*The Gold Hill News
is the only paper in the
county, published un-
der its own roof.*

Saturday, May 13, 1899.

The promoters of the copper trust will doubtless be men of cents.

The Filipinos have three "i". And then they can't shoot straight.

The head of the procession of hottest days on record will be due in a little while now.

Dewey's reminder that silence is golden explains why it is so little employed by William Jennings Bryan.

The first steam calliope made its appearance in Albany in 1858. For obvious reasons its inventor remains anonymous.

The man who tells you a secret and asks you not to tell, doesn't treat you right; he enjoys telling it, and forbids you having just as good a time.

It is not exactly according to precedent for United States troops to be endeavoring to break up the union, but that is what they are doing at Wardner.

About 10,000 people in mass meeting assembled in Chicago last Sunday indorsed the policy of the government in its attitude in the Philippine islands.

A Kentuckian says he understands that oil is sometimes used to calm troubled waters, but what he can't understand is why any one should trouble water.

If the Philippine war ends now it will have lasted just long enough to show that under any and all conditions the American soldier is the fighter of the age.

Our noble boys of the Second Oregon will be received with open arms and a grand reception when they return from the Philippines—which won't be long now.

This is enlistment season in Spain, but the army is not filling up very rapidly. The majority of the Spaniards have about concluded that they are not a fighting people.

A Chicago lad of 20 has just married a woman of 59. Many and many are the ladies of that age who are altogether charming—but the average man ought to be contented with one mother.

Explaining his proposed retirement from business. Mr. Carnegie says that he believes in "developing a dignified old age after 60." Most anybody can be dignified—on a hundred millions.

The omission of wine from the bill of fare of the last Bryan banquet is clearly a bid for the Prohibition vote in the next campaign. From this straw it is surmised that Col. Bryan expects to win without the help of Kentucky.—Ex.

The Roseburg Review is putting in a lot of new material and improving in every way. The publishers of this paper get out a daily and semi-weekly edition all of which are first-class. They are the best papers in Southern Oregon, to our

notion, (outside of the GOLD HILL NEWS)

If the Filipinos had fought against the Spaniards as well as they are fighting against the Americans they would have won, hands down. But the Spaniards were not foolish enough to supply the natives with arms and ammunition.

Owing to the recent suit decided against them, the Bellamy colony, of Lincoln county, has broken up, and the association is no more. Many of the members will return to their old homes in Dakota. Thus they are turning backward instead of "looking backward."

Good and bad results have followed the organization of trusts. How to overcome the bad results without doing away with the good, is the problem puzzling statesmen. Any demagogue can jump up and curse the trusts and combines but statesmen realize that the problem is a deep and difficult one.—Ex.

A church in Louisville, Ky., has given its members who are distillers one year in which to sell their distilleries or withdraw from the church. We now await with considerable anxiety for some explanation from that church of what it expects to do for the sinners who well purchase the distilleries.—Ex.

The wheelmen of this place are beginning to want to know where the money they are paying as bicycle tax is going to be spent. We are quite a distance from the larger places that have many wheels but we would like to have the money we are paying in for bicycle paths to be spent so we will get some benefit from it.

The latest figures on the Philippines give the number of islands as 583 and the area as 137,000 square miles, about equal to New York, Pennsylvania and Ohio. The number given by some geographers was formerly as high as 1008. So it would seem from the revised count that Dewey has perhaps inadvertently blown some of them off the map.

It looks as if they might be getting properly down to business in the matter of arresting men whose actions are inimical to law and order at Wardner. The sheriff of Shoshone county has been arrested and run into the prison barn with the common herd whose lawlessness he permitted and encouraged. This is some compensation for the fact that most of the leaders of the mob have escaped, leaving their dupes to bear the brunt of the penalty.

The Prison Missionary is the name of a small paper published in the penitentiary at Salem by L. J. Sprague, a prisoner, No. 2409, in cell No. 138. It is strictly religious and its exchange list contains no local secular papers. Only seventeen convicts have paid twenty cents each for a year's subscription. If those in the pen had thought of the things published in the missionary long ago there would not have been a necessity for the publication.

There are no trusts or corporations in Russia. Combined capital has no rights or powers in that country. The government runs the railroads, and such other things as are too huge for individuals to handle. The government is tyrannical, and has to be, in order to make a success of its undertaking. The individuals are limited by conditions so that they can accomplish but little. As a result Russia is at least one hundred years behind the times, and is not gaining any ground on advancing civilization.

A DELICIOUS SMOKE "Kurtz' New Deal 5c Cigar"

Ask your dealer for this cigar, as by smoking them you help to build up a local industry. The "New Deal" is manufactured in Jackson county.

KURTZ' BOQUET
THE BEST TEN CENT CIGAR ON THE MARKET.

LIQUID ELECTRICITY!

THE GREAT REMEDY FOR PAIN.

LIQUID ELECTRICITY is a Dead Sure Shot for Pain. Every Pain instantly relieved by one thorough application. Sprains, Bruises, Stiff Joints, Headache, Toothache, Pains in the Side or Limbs, Contracted Muscles, Pain in Chest, Lame Back, Etc., banished like Magic.

READ WHAT OUR CITIZENS HAVE TO SAY ABOUT IT.

THIS IS TO CERTIFY that I have used Liquid Electricity and found that it is the best remedy for rheumatism that I have ever tried. My breast and shoulder were so sore for twelve months that I could not rest. I tried one trial bottle of Liquid Electricity and it helped me so much that I got a dollar bottle and am now resting very easy. Thanks for the remedy. Yours Very Truly,
J. J. Stacy.
Sams Valley, March 14, 1899.

Sams Valley, Ore., Mar. 15, 1899.
I have tried Liquid Electricity both for cough and pain and think it equal to anything I have ever tried.
Geo. K. Walker, Post master,

Sams Valley, March 15, 1899.
Dr. W. H. Eldred,
Chicago, Ill.,
Dear Sir: I used one sample bottle of Liquid Electricity and it has helped me wonderfully. I can recommend it to anyone. Yours Very Respectfully
John B. Williams.

PRICE 25c, 50c, and \$1. Per Bottle.

Liquid Electricity will Afford Instant Relief.

TOWN BOARD MEETING.

The city council has met several times this week to consider bids on the water works, and has adjourned just as many times without accomplishing anything. Thursday night they adjourned simply because the board was not all present. This is we believe a very poor excuse. The charter only requires three members to be present to make a chorom to transact business. Thursday night there was four present. Our town needs fire protection, and needs it bad. Time will wait for no man and if the town board is going to take any action on the matter this summer the sooner they come to a decision the better. Either go ahead and do something or quit and let the town die one or the other.

Spots before the eyes, despondency, constant worry. Hudyancures All druggists, 50 cents.

Miss Marguerite Lindley, the anti-kissing agitator, in a late interview justifies her opposition to the practice on sanitary grounds, while admitting, by implication at least, that she has indulged in it herself. But she cruelly declines to give out any of the interesting particulars.

Texas has a woman Samson in Jennie Robinson, colored, of Burleson county. Jennie weighs 447 pounds, and has strength in proportion. According to the overseer of the plantation on which she works, she recently lifted a piece of machinery which five brawny negroes had vainly attempted to raise. Another story is told of her. She was riding a stubborn mustang, which refused to cross a bridge. Jennie dismounted, tied the animal's legs, threw him on her shoulder, carried him across the bridge, and then continued her journey.

SAMS VALLEY NEWS.

There was a very large attendance at church last Sunday.

There was a show at Moonville last Wednesday night but it was a very tame affair.

D. Hodges, of Trail creek, who has been laid up with Lagrippe is improving nicely.

H. Root and wife, of Talent were the guests of the Sisemore family last Wednesday night.

Mrs. Cliff and family and Mrs. A. L. Gall are visiting their parents on Butte creek this week.

C. B. Fitzgerald will give a temperance lecture in the Moonville hall next Sunday at 11 o'clock.

Mrs. Carrie Smith and children who have been visiting in the valley will soon leave for Pendleton.

Mrs. A. C. Stanley returned to her home in Gold Hill Wednesday after a few days visit with friends in this neighborhood.

Arthur Fitzgerald and family, his brother Walter and his mother went to Grants Pass Tuesday to visit friends a few days.

David Z. Beidler and his mother expect to start for Colorado about the 22 of this month. We regret to see them leave but hope it will be for their good.

Louis Pankey came in from Bly, Klamath county last Saturday with a four-horse team to get a load of supplies. T. J. Smith and family returned with him.

John Sisemore and Tom Wyatt took a spin to Grants Pass one day last week. While there Mr. S. traded for a fine buggy team. He says he ought to catch a "wourman" now without any trouble.

The farmers generally in this section are jubilant over the prospects of the big ditch being constructed through this valley. It will be the making of the country if it is ever completed, which we hope it will, but there are a few doubting Thomases.
