sell well and there is small prospect for peaches, plums and pears this year. A great battle near Suaken resulted in wholesale victory for British troops, who lost 100 killed and 150 wounded. The Arab loss was over 2,000. Many chiefs were killed. The Northern Pacific will run a fast mail train to connect with the fast mail to Milwaukee. Time from St. Paul to Portland will be ninety hours. Time from New York inside of six days. Chinese have rented the farm of J. L. Hallet, in Washington county, and will try to make money farming. Open the doors to them and they would soon run us out of our own country. On proof that a juror in his case was very prejudiced, a new trial has been granted to young Finlayson who was convicted of the murder of his grandmother in Linn county. W. A. Stillwell was convicted of mail robbing before Judge Dundy and sentenced to hard labor for five years. He was only seventeen years old and feeble-minded, and confessed the fact. Inquiries in Massachusetts show that Republicans favor Edmunds and Lincoln for President and Vice-President. That is the case elsewhere. Democrats would favor Tilden only he is a cold and feeble.

Jacksonville exchange: The rains this week were quite welcome, as some of the grain needed it. The outlook was better, and a bountiful harvest seems almost assured already. The bill for the admission of the new State of Tacoma includes northern Idaho and Washington. That a Constitutional Convention shall be held at Walla Walla and also that the State shall be admitted March 4, 1885. Dennis Kearney is engaged in the praiseworthy occupation of finding positions for Eastern women in California households at \$15 to \$20 a month. If he carries this out he will deserve credit and "the Chinese must go" sure enough. Losses of cattle near Heppner average ten per cent. this winter. Stock are said to be doing well in Malheur valley. Heppner has 600 inhabitants. Business done there for the year, \$300,000: 200,000 sheep were there; 14,000,000 pounds of wool were realized. The Portland dailies are all secure against Bill Whatkinds, Chief of Police, and all decent citizens, including the Council that elected him, without knowing his character, are anxious to get rid of him. His conduct is always abominable and often illegal. Somebody circulates the report that General Sherman is more of a Democrat than Republican. Horrors! The only way we see to remedy that complaint is for both parties to nominate old Tecumseh for President at once. That will fix him. Henry Bergh says no other nation would allow foreign troops and processions to fill up the streets and usurp the highways of America and beat and kill whoever gets in the way. Mr. Bergh is right about it, and the foreign element should not parade as such. The farmer who has a neat, well-kept garden is almost sure to have a neat and well-kept farm, a comfortable and well-appointed home, tidy outbuildings and stock in good condition; and the housewife who takes pride in the garden generally has a home to take pride in and to be proud of. Captain Dyer of the steamer McNaught will in a few days make a trip to Hood's canal for the purpose of dredging for oysters. The captain says he is satisfied that in the shoal waters of that vicinity a species of oyster exists much larger than any native oyster now found in the market. Mr. C. Wright, living about eight miles from Dayton, celebrated his eightieth birthday on the 8th inst., by a social reunion and party. There were forty-four persons present, forty of them being relatives. Among the number were fourteen grandchildren and eleven great-grandchildren. Two weeks ago Deep Creek Falls had quite a boom in the way of an increase in population. Friends and relatives of Mr. A. J. Thompson, sixteen in number, arrived from Missouri and every available bit of house room was in demand to accommodate the new comers. Five more from Iowa came a few days later—relatives of Messrs. Hotchkiss and Barber.—Cheney Paper. Judging from the alarming nature of the dispatches from Washington it almost seems that the two great political parties of the nation cannot muster men fit for candidates for President. He has to be a native born American, which is possibly the reason why good timber is scarce. No Irishman, German or Frenchman need apply. The New York Senate committee reports finding alarming adulteration of food, dangerous to consumers and imitating good products so as to depreciate country property. Bogus butter is current and dairy farmers are driven out of business. Forty million pounds of imitation butter is sold annually in New York State alone and the dairy business is ruined. Matters are smoothing over at Berlin, Bismarck has had Sargent to dinner on the Kaisers birthday and he attended a soiree at the Emperor's in the evening. Workingmen of Germany have endorsed the course Bismarck took on the Lasker resolution and in his reply the Chancellor spoke pleasantly of the intentions of Congress and said it was not intended to condemn the policy of their government. The affairs in Egypt are mixed up with Arab war but the English troops wipe out the followers of the false prophet, whenever they get near them. Gladstone has to fight these battles over again in Parliament where the opponents call the victory the English won a massacre. It is hard to tell where the most fighting is done, in the Sudan or the House of Commons. There are Arabs in both places. Hon. R. G. Newland informs the Dayton "Chronicle" that though he had about 700 head of cattle on the range near Dayton during the recent storm, he lost but two or three head. He says that many of the cattle became blinded by the snow and sought the shelter of the hills, rushing headlong into the snow drifts, sometimes going nearly out of sight, but by watchful care were all saved. Says a Walla Walla exchange: The great rush of immigrants for this country has now fairly commenced. Sixteen cars containing over 500 men, women and children arrived at Walla Walla Junction last night, and three cars containing about 180 passengers came through to Walla Walla. The hotels are taxed to their utmost capacity to supply lodging, and at one caravansary over twenty immigrants slept in one room. Thursday morning four more cars well loaded with prospective settlers arrived from Wallula. The immigrants are apparently, in the main, composed of thrifty Germans with money to buy farms, and the majority hail from Minnesota, Iowa, Illinois and Missouri.

Waitsburg Times: Ad. Fudge came down from his sheep ranch north of Snake river on Tuesday night. He says that while the weather was unusually bad, necessitating an extra amount of attention to sheep, that the losses are small. From a band of 7400 Mr. Fudge lost only 90 head, a loss which would be considered small under the most favorable circumstances. Portland policemen publish a card saying they are disgraced by the way their chief treats them; that his conduct to them is an outrage. Their complaint was to the City Council. Thirty-four of them join in condemning Watkins. How that city has endured the infamous Bill Watkins this long is astonishing. They are finding out what others knew, that he hasn't a single quality to entitle him to respect, much less preferment. There is scarce a day when the daily papers of Portland, of both politics, do not expose his venality. It is reported that J. H. Cavanah, for MacKenzie & Cavanah, has purchased in Walla Walla this week, in the neighborhood of 50,000 bushels of wheat—including one lot of 16,000 bushels, from Geo. Dacre—to complete the loading of a ship. He is said to have paid 65 cents a bushel, sacked. Some people think there is very little wheat left in the country, but when the news got abroad that Mr. Cavanah was buying he could have contracted for 100,000 bushels in a few hours.—W. W. Journal. Medford, the new station on the Oregon and California road, five miles from Jacksonville, is growing very rapidly and many new buildings are growing up. It is the station for Jacksonville, all freight and passengers leaving the cars at Medford for that place. Many new settlers are locating in that vicinity. A regular agent of the railroad company is to be appointed at once for the greater accommodation of the traveling public. Medford bids fair to become one of the most important towns in the beautiful Rogue river valley before the year 1884 has expired. The experiments of the Northern Pacific in tree planting are satisfactory to the company and very encouraging to the settler. Reports from this department shows that cotton-wood slips planted last year are now eight feet in height, and box elders have grown three feet from the seed during the one season. Trees are within the reach of all, and we need not—unless we will it so to be—be long without shelter, fuel or fencing all over the territory. Cotton-wood will grow an inch in diameter every year, and in five years from the slips fence posts can be cut five inches in diameter.—Valley City Times. A Scotchman is trying turnip-tops for onslage. He carts in enough to cover the bottom of the silo about a foot deep; then has the men get in with sharp spades and cut the tops to pieces and tramp them down. After this some straw is added and another layer of tops, that are treated as the former were. He was perfectly delighted with the result when the silo was opened the next winter. There are roots enough grown in this country to get tops for such purpose, but there are vegetable leaves, such as cabbage, that might be utilized in this way. OREGON GAME LAWS. For the benefit of farmers, hunters and others interested, we publish the game laws of Oregon, which has been obviated heretofore with impunity, but judging from present appearances some of our citizens are going to have it enforced. Section 1. Every person who shall, within the State of Oregon, between the first day of November in each year, and the first day of July of the following year, hunt, pursue, take, kill or destroy any male deer or buck, shall be guilty of a misdemeanor. Every person who, after the passage of this Act, shall kill any spotted fawn shall be guilty of a misdemeanor. Every person who, after the passage of this Act, shall take, or destroy any male or female deer at any time, unless the carcass of such animal is used or preserved by the person slaying it, or is sold for food, is guilty of a misdemeanor. Section 2. Every person who buys, sells or has in possession any of the deer enumerated in the preceding section within the time the taking or killing thereof is prohibited, except such as are tamed or kept for show or curiosity, is guilty of a misdemeanor. Section 3. Every person who shall, within the State of Oregon, between the first day of January and the first day of August of each year, hunt, pursue, take, kill or destroy any elk, moose or mountain sheep, shall be guilty of a misdemeanor. Every person who takes, kills, injures or destroys, or pursues with intent to kill, takes, injure or destroy any elk, moose or mountain sheep at any time, for the sole purpose of obtaining the skin, hide or horns of any such animal, shall be guilty of a misdemeanor. Section 4. Every person who shall, within the State of Oregon, between the first day of May and the first day of September of each year, take, kill injure or destroy, or have in possession, sell or offer for sale any wild swan, mallard duck, widgeon, teal, spoon-bill, gray, black, sprigtail or canvas back duck, prairie chicken, or sage hen, grouse, pheasant, quail, or partridge, shall be guilty of a misdemeanor. Section 5. Every person who shall, within the State of Oregon, between the first day of April and the 15th day of June of each year, for any purpose, take, kill, injure or destroy, or have in possession, sell or offer for sale any prairie chicken or sage hen, shall be guilty of a misdemeanor. Section 6. Every person who shall, within the State of Oregon, between the first day of January and the fifteenth day of July of each year, take, kill, injure or destroy, or have in possession, sell or offer for sale any grouse, pheasant, quail, or partridge, shall be guilty of a misdemeanor. Section 7. Every person who shall, within the State of Oregon, during the months of November, December, January, February and March of any year catch, kill, or have in possession, sell or offer for sale any mountain or brook trout, shall be guilty of a misdemeanor. Every person who shall, within the State of Oregon, take or attempt to take, or catch, with any seine, weir, net, or other device than hook and line, any mountain or brook trout at any time after the passage of this Act, shall be guilty of a misdemeanor. Section 8. Every person who shall, within the State of Oregon, at any time after the passage of this Act, trap, net, ensnare, or attempt to trap, net or ensnare, any quail or "Bob White," prairie chicken, grouse or pheasant, or have in possession any live quail or "Bob White," prairie chicken, grouse or pheasant, shall be guilty of a misdemeanor. Section 9. Every person who shall, within the State of Oregon, at any time after the passage of this Act, destroy or remove from the nest of any mallard duck, widgeon, wood duck, teal, spoon-bill, gray, black, sprigtail or canvas back duck, prairie chicken, or sage hen, grouse, pheasant, quail or partridge, or other wild fowl, any egg or eggs of such fowl or birds, or have possession, sell or offer for sale any such egg or eggs, or willfully destroy the nest of any such fowl or birds, shall be guilty of a misdemeanor. Section 10. Every person who shall have any male deer or buck, or any female deer or doe, or spotted fawn, elk, moose, or mountain sheep, swan, mallard duck, wood duck, widgeon, teal, spoon-bill, gray, black, sprigtail, or canvas back duck, prairie chicken or sage hen, grouse, pheasant, quail, "Bob White," or partridge, mountain or brook trout, at any time when it is unlawful to take or kill the same as provided in this Act, shall be guilty of a misdemeanor, and proof of the possession of any of the aforesaid animals, fowls, birds or fish, at a time when it is unlawful to take or kill the same, in the country where the same is found, shall be prima facie evidence in any prosecution for a violation of any of the provisions of this Act, that the person in whose possession the same is found, took, killed or destroyed the same in the country where in the same is found, during the period when it was unlawful to take, kill, or destroy the same. Section 11. Every person convicted of a violation of any of the provisions of this Act, shall be punished by a fine of not less than ten dollars and not more than three hundred dollars, or imprisonment in the county jail of the county where the offense was committed for not less than five days nor more than three months, or both such imprisonment and fine. One-half of all money collected for fines for violation of the provisions of this Act, shall be paid to informers, and one-half to the District Attorney in the county in which the case is prosecuted. Oregon Salmon in New York. New York, March 16.—Heavy arrivals of Pacific coast salmon have stirred up a lively strife between rival salmon dealers, who are ventilating their claims through the newspapers. Fish commissioner Blackford was seen by an Oregonian reporter. He said: "Salmon from Portland, Oregon, is arriving in lots of from 5000 to 20,000 pounds per day. Freight charges are about 14 cents per pound. These salmon are known as steel heads, and are not considered of any account in the Oregon market, but there arrived yesterday morning two splendid specimens of Chinook salmon, weighing thirty-seven to thirty-nine pounds respectively. These are the very best variety, and are identical in appearance with the Sacramento river salmon. They hardly compare with salmon caught on the Atlantic coast in quality, or with salmon from the Kennebec and Penobscot rivers. The opening of the Northern Pacific railroads going to revolutionize the salmon industry at the Atlantic coast, for as soon as Chinook salmon begin to run they will be sent east by the car load. I have already contracted for three car loads per week, when they commence to arrive. I have no doubt they will retail as low as twenty cents per pound. Just now you cannot get Oregon salmon at less than thirty, and some sell at thirty-five cents a pound. The average weight of the Chinook salmon is twenty-two pounds. They have been caught as big 70 and 100 pounds. These big weights are peculiar to Oregon waters. In other waters they run much smaller." The Pacific coast fish displayed on Fulton market stands attract crowds of ladies and gentlemen. Cattle men in Kansas are excited by the prevalence of the foot and mouth disease in that State. Three herds near Neosho Falls are found to have nearly 400 animals affected by it, many have it in a virulent form. A horde of panthers recently broke in among John Dixon's sheep on the Huntley place, near Roseburg, and killed about sixty head of his fine merino sheep. For a cough or cold there is no remedy equal to Amen's Cough Syrup.
