SALEM MARKETS.

Fresh Meats-Richardson, who sells meat from his wagon through the country tells us that he pays seven cents per pound for beef; that is for the four pound for beef; that is for the four quarters and does not include the weight of hide and tallow. He pays six cents for pork and from two dollars to two dollars and seventy five cents a head for mutton sheep, which is equal to five cents a pound for the meat, and again does not include the pelt and loose tallow. That corresponds with prices paid by Salem butchers. Following prices are paid by Salem

Pacific Northwest. Salem mills sell as follows: Flour \$4.00 per bbl; bran \$12; chop \$16;

shorts \$16 per ton.

Lospon, Feb. 2 ---- The Mark Lane Express, in its weekly review of the British grain trade, says: The weather during the past week was spring-like. Cumulative influences continue to operate in favor of autumn sown crops, espec ially wheat. Native wheats generally have declined 1s@2s. Sales of English wheat during the week were 72,778 quarters at 34s 6d per quarter against 61,317 quarters at 37s 9d the correspondbarleys are lower. Foreign wheats are stagnant and nominally 1s@2s lower.

This powder never varies. A marvel of purity, strength and wholesomeness. More conomical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate pewder. Sold only in cams. ROYAL BAKING POWDER CO., 106 Wall St., N.Y. decly

COMPARATIVE WORTH OF BAKING POWDERS.

REPORTS OF GOVERNMENT CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder.

"I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances. E. G. Lovz, Ph.D."

"It is a scientific fact that the Royal Baking Powder is absolutely pure. "H. A. MOTT, Ph.D."

"I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious sub-stance. HENER MORTON, Ph.D., President of Stevens Institute of Technology."

"I have analyzed a package of Royal Baking Powder. The materials of which tis composed are pure and wholesome. S. DANA HATES, State Assayer, Mass."

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennia', Philadelphia, 1876; at the American Institute, New York, and at State Fairs throughout the country. No other article of human food has ever received such high, emphatic, and uni-versal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world.

NOTE-The above DIAGRAM illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any fair minded person of these facts.

* While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicat-ing that they have any value. All alum powders, no matter how high their strength, are to be avoided as dangerous.

maining there.

Foreign advices shows a decline in est price but those who hold valley lots seem able to do so and demand \$1.20. It is reported that a choice lot of Walla Walla wheat lately realized \$1.20 per Sydney. The market was firm. cental. Tonnage is light but enough to meet requirements and the recent decline in wheat deadens the freight market.

Oats have been freely supplied ; prices ruling at old quotations, 30e to 35c per bushel, according to quality.

Potatoes have been liberally exported and prices paid have been 25c per bushel for garnet chile and 30c for peerless, or Burbank seedlings.

Onions have also been shipped to California, the local jobbing price remains at 14c per pound.

Choice apples bring 50e to 75c and for export are in small quantities.

Dried fruits continue greatly depressed with little promise of improvement. Only choice dried fruit command any price and they not enough to repay the cost. Sun dried apples 5c; factory dried 6 to Se; prunes Se; plumes S to 10c; peaches and raisins, and all imported fruits are not enough. Even the prices above named are not reliable.

Provisions are abundant and values change a little. Eastern meats are in sheavy stock as well as home cured. Portland packers hold back their stocks to prevent decline in prices. Best city hams, 13 to 14c, do bacon 11 to 12c; shoulders 7 to Se : Eastern bacon 11c ; Eastern hams 14 to 16c ; Oregon country hams 121 to 131; bacon 11 to 111; shoulders 7 to Sc. Lard; Eastern tins 111 to 12c; same for home made in pails; 10 to 11c; for 40 pound tins and lard in kegs.

Cabbage, dull sale at lc, per pound : carrots dull at 40 to 50c, per sack.

Butter, Calornia roll 30c, and choice toils about the figure, while common at they will bring.

The week's receipts of breadstuffs at London was unusually heavy, equalling the wheat market and pretty much all the late advance has been lost. Buyers lost of wheat arrived off coast; six Seventeen claim that \$1.17 per cental is the high- were sold, three withdrawn, and five remain, two of the latter being California cargoes. The forward trade is nominal. At the wool sales to-day 9841 bales were disposed of, chiefly Port Philip and

Plea for those in Debt

Scio, Or., Jan. 28, 1885. Editor Willamette Farmer:

To read the communications on the tax question the thought seems to be that the owner of a note, whether derived from borrowed money, or the purchase price of property, has to pay any excessive tax is a mistake as in the end it comes off the debtor and now with money cheap all over the world those in debt in Oregon ought to have a chance to replace the debt at the cheapest rate and to gain that object let money have no restrictions.
