TO ADVERTISERS.

THE VALUE of a paid in advance subscription list is well known to you. Every subscriber takes an interest in the paper, looks for it eagerly, reads every page of it carefully, and shows it to his neighbor. A paid in advance list of 500 subscribers has the purchasing power of 2,000 on a credit subscription list. The GOLD HILL NEWS subscribers pay in advance, and if you let them know what you have to sell you will hear from them.

Something has dropped.

Yes he's as mum as a mouse.

Phipps has closed his fly-trap.

The S. P. Ry. Co. will now get a rest for awhile.

What did you get, Bro. Phipps? Transportation or Cash?

The man who is always accusing others of prevaricating is the man to be watched.

Whenever you hear a girl referring to a man as an idiot she is in love with him, and he is probably in love with some other girl.

The relative size of the earth as compared with the sun is, approximately, that of a grain of sand to an orange. We are small potatoes, ain't we?

The "people's paper" has no more to say about the "monster railroad corporation's" taxes. A string must have broke. We notice he stopped short off, never to start again, like grandfather's clock.

"Don't run into debt," says the East Oregonian. That's right. Dodge it as long as you can, and when you see it coming down the street take your chances among the bicycles rather than let it catch you.

Iowa has again fallen back to the high license system after a number of years experience with prohibition.

More people have received Christmas presents and have enjoyed a happy New Year this season than for a number of years.

Out of the ninety members of the last legislature, two have died—physically, while quite a number have expired, politically.—Ex.

The New Years edition of the S. F. Chronicle was a handsome edition and a good advertisement for California and the Klondike country.

Gold Hill ought to grow during the coming year—and it will if the proper amount of energy and enterprise is shown by our property owners and business men.

A Kansas editor is very proud of a new baby in his home. He remarks: "We would not take \$10,000 cash for this one, and would not give 50 cents for another."

When your best girl tells you that she thinks you are the handsomest man in the town, it is well not to depend too much on the statement. Her judgment may not be good.

A gallant California judge has decreed that "a wife can be compelled to support her husband by labor." It is an undoubted fact that multitudes of wives do that without any order of the courts.

Dispatches to the press state that Durrant who will be hanged today is breaking down. His restless and silent occupation of book-reading has now given place to fits of melancholy and wild pacing to and fro in his cell. His rest is badly broken, and he has lost flesh perceptibly since placed in the condemned cell.

Nearly every town in the state has organized a board of trade, to further the interests of the community in which it is located. There will be a large stream of travel from the east this spring, enroute for Alaska. If Southern Oregon could do something to show its advantages over the Klondike districts, a large percent of these people, could be induced to stop among us. Of course it will cost us something and take lots of hard work but we would be rewarded in the end. Why not the business men of Gold Hill get together and do something for our town? It is high time we were opening our eyes before our neighbors snatches the plum from under our noses. Lets think of these things and do something right off.

Did it ever occur to you, really how much reading matter there is in the NEWS? This week there is 18 feet and two inches single column width or 218 inches. Each inch contains on an average, seven lines, making a total of 1,526 lines, of seven words each, or 10,382 words. This is as much or more news matter, as is printed in the average county papers, of towns three times the size of Gold Hill. The NEWS is not as small as it really seems to be.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

The New Years edition of the Oregonian was one of the best the Northwest has ever seen. It not only reflects credit to Portland the city in which it is published but to the entire state, as well as those who labored to produce it.

Storekeepers, postmasters, and express agents all over the country have reported Christmas business as unusually heavy this year.

Some people think themselves above all other beings on earth. Just remember there are other pebbles on the beach.

Some of our good citizens mean all right, but they have too much starch in their necks and not enough rubber.

The Spanish government has refused to send any more men to Cuba to keep up the war.

When you invite people out to your homes, don't act like you were on ice all the time.

A Los Angeles paper thinks Durrant's attorneys should be hanged also.
