The Ledgerette Bill File is an easy, simple, convenient, labor and paper saving device for keeping in a systematic order, accounts of a small or transient nature.

It is just the thing to use where customers come in and buy a few articles "till Saturday evening" or "till next week," or till they come to town again.

Summing it all up. It is indexed, arranging the bills alphabetically. It is convenient. It is economical, saving many times its cost in blank books, bills, time, labor, etc., because inasmuch as the items are written but once, there is no posting of books, no buying of statements, nor making out of itemized bills. It is simple, can be understood at a glance. Books are always posted; bills are always ready. It is durable and inexpensive. Write for prices.

They will positively break up a cold in the head over night, and for the more serious colds in the head and chest they supply just the serious treatment needed.
