There has been some improvement in the rolling stock equipment of the S. P. Co.'s trains during the past few days a lot of improved pattern coaches being transferred to the Shasta Route. This has been made possible by the arrival on the California divisions of 13 new passenger day coaches from Dayton, Ohio. According to railroad officials these are the finest day coaches ever run on this coast, and are equal to any coach in America or elsewhere. They were constructed by the Barney & Smith Manufacturing Company. The coaches are to be run on through passenger trains. Twelve more cars similar to these are being constructed at the same shops and when completed they will be placed on the main line. The new day coaches will add much to the pleasure of travel over the S. P. lines.

They are equipped with all modern appliances and are thoroughly up to date. The coaches are 61 feet in length, have vestibuled ends, are lighted with Pintsch gas and heated with steam. The cars rest on four wheel trucks, with 36 inch steel-tired wheels. Steel Carnegie brake beams are used. The interior is beautifully finished. Highly polished wood, natural finish, with brass trimmings. Scarrit seats, with plush bottoms and backs are used. The windows are of plate glass and are covered with curtains instead of blinds. The other twelve coaches are expected in a few days.

SUMMER RESORTS.

"To the mountains our people in increasing numbers yearly look for those days of relaxation and recreation necessary to maintain the human machine in fair working condition. The languorous sloth of the seashore proves very seductive while it lasts, but may have decided that the annual outing should provide not only radical change of air and surroundings, but also such stimulation of flagging energies as will provide brawn and vigor for the return to labor. For this they urge the mountain climb and ramble, the balsam of the mountain pines, and the clear, unadulterated mountain air."

"In this direction the Shasta Route now affords a wealth of attractions. The entire line of road from Ashland to Redding is studded with charming and accessible hotels and camps, where are cheer and comfort and healing at reasonable cost, and where you can hunt, fish, ride, loaf, or play with equal facility."

"Or if you look for healing waters, none better can be found, hot or cold, than the springs of Ashland, Coletine, Anderson, Bartlett, Byron and Paso Robles."

"Before visiting Europe, the people of the Northwest should see the glories of Yosemite Valley, and the wondrous groves of Mariposa and Calaveras; the Parisians are likely to make inquiries concerning these attraction resorts."

Send to Mr. C. H. Markham,

General Passenger Agent, Portland, for new booklets on Castle Crag, Shasta Springs, McCloud River, Yosemite, and excursion rates thereto.
