The Gold Hill News is the only paper in the county, published under its own roof.

Who makes a happy home makes for some one a happy world.

Congress meets next Monday. The session will last until March 4th.

An elevator trust has been formed in the East. There shouldn't be any difficulty in such a combination raising and lowering things—prices included.

A club at Trarbach, in Germany, offered a prize of a barrel of wine for the best song, and received 2149 responses. They must be a very poetic or a very thirsty lot over there.

Hobson is to go back to Annapolis, there to become an instructor. Certainly this will be a more profitable line of employment than raising sunken warships for other people to wreck again.

Russia says she will not interfere with our taking the Philippines, but gives us to understand that she will be displeased. That is bad, certainly, but perhaps we can bear up under it if we try real hard.

Buy at home and give your neighbors a chance to return your money to you in exchange for something you have to sell—whether labor or goods. Portland merchants are not going to either give you employment or purchase goods of you.

Kissing a baby may result in deforming its nose or bringing on near-sightedness. The safest plan is not to kiss a baby of the feminine persuasion until it attains the age of 16 years. The cartilage of the nose is much stronger then, says the Milton Eagle man who is an authority on the subject.

Sam Jones, in common with others that we are acquainted with, decries divorce. Evidently Mr. Jones is better versed in dogmatical problems than with human nature "as she is." Does the gentleman wish to compete with unsuitably temperamental and disposition by living together as man and wife? If so what will the issue be?

A newspaper whose columns overflow with advertisements of business men has more influence in attracting the attention to and building up a city or town than any other agency that could be employed. People go where there is an enterprising community. No power on earth is a strong to build up a town as a newspaper well patronized, and its power should be appreciated.

Spain has accepted (under protest) the proposition of the American peace commissioners at Paris. This action of Spain was generally anticipated, for it would have been utterly folly to take any other course.

If Spain had broken off negotiations she would have lost at once not only the Philippines, but the Caroline islands, and the \$20,000,000 now offered her; she would have risked, too, the seizure of the Canaries and the bombardment of her home seaports. She can make no resistance, for she is without money and without a seaworthy navy.

Prosperity has struck Lebanon, that stronghold of men of populist faith despite the facts that Lebanon is the home of M. A. Miller, would-be-running mate of Billie Bryan, and that the country is still struggling along under the "accursed gold standard." Lebanon merchants report trade better this fall than ever before.—Oregonian.

The destruction by fire of the Baldwin hotel, in San Francisco, proved a greater tragedy than at first was supposed. Quite a number of dead bodies have been found in the ruins. It is a wonder that more of the guests in the hotel did not perish in the flames. The building was wooden and a veritable death trap.

What's the matter with our citizens? Why not have a public Christmas tree for the young folks in the church or school house? Who will be first to take steps in the matter? We will gladly lend our assistance.

Horace Greeley's advice to the South to "raise more cotton and less hell" has only been half taken. It is, indeed, raising more cotton, but alas! it is also raising more hell, especially in the Carolinas.—Ex.

The delinquent tax list is being published in the Ashland Tidings. It is much smaller than usual and goes to show that times are better and money more plenty this year than for many years past.

A man who says that times are not better today than they were a year ago either forsakes the truth or is too lazy to work.—Canby Independent.

SEE THE NEW ADS.—This week Reames Bros. have something to say to you in regard to canned goods, Geo. E. Nichols tells you of some of his bargains and about two Christmas presents he will give to his customers. Geo. Kurtz has the best line of cigars, pipes, etc., in Medford and has something to say to our readers in his new ad this week.

The finest line of writing tablets and paper in the city can be found at Kahler's news stand.

EARLY MORNING EXCITEMENT.—Last Tuesday morning some boys started the story that one of the Moon boys had fallen into the river and drowned. It was only a few moments until the river was lined with people eager to render assistance when the supposed drowned boy appeared on the scene and inquired what the excitement was all about.

UNDERGOING REPAIRS.—Monday morning the NEWS man and force started in to remodel and fix up the office more conveniently for the large amount of work which requires more room. The shop is now completed and we are prepared to do all classes of printing, except the poor kind, on short notice. Call and see our samples and get our prices.

Send your watch work to E. D. Elwood the Medford Jeweler and Optician. tf.

ASSAYING DONE IN GOLD HILL.—One day this week C. H. Dalrymple moved his furniture out of the back rooms of his office to make room for an assaying plant which will be put in immediately. An expert chemist will be in charge. Our mining men will soon be able to ascertain what their mines contain without sending to the city.

Notice for the location of placer and quartz mines, etc., for sale at THE NEWS office.

MINING PROPERTY WANTED.—I am in correspondence with capitalists who want to invest in good placer and quartz mines. All owners of mining properties are requested to bring in samples and list their property with me. C. H. Dalrymple. tt.

A CHANGE IN BUSINESS.—One day this week the firm of Reames Bros. & Co. changed hands. E. A. L. Smith having retired from the firm which will be known hereafter as Reames Bros. The company having been chopped off.

Kame and Merley, of Medford are reaching out after some of the holiday trade of the readers of the NEWS. Their ad may be seen in this paper on another page.

TWO POINTED QUESTIONS ANSWERED.

What is the use of making a better article than your competitor if you can not get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by Gold Hill Drug Co. or Ben Haymon at Rock Point.

Sheriff Sale.

Ben Hays has entered the seventh grade and Addie Hays and John Cox the fifth; Lulu Newton has also entered the teacher's class, making four new pupils this week.

John and Jimmie Moon were absent Tuesday. Their absence will need no explanation to Gold Hill people as the greater part of the town were on the river bank in search of John that morning.

The public school will give an entertainment on Dec. 23rd for the purpose of raising funds for the Library. A programme will appear in these columns later. We hope that everybody in the district will take an interest in this effort, and lend a helping hand.
