Wm. Cleak was drowned in the river Skykomish, Western Washington Territory, last week, while crossing in a skiff. When working with his planing mill, near Hillsboro, George Herren was badly lacerated by being caught in the gearing. A cloud burst occurred on a branch of Burnt river that swept a barn and other buildings, doing \$1,500 injury to property. The papers at Dayton, W. T., tell of cool weather and frequent showers that bless the land and swell the crop prospects. At New Iberia, in Louisiana, lawlessness prevails, and a pitched battle was threatened because of disputed election matters. The parties are not known nor who did the murders. The wagon they were in was found and one horse and double harness. The papers have much to say of the affairs of Grant & Ward and generally express sympathy for General Grant's losses and confidence in his personal integrity. This young Ward is a great rascal. There is a popular disposition to disbelieve the insinuations that Grant knew anything of the unlawful dealings of Ward & Fish. It is demanded that measures be taken to protect shad. This fish comes to us from Sacramento where they have been propagated successfully. The Columbia will be well stocked in a few years if the small fish that find their way here are allowed to gain a marketable size. The shad is the finest fish that enters the rivers from the seas. Cut worms are playing havoc with gardens in and around Salem. A good rain would kill them off.
