THURSDAY, Aug. 4, '87

The news by telegraph reports that the big wheat deal has collapsed. And remarkable to say, no flurry in the money markets is reported.

SAN FRANCISCO, Aug. 3.—The big bull deal in wheat collapsed here to-day. There had been mutterings of trouble for several days and the outcome was not entirely unexpected. Top prices were reached last Monday, when the bulls offered \$2 17] per cental for wheat. Yesterday the market dropped to \$2 14. This made the price 2½ cents per pound in San Francisco, against 1½ cents in Chicago and 1¼ in New York and 16-10 in Liverpool.

The collapse of the deal was not attended by the usual excitement, as all sessions of the call board were adjourned, under the action adopted by the board of directors, and posted on the doors of exchange. The reason given plates called "Fitting Rubber Plates." was a desire to avert a threatened panic. This step was not altogether unanticipated, and a feeling of relief was experienced by both parties, who had been strained to the utmost during the past few days

The total amount of wheat the longs have been shouldering is variously computed, but as an evidence of the magnitude of the deal, it was stated that it required \$19,000,000 to carry grain at Liverpool and on the way, together with great qualities in store in warehouses B. Therle, who has heretofore brought in this State. Local banks pursued a us good entertainments and this is our in this State. Local banks pursued a conservative course in the matter, and steadily refused to interfere, content to steadily refused to interfere, content to loan their customers money at liberal ber the time and place. rates. Collateral put up by the ring for advances has been mostly certificates of wheat on hand, and an interesting Yaquina and San Francisco. See adquestion of the failure will be the own-

ership of one-half of the hypothecated

The action taken by the board of diaverted a panic is conceded. The proposition which is submitted this afternoon will be that Dresbach will margin wheat when it is tendered to him down to \$1.70 per cental, and agree with sellers to receive and pay for wheat with inter est at seven per cent, per annum insur. ance and storage charges during the months of September, October, November and December, one-fourth being received and paid for during the months named. Dresbach said to-day: "There will be no disturbance. Nobody will be injured. Everybody will get their money."

Wool market very quiet. The bulk arriving is heavy wool that did not attract interior buyers some time ago. Valley is dull trade. The range to be safely quoted is 16@20c being deemed best prices for ordinary qualities. Eastern Oregon has again sold in the interior to a local manufacturer at 21c. The talk of buyers is of a despondent nature, and they are in receipt of unfavorable advices from the East, the East, these being even less cheering than are public reports.

Prices for chickens have ruled about steady, late supplies not being excessive. Young quoted \$1,22 50, old \$4@4 50. Young ducks \$2 50 and old \$4@5. Geese neglected. Turkeys 121@14c. Wild game is not largely dealt in.

Oats-Shipments light. Best sales of the week were for consumption, and at figures not otherwise possible. Quotations difficult in the absence of any satisfactory shipping market and prevailing high views of holders. As a rule 48@50 is wanted, figures at which dealers are closing out locally. For new 45c is all that is now expected.

Hay in Portland is quoted at \$18c@ \$20 for choice timothy baled; loose hay \$14@\$16.50.

Eggs weaker, and quotations range from 20c to 221c per dozen and good demand and fair supply.

Dried fruit bears the following prices: Sun dried quartered apples 8@9c, sliced 10c. factory 11@12, prunes 16@12c. French do 10c, graded do 10@12c. pitted plums nominally 11 to 12c. peaches 14 to 15c, grapes 51 to 6c, raisins \$2.

Provisions.—We quote for the best city or country cured hams 104@114c; bacon 10@11c, breakfast bacon 111@ 12c; shoulders 6@7c. Eastern hams 13@134c; best local or Eastern lard in tins 81@9c.

Hides—We qoute: Dry hides, 14@ 15c, light salted 61@7c, heavy do 7@8c, dry kip and calf 12@14c, salt kip and calf 9c, salt yeal 8c, valley deerskins 20 @35c for winter and summer, Eastern Oregon 15@20 for winter and summer. sheepkins 75@\$1.25 for short and long wool, elk hides 18@20c, beaver \$2.50@ 3.50, bearskins, \$1.50@6. Tallow 3\cdot e for common
