

# WE ADVERTISE FACTS— AND FACTS ONLY

There is hardly a day but some store "claims" to offer "phenominal" bargains, values that look (in the papers) beyond all reason or precedent; but go there and all you will get for your trouble is disappointment. We don't believe it pays to fool people. Our business is being built upon the platform of honest goods, honest prices and honest advertising, and we'll stick to it forever.

San Francisco Beer on draught for the family trade. The best glass of Beer in town can be had at Jasmann's saloon.

It is not likely that Frank Lawrence Smith, the condemned murderer of Peter Nelson, will be re-sentenced by Judge Hanna before the regular April term of the circuit court, as the mandate of the supreme court, which denied Smith a new trial, will not be received until after the present term adjourns sine die.

**MINING PROPERTY WANTED.**—I am in correspondence with capitalists who want to invest in good placer and quartz mines. All owners of mining properties are requested to bring in samples and list their property with me. C. H. Dalrymple.

It is rumored that the big dredger up the river, is to be removed from this vicinity. The report however is not confirmed and it is hoped that it is merely a rumor. There is surely gravel in Rogue River that will pay enough to operate such a machine.

A recent decision of Judge Hanna in the Grieve vs Jackson county case, is in effect that the County Assessor is not authorized by law to employ deputies to assist him in his work, and it looks as if County Assessor Pendleton will have the entire assessment work of the county to do himself, and that before the first of October. However, legislation may be had which will change the situation, a bill having already been introduced, by Representative Sherwin, to provide an annual salary for the assessor, in lieu of the present per diem.—Tidings.

Work has been begun on Roseburg's new railroad depot. It will be a handsome one.

Senator Cameron, of Jackson county, is one of the quiet and efficient workers in the senate. He is the chairman of the committee on mining and is doing good work for this section of the state.

### THE OLD MAN'S STORY.

In every town and city in this country there are old men who have the same story to tell. They point out valuable pieces of property and say, "when I was a boy that property was away out of town. It was nothing but a farm. I could have bought it then for \$10 or \$20 an acre. Now it is worth \$10,000. But I never thought the town would grow out that far. If I had known as much then as I do now, I would be a rich man."

You have met these old men and wondered how they could have had such poor judgment, but did you ever stop to think that your judgment is no better? Who can tell how big Gold Hill will be by the time you are old and gray-headed?

I am in the real estate business, in connection with the News. Prices are very low now. This very day is the best time to avoid the mistakes spoken of in the above old man's story.

I have a house and lot in one of the most desirable locations in town, and is constantly occupied at \$4.00 per month, which is ten per cent interest on four hundred and eighty dollars. This property can be had for a trifle more than half that amount. This is one of those bargains referred to in the old man's story so often related. For particulars call on or address
