All lovers are alike, and that is why they correspond.

There is no danger of the claims on the Klondyke spoiling before spring. They will keep well on ice.

Just why the Cuban junta should rejoice so greatly because Weyler is "out" is not apparent. What if his successor should prove to be a man of ability?

Since July 1 the war department has spent over \$20,000,000, most of it going for coast defenses under former contracts. It may yet prove the best investment we ever made.

If people will go over dangerous falls, why do they use a barrel? If the trip be made in safety, all the credit should be given where it belongs, to the barrel. A bit of cork, or a senseless chip, is better at shooting falls than any man that ever lived.—Ex.

It would well comport with the spirit of the age if Cuba should purchase its independence. Money is more powerful today than bayonets and balls. The concert of the bondholders determines the map of Europe. It cannot be ignored in settlement of Cuba's fate.

The Dingley law receipts for the month of September exceed those of the second month of the Wilson law, and the deficit for the month is trifling. The second month of the Wilson law developed a deficit of over \$13,000,000, while the second month of the Dingley law was only about one-tenth of that sum.

The Nebraska banks are complaining that they have more money than they can loan, and the farmers of that State are paying off their debts with unexampled rapidity, thus making Mr. Bryan's home State a rather uncomfortable place for him just now. This may account for his anxiety to break into Ohio and New York.—Ex.

Young ladies have for some time been wearing leather belts, and now they are wearing cowboy hats, with leather bindings and bands, which, by the way, those who have not yet bought one, say "look just horrid." When, in addition to this, it is known that a gentleman was seen on the streets a day or two ago wearing a leather watch-chain and also a collar and necktie of leather, it looks as if people were coming to the conclusion of the old tanner, in the fable, who, when required to give an opinion as to the best material for fortifying the city he lived in, said: "There is nothing like leather."

Retaliatory legislation with reference to out tariff is not being heard from, despite the dismal predictions of last June and July. The only place where it is suggested is in Argentine, and a study of the commercial relations of that country with the United States shows that there is little probability that any action will be taken which would disturb the business relations of the two countries in view of the fact that we buy more from Argentine than she buys from us.

HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linens it is evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfils every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail. Mention Gold Hill News and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.
