STOCK NOTES.

The first few months of a calf or colt is more important than any other period of its life.

One of the most successful of Illinois dairymen keeps one hundred cows, but he never raises a pound of hay.

To pull wool well, remarks an exchange, is an art necessary for any sheep owner to know.

In New Mexico, where sheep are kept away from habitations, it is always the custom to have nanny goats with the ewes and billie goats with the rams.

The Floor of the Horse's Stall.

The next four or five months will be a trying period for horses whose winter comfort has not been wisely provided for.

If the owner will observe the position assumed by horses at rest in pasture or stable-yard, he will find that a horse standing for some time in a position best calculated of any to give him rest.

The horse, confined on a floor of the kind referred to, soon learns to get back the length of his hitching strap, thus lessening the angle of his footing by getting his hind feet well out upon the floor of the alley-way.

We are well aware, from long experience with horses, that the gelding, urinating as he does upon the center portion of his bedding, so "fouls his nest" as to cause no inconsiderable trouble in keeping his stall dry.

Washing Sheep.

An Eastern woolen manufacturer sends us the following, which may contain some hints of value to flock-masters: "If the practice in those countries where large flock-masters make sheep raising and feeding their sole business is to be taken as the result of experience, the verdict is against the washing of sheep.

Expecting too Much of the Breed.

There is no breed of cattle that will, under all circumstances, adverse and otherwise, turn out well and pay for their keep and care.

COL. JOSEPH H. THORNTON, of Cincinnati, O., an honored war veteran, was for 18 years a victim of that old soldiers' complaint, chronic diarrhoea.

Renews Her Youth.

Mrs. Phoebe Chesley, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town.

BLUE VITRIOL.—Cheapest at Port Drug Co., 100 State street.

Grange Column.

GRANGE DIRECTORY.

The Oregon State Grange. OFFICERS. Master—Judge R. P. Boise, Salem, Marion Co., Ogn.

The Grange in Connecticut.

W. M. Hall of the Connecticut State Grange closes his annual address as follows:

"It is about twelve years since the Grange was first planted in Connecticut, yet only within the past three that it has really won the confidence of our most thoughtful and progressive farmers and their families.

MR. J. J. BAYNE, 52 Lake Avenue, Rochester, N. Y., will tell you if you write, enclosing stamp, that this wonderful story is true: "In 1882 I was taken to the Clifton Springs Sanitarium, in a most deplorable condition, with congestion of liver, constant cold hands and feet, rushing of blood to the head, purple spots on my face, and my skin was as yellow as a lemon.

Eggs by Weight.

It is annoying to the breeder of blooded and fine fowls to find, when he offers for sale eggs nearly twice as large as his neighbors', that they bring no more per dozen than do the smaller ones.

ACME WASHING MACHINE

A CERTAIN AND EFFECTUAL REMEDY FOR Fever and Ague, Intermittent and Remittent Fevers, &c.

This class of diseases so common in all parts of the World, and especially prevalent in malarious districts and vicinages of water-courses, are almost invariably accompanied by more or less derangement of the liver, and frequently by a defective action of the digestive organs.

The mere breaking of the Chill is but a step towards completing a radical cure; the various organs of the body, especially the stomach & liver, must be brought to a healthy and vigorous condition before a permanent cure can be established, and this fact has been specially kept in view by Dr. Jayne in his treatment of these complaints. The use of Jayne's Acme Mixture, in conjunction with Jayne's Sanative Pills, as prescribed in the Directions which accompany each bottle, will not fail.

BREAK UP THE CHILLS,

but restore the system, more particularly the liver and stomach, to a sound condition, and so prevent a relapse of Fever and Ague by thoroughly

ERADICATING THE DISEASE,

and the best evidence of this is the invariable success which has always followed the administration of these remedies, as attested by the certificates published annually in Dr. Jayne's Almanac, and the wide-spread popularity of the Acme Mixture in those districts of the United States, where the diseases, for which it is adapted, most prevail.

For Sale by Snell, Hitzu & Woodard, Portland.
