

A Busy Woman

is Mrs. Pinkham. Her great correspondence is under her own supervision.

Every woman on this continent should understand that she can write freely to Mrs. Pinkham about her physical condition because Mrs. Pinkham is

A Woman

and because Mrs. Pinkham never violates confidence and because she knows more about the ills of women than any other person in this country.

Lydia E. Pinkham's Vegetable Compound has cured a million sick women. Every neighborhood, almost every family, contains women relieved of pain by this great medicine.

Ordinary chimney soot is an excellent fertilizer and should be carefully saved. That from coal is superior to that from wood. It contains nitrogen, and is beneficial to all crops. It is disliked by some insects, and is used as a preventive of their attacks, for which purpose it may be more profitably applied owing to the small quantity produced prohibiting its use extensively as a fertilizer.

KAFFIR DIAMOND MINERS.

Treated Like Criminals and Earn an Average of \$2.50 a Week. Much indignation has been expressed by the English press at the reports that the Boers searched the Kaffirs for money and otherwise mistreated them. The English treatment of the 10,000 Kaffirs who work in the diamond mines of South Africa is not much better. Every night when these black workmen leave the mines they are obliged to strip to the skin, hanging up their scanty garments for further investigation by inspectors of the company.

KAFFIR MINE WORKERS.

Each man is then carefully examined to see whether or not he has concealed any diamonds on his body. Even their mouths and ears are inspected. They are then locked up for the night, and in the morning the bed clothing they have used is gone over. For this service they are paid on an average of \$2.50 a week. Severe punishments, including whipping and imprisonment, are provided for such as may be caught in the attempt to steal the precious gems for which they search.

MISS ANTHONY RETIRES.

She Relinquishes Presidency of Suffrage Societies.

The great champion of woman suffrage has at last met an enemy she cannot conquer. She will be 80 years old in February, and, because of her great age, has announced her retirement from the position of President of the National Association of Woman Suffrage Societies, with which she has been connected either as President or Vice President since 1869.

Susan B. Anthony began to teach a country school at the age of 15, receiving as pay \$1.50 a week and "board round." For fifteen years she remained a teacher, doing much to make the profession recognized as equal in importance and dignity with the other liberal professions. Then she took up the work of temperance, and for two years devoted all her energies to it. Then she became convinced that without the ballot woman was powerless to change present conditions. Since then she has been the one leader in that cause.

SUSAN B. ANTHONY.

From 1856 until the final abolition of slavery she was prominent as an abolitionist. For ten years between 1870 and 1880 she spoke five or six nights every week in the interest of woman suffrage. As a partial result of her efforts women are now allowed to vote on questions involving the public schools in many States, while in Colorado, Idaho, Utah and Wyoming they have an equal right with the men to the suffrage on all questions.

The Man with the Hoe.

The man with the hoe—Talk about green goods! This makes most a hundred dollars when city hunters has paid me for "accidentally killing" this old cow that died last week from old age!

Originality often consists of the ability to work old things off on a new audience.

Royal

BAKING POWDER

-Absolutely Pure-

For the third of a century the standard for strength and purity. It makes the hot bread, hot biscuit, cake and other pastry light, sweet and excellent in every quality.

No other baking powder is "just as good as Royal," either in strength, purity or wholesomeness.

Many low priced, imitation baking powders are upon the market. These are made with alum, and care should be taken to avoid them, as alum is a poison, never to be taken in the food.

The Book of Books.

The Book! the Book!—credentialed by Divinity, its authority approved by history, crutch of a lame race, solace for the world's sorrow, staff to the dying, hope for the hopeless—with reckless hand touch not the Book! touch not the Book! This is the voice of the millions of strong, devout men everywhere and of the beautiful Christian womanhood in every land wherein, though all beside should fail, the sacred mothers of Israel will hold fast to the Book and teach their sons and daughters to believe it.—Luther La'fin Mills.

Mrs. Redd—And what did you say to your husband when he said the cake wasn't half baked?

Mrs. Pepper—I told him he was.—Philadelphia Inquirer.

They Are No Longer Friends.

Fay—That Miss Snapp is just hateful, isn't she?

May—Yes. You were present yesterday when she told me I was "the homeliest girl in our set," weren't you?

"Yes; and I gave her a piece of my mind about it afterward."

"That was kind of you, dear, but I hope you weren't too severe."

"Well, I told her how sensitive you must be about it."—Catholic Standard and Times.

The ground cannot be made too rich for gooseberries and currants, and any extra attention given them the first year will have its effect for years after, as a good start is an advantage. Plant in rows four feet apart, cultivate thoroughly, and then mulch. Cutting out the old wood should not be overlooked. It is not difficult to get large yields of fruit when the soil is rich and the cultivation is thorough.

Full House.

"Yes, he started a hotel and he's made a hit, too. You know the old established place across the street advertised itself as 'a hotel with all the comforts of home.'"

"Yes."

"Well, he advertised his place as 'a hotel without the discomforts of home.'"—Philadelphia Press.

FORTUNES TO BE MADE IN OIL

If You Are Awake to Your Own Chances Read This and Then Write Us for Full Information and Prospectus.

California is destined to be the greatest oil field of the world. Already vast riches have been amassed there in petroleum, and great fortunes are sure to be made in that section this year. We own a quarter section of land, 160 acres, in the heart of the famous Kern County Oil D. tract. The oil is there and all we have to do is to drill a well and tap it.

For development purposes we will sell 25,000 shares of Treasury Stock at \$1 per share. People who buy this stock will see it increase in value fast and they will make money fast. Full particulars invited. Our property has been examined and reported on as unquestionably valuable by M. M. Ogden, Field Expert, Producers' Oil Exchange, San Francisco, Cal., and by C. W. Fox, for fifteen years expert for the Standard Oil Company. Our deeds and abstracts are now deposited in the Merchants' National Bank, Portland, Or. Our officers are without salaries.

Pro Bono Publico.

The issue of Collier's Weekly for May 26th is strongly tinged with a political flavor which makes it an admirable preliminary to the two conventions at Philadelphia and Kansas City. The special article by Senator Frye, of Maine, is a clarified summary of legislation for which the Fifty-sixth congress is responsible. Senator Frye's position as president of the senate gives this article an ex cathedra tone that is most convincing. No other man in the United States is qualified to prepare so moderate and unbiased a synopsis of the winter's legislation. The idea of political activity is further carried out by Henry Loomis Nelson in his judicial article on the issue of imperialism. Mr. Nelson is qualified by his ripe experience to handle the delicate subject of territorial expansion in a way that must bring true light to every conscientious American.

Placing the Blame.

She looked at him scornfully, even indignantly.

"Would you let a woman stand while you occupy a seat?" she asked.

"Madam," he replied, "do not blame me. The fault lies primarily with your own sex."

"How so?" she demanded.

"I did not receive proper home training," he answered.—Chicago Post.

The Color Line.

"I'm not prejudiced, as a general rule," said Mr. Poindexter, looking fixedly at his wife, as she entered the room, "but the color line is drawn in this house from now on."

"Why, what do you mean?" she asked.

"Bleached hair doesn't go," he replied, violently.—Philadelphia North American.

To make sealing wax for fruit cans, take eight ounces of rosin, two ounces gum shellac and a half ounce of beeswax. Melt all together. This will make a quantity, and may be melted for use when wanted.

Thick brown paper should be laid under carpets if the patent lining is not to be had. It saves wear and prevents the inroads of moths, which, however, will seldom give trouble if salt is sprinkled around the edges when the carpet is laid.

Diplomacy.

Miss Gabby—Why, she always plays loud enough to drown her own voice.—Baltimore American.

Straight Road To Health

Is by the way of purifying the blood. Germs and impurities in the blood cause disease and sickness. Expelling these impurities removes the disease. Hood's Sarsaparilla does this and it does more. It makes the blood rich by increasing and vitalizing the red globules and giving it power to transmit to the organs, nerves and muscles the nutrient contained in digested food.
