NOTICE TO SUBSCRIBERS.

The GOLD HILL NEWS is not sent to subscribers after the expiration of the time for which it has been paid, or ordered.

FRIDAY, MAR. 26, 1897.

No person will be asked to pay for the News who does not subscribe for it. It ought not to be necessary to make this announcement, but the practice of some papers seems to make the statement advisable. The News works on business principles and neither plunders nor blackmails.

Friends, the NEWS is now thoroughly established, and we are now ready for your subscription. We rely solely on the people for our support as we have no bank account to fall back upon, and our entire capital is invested in the plant. The more patronage we receive, the better we shall make the paper. If we receive the hearty co-operative of our people, we can publish a paper which will be a credit to the town, country and ourselves which will be mutually profitable.

We come here to make this our home, and we appreciate the kind treatment and liberal patronage we have received since coming among you.

Our sole ambition is to build up Gold Hill and make it one of the best little towns in Southern Oregon. You can help us to accomplish this. Drop in and leave us a paid up subscription, or if at a distance send a check or money order. Don't put it off too long for you may forget it. Now is the time to subscribe.

A good, reliable, regular correspondent is unquestionably the best friend an editor ever had. To know that when an incident worthy of publication occurs at the place of his residence that it will be truthfully and promptly furnished for publication, is a satisfaction enjoyed by few, and a correspondent who fills the above qualifications and thinks he is not appreciated, does an editor's affection injustice. —Mite.

In Kansas, Chas. R. Walters has introduced a bill to incorporate the ten state commandments in the statutes of the state. He is an Illinois man. He went to Kansas from Table Grove, Fulton county, Ill., in 1879, and settled at Oswego, where he has resided ever since. Walters is a democrat.

If you like the News and think it worthy of your patronage, get your neighbor to take it three months, or better still send it to them yourself, it will only cost you twenty-five cents.

Intrinsic value sets the price of everything.

Eighteen cars of cattle passed through the city north-bound Tuesday.

Our county treasurer has sent \$2,000.00 of the state tax money for 1896 he has on hand to state treasurer Metchan.

How about those fire extinguishers? Don't you think it is time something should be done to afford our city some fire protection?

Don't be fooled. Everybody vote for the best men on the ticket and let's settle down and work together for the best interest of the town. Lay personalities aside.

Send the News to your relatives in the east, and advertise the country. We will send it to five different addresses outside of the state, three months for \$1. Now is the time to subscribe.

Paper underclothing is much used in Japan. The garments are cut out of large sheets of finely crisped Japanese paper, the pieces sewed together and the buttonholes strengthened with calico or linen. The fabric is strong, even when wet, flexible and extremely light. A fact to be considered is that every Jap takes a hot bath at least once a day. His paper clothes are so cheap that new ones can be afforded frequently.—Ex.

Will the people of Oregon be willing to wait two years for the legislature to meet and provide for the payment of expenses for which the tax-payers will pour money into the state treasury vaults? Will those men elected in June have manhood enough to lay aside personal interests and meet for the public good. It is time the subject was being agitated, as the months are flying by and state expenses are flying with them.—R. R. Courier.

A newspaper whose columns overflow with advertisements of business men has more influence in attracting the attention to, and building up a city or town, than any other agency that can be employed. People go where there is business. Capital and labor will locate where there is an enterprising community. No power on earth is so strong to build up a town as a newspaper well patronized, and its power should be appreciated.—Myrtle Point Enterprise.

The boys received a severe lesson Friday morning when one of them died from the effects of having a leg taken off by the train and it will probably keep the boys off the trains for a while. About a dozen boys have been in the practice of loafing around the depot grounds, jumping on trains and otherwise endangering their lives, none of them over 15 years old. Are the parents of these boys doing their duty by allowing this?—Oregon City Press.

If the boys of our city continue this practice one of these days we will be compelled to write a similar item of our boys losing a leg or his life. Accidents will happen.

Charles Miller, the boy whose leg was crushed under a freight train

which he was attempting to board in Oregon City, Wednesday evening, died Friday morning at Gladstone hospital, having failed to rally from the amputation rendered necessary by the accident. He was a seventh-grade pupil at the Barclay school, and Wednesday, his last day in school, his class was directed to write a letter in their copybooks. Young Miller's letter was addressed to his father, saying he was going away and bidding his parents farewell. Late the same day, in language work, young Miller was required to write a sentence on the blackboard, and this, that he then wrote, still stands there: "All my work is now ended."

DEAFNESS CANNOT BE CURED.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give \$100.00 for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

An exchange tells a story of a woman who went to an adjoining town and purchased a supply of carpets and household decorations. Admiring neighbors suggested that she had best not let anyone connected with the newspaper know that she had gone out of town to purchase her carpets instead of patronizing local merchants as she would be apt to get a newspaper scolding. She very properly replied that until the merchants of the town get around to advertise in the papers that they had things of that sort to sell, together with the quality, style and price neither they nor the paper had any grounds for faultfinding. All of which is strictly true. We often hear kicks by merchants because their townspeople go out of town for goods which they could have sold them at no higher prices. Spend the necessary money with your local papers to inform them of the facts and you'll get their trade. Otherwise you won't get their trade, and you don't deserve it.
