The Gold Hill News is the only paper in the county, published under its own roof.

Wise men know more than they tell, but fools always tell more than they know.

The relatives of Branton, the murderer, are working on a petition for the commutation of his sentence to life imprisonment.

Spain's delegate to the international peace conference at The Hague will speak as one having authority. He knows what peace is worth.

The population of the earth is estimated to be about 1,500,000,000. In 1898 it was 1,485,863,000. That was before the Filipino rebellion.

Customs receipts at the Philippines average \$300,000 a month and are increasing. With peace the islands would soon reach a self-supporting basis.

The revenue for the construction of bicycle paths is coming in rapidly. The question of expending it judiciously and without unnecessary salary attachments is next in order, and no doubt this will prove much more difficult than raising

the fund. Not that it will be hard to spend the money. But to spend it judiciously and honestly—there's the rub.

Always look at your joys with a microscope, and at your sorrows with the wrong end of an opera glass, says an exchange.

A Kentucky farmer owns a mule which has in some unknown manner acquired the tobacco chewing habit, and it will not work unless it is regularly provided with its quid.

Admiral Dewey has signified that he would rather be Dewey than the president of the United States. Now and then we find a diamond in the rough that needs no polishing.—Lakeview Register.

When the Kansas legislature adjourned the other week, detectives were at the doors to prevent members from carrying off furniture and other movables in the chamber.—Ex. The same thing should have been done in this state.

"You can hardly pick up a daily paper without noticing that a new trust has been or is about to be formed. And yet legislatures hesitate in giving them the knife under the fifth rib or other spot where it will do the most good."—Ex.

What's the use? Just give these calves plenty of rope and they will take care of themselves.

Peace negotiations are said to be getting on apace in Luzon. Is it possible that General Otis has been supplied with funds by Mr. Hanna for use with Aguinaldo? If this has been done, it would be a coup de main worthy Mr. Hanna's brightest moments. Contributions for next year's campaign could not be more judiciously applied.—Oregonian.

The man who "flourishes a revolver" without intent to kill is again in evidence, this time in Linn county, with two victims to his credit—a young woman who happened to be in range and her mother, hurrying to her assistance and meeting death from accident en route. It should take some plea more potent than that formed by the "didn't mean to" and "so sorry" combination to keep a malefactor of this kind out of the penitentiary.

No time should be wasted in completing water works in Gold Hill. The dry season is here, and although we have so far miraculously escaped burning out it is not too soon to crow over the fact. Several western towns have been practically wiped out by fire during the past month, and we may consider ourselves exceedingly fortunate if Gold Hill does not meet the same fate, with absolutely no fire protection. Procrastination in this instance doesn't pay.

It appears that Germany has, or is likely to have, a Dreyfus case on her hands. A sergeant-major of one of the regiments of the imperial army lies in prison at Spandau, charged with having disclosed the secrets of the German military service to Russian agents. The world will not, in all probability, hear as much of this case as it has heard of the Dreyfus matter, but if the charge is well grounded the traitor will no doubt be given short shrift, as having committed the unpardonable sin in the eyes of the nation, from the kaiser down to the lowliest of his loyal subjects.

Gold Hill Has a Few.

There are a few people in every community, sometimes business men, too, who expect their local paper to stand by them and their interests upon any and all occasions, and yet if the editors of said papers could live on a dollar a year and depend on any one of them for half the amount, cash down, they would find it necessary to suspend in order to exist.—Ex.

Pains in loins, puffed eyelids, palpitation of heart. Hudyen cures. All druggists, 50 cents. 3

Take this home and read it when you have plenty of time and if you don't catch it all the first time read it again. Don't belong to that numerous family of scrubs who can't or won't do anything themselves, and won't let anybody else go ahead. The world is full of them but don't you be one. Don't pull a long face and get sour in the stomach. Hope a bit. Get a smile on your face. Hold up your head. Get hold with both hands. Then pull. Don't try to push your neighbor aside. No man ever gets rich by trying to make people think he is the only man on earth. You can't climb the ladder of fame by stepping on other people's corns. All men are not alike. Once in a while you may find one who is very much alike another. But some are different. You're not the only one. There are others. There is no end of fun in minding your own business. And it makes other people like you better.

Tired limbs, aching joints and pains in muscles. Hudyen cures. All druggists, 50 cents. 3

An Albany man recently was greatly annoyed by his neighbors chickens, so he disposed of the matter in the following manner. On a lot of cards he wrote; "Keep your darn old chickens at home," tied a string with some corn on the end of them and scattered them in the yard. The neighbor was greatly surprised when he saw the birds coming home with the advice in their mouths.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea. I have never had to use more than one or two doses to cure the worst case with myself or children.—W. A.
