Time to Call a Halt.

It seems our Marshal has little to do other than pull the city into law suits in order to extort a paltry fee and gratify a revenge on personal quarrels of his own. The city needs funds to erect a city water works and many other things are needed. Is it not time to call a halt? If such shister acts are permitted to continue we had better surrender our charter and quit.

The DeMoss family have purchased the stage coach in which Horace Greeley took his historic ride with Hank Monk, and have started from Reno, Nevada, for Oregon.

Have you ever noticed that when you meet a doctor he says: "How are you?" A newspaper man inquires "What do you know?" But a lawyer hits you on the back and ejaculates, "What have you got?"

The people who own the property in a town are the ones to improve it. A town with a tone of cleanliness on its own part and interest and pride on the part of its population will have an influence for good that no power on earth can overcome.

All persons should remember that the law permitting the use of private mailing cards with one cent attached in lieu of postals goes into effect on June 1st, '97. The NEWS, can fill all orders for cards or any other job work in the latest styles at regulation prices.

"Layin' on o' the hands" for complaints, especially in children, is now taking the place of Christian science. A mother cured her boy of a bad habit by one dose. She laid her left hand on the boy's neck, her right hand on a substantial slipper and then laid the slipper where it would do the most good. It effected a cure, and a relapse is not likely to occur—Ex.

At last Gold Hill will have a first-class livery stable. Messrs Smith & Parker have leased the livery barn of Nettie Dodge and are arranging to equip it with new rigs and good stock. This is the first time in the history of the town that first class rigs could be had here. We bespeak for these gentlemen a good business, as we know both to be honorable and good business men although they are young in the business.

Dr. Talmage truly says: "A newspaper whose columns overflow with advertisements of business men has more influence in attracting attention to and building up a city or town than any other agency that can be employed. People go where there is business. Capital and labor will locate where there is an enterprising community. No power on earth is so strong to build up a town as a newspaper well patronized and its power should be appreciated."—Ex.

The editor of the Inland Empire recently heard a doctor say that a piece of pie was good for a person just before retiring in the evening, and the genial pencil pusher gave it a trial. He retired and dreamed that a fire-red dragon with a pea green tail and eyes as big as a soup plate was carving him up with a meat-saw and a sword. He finally awoke to find his good wife fanning him with a bed-slat and trying to get the baby out of the coal scuttle, where he had put it to keep the dragon from getting it. He now says, "Hang the pie, give us prunes."

If our friend Phipps of the Miner is doing the vast business he says he is, we would suggest that he put on an extra hand and set a few lines more of news to occupy the space now taken by that populist Platform he has been running every week for the last six months. Everybody knows it by heart now.

Never send a dollar away from home when the article that dollar will purchase can be obtained at home. Money is our financial blood. It's circulation keep the body alive. Bleed that body by sending the money away and business will put on a lethargy and inactivity. Always trade at home. Watch the bargains offered by enterprising advertisers in this paper and you will learn the best place to spend those home dollars.

The Grand Army is dying out at the rate of 100 a day. Every fifteen minutes of the twenty-four hours: of late the final tap sounds for some one who wore the blue. Every year puts under the sod more soldiers than there are enlisted men and officers in the whole United States army. Time is carrying them off faster in the nineties than the bullets did in the sixties. The war lasted four years to a month. In these four years 84,000 men fell in battle on the Union side; But now between 35,000 and 40,000 die in the course of nature each succeeding year.

A town, unlike a city, is no place to foster jealousies and nourish contentions. All should learn to know that whatever will conduce to the welfare of the town cannot injure her citizens. The disposition made manifest by her citizens point to her down-fall or her raise. The character of the people make the town, not her structures, towertop houses, domes or monuments and when the people lose their interest in the promotion of their town they need not hope to thrive. Harmony among the people of a community is indicative of its progress. Farmers cannot be at a variance with one another and prosper, merchants cannot, churches cannot, nor can any similar industry, organization or community.

NOT EXACTLY RIGHT is the way thousands of people feel. It is because their blood is poor. Hood's Sarsaparilla, the one true blood purifier, will promptly set them right.
