In speaking of maintaining a government in the Philippines Bryan says "the highest obligation of this country is to be true to itself." Here we agree with Mr. Bryan: But a country cannot be true to itself unless its subjects are likewise true to themselves. Mr. Bryan urged ratification of the treaty with Spain whereby we secured the islands by paying \$20,000,000. If Mr. Bryan, like his constituency, was true to himself he would still stand for the treaty which he helped this country to secure and not urge this nation to be disloyal to itself by repudiating what all the brainy men of the country, including Mr. Bryan, believed to be our plain duty and which no man urged more strenuously than did the Nebraska statesman. If Bryan could persuade himself to be true to Bryan he would take a different tack in his race for the presidency.

The Democratic State Central Committee for Oregon is reported to have no plans for the coming campaign. There is only one thing practical to do, and that is to give it up as a bad job. Oregon is overwhelmingly Republican; and that is the way the election is going in November. Our people are willing to let well enough alone, and they are anxious for all the good things promised by the Republican party for the next four years. If Oregon conditions are an index to the conditions the country, there is a walk-over in sight for McKinley and Roosevelt.

Adlai E. Stevenson said in his speech at Indianapolis: "The democrat party stands pledged to an unceasing warfare against private monopoly in every form. It demands the enforcement of existing laws against trusts and the enactment of laws yet more stringent." Democracy ought to apply this doctrine to the Tammany ice trust and Democratic Chairman Jones' cotton

trust, then the country may concede that democracy is sincere in its "pledge."

The trouble with the Chinese situation is that the powers are all in the field instead of at the bat.

China's foreign debt amounts to \$3,000,000,000. Just at present she will allow her creditors to do the worrying.

Democrats have begun their favorite amusement, that of carrying every state in the union in advance. —Eugene Register.

The next official notification the Democratic candidates receive will be in November, and the occasion will not be one for long speeches.

In order to make money plentiful, there must be business to circulate it. The past four years have proved that there is enough money if there is enough business.

Mr. Bryan does not object to the honest accumulation of wealth this year, but he reserves the right to contend that wealth can be honestly accumulated only on the lecture platform.

Bryan asserts that the title to a people cannot be acquired by purchase. If he is right his friend Jefferson must have gone after Louisiana with a dark lantern and a six-shooter.

It has taken forty years to convince the Democrats that Lincoln's principles are good things to conjure with. Now they are convinced and are making up for lost time with all their might and main.

Lincoln said something like this: "You can fool some of the people all the time; you can fool all people some of the time; but you can't fool all the people all the time." Maybe here is the secret of Bryan's success with some of the people.

All this hodge-podge about what Bryan couldn't do if elected President has nothing to do with the case. What he couldn't do does not concern us, but what he could do does concern us mightily. We know what he could do; therefore we are concerned.

Present indications do not suggest that much will be heard about "British gold" in the campaign funds of any party this year. The British are rather shy of gold for their own use and may have to come to the United States for more loans before the year is out.

Truth crushed to earth in 1900 will rise again in 1904. That is to say, it will rise in 1904, if it is not sooner forgotten. Four years ago a certain truth was crushed to earth, but because of the sad indisposition of circumstances, its rising has been indefinitely postponed. Will the same thing happen to "imperialism?"

Even the Populist-Democrats defend themselves against the imputation of 16 to 1. They say there is no danger of changes in the financial laws unless Bryan majorities are elected to Congress. That is to say, we are safe in voting for Bryan, because he won't be able to do any damage. We don't want a President who can't do any damage, but one who can do some good.

The publisher of the Prison Missionary at the State Penitentiary for the past two years finds the income of the paper is not equal to the expenses, and appeals to the charitably inclined for assistance by way of new subscriptions, which is the only source of revenue open to it.

The census shows that Nebraska's population has died off since 1890. It is suspected people can be talked to death.

Rogue river has been dammed near Grants Pass, by the company supplying the city with water, which prevents fish from running up the stream. The obstacle should be removed at once.

A large portion of the wheat that has been harvested in the valley this year is shriveled somewhat, although otherwise of an excellent quality.

The reason why more young men are learning trades in the penitentiary than outside of it is because fathers are trying to make lawyers, doctors, and book keepers out of material intended for farmers, blacksmiths, carpenters and various other trades.

SUMMER RESORTS.

"To the mountains our people in increasing numbers yearly look for those days of relaxation and recreation necessary to maintain the human machine in fair working condition. The languorous sloth of the seashore proves very seductive while it lasts, but may have decided that the annual outing should provide not only radical change of air and surroundings, but also such stimulation of flagging energies as will provide brawn and vigor for the return to labor. For this they urge the mountain climb and ramble, the balsam of the mountain pines, and the clear, unadulterated mountain air."

"In this direction the Shasta Route now affords a wealth of attractions. The entire line of road from Ashland to Redding is studded with charming and accessible hotels and camps, where are cheer and comfort and healing at reasonable cost, and where you can hunt, fish, ride, loaf, or play with equal facility."

"Or if you look for healing waters, none better can be found, hot or cold, than the springs of Ashland, Colettin, Anderson, Bartlett, Byron and Paso Robles."

"Before visiting Europe, the people of the Northwest should see the glories of Yosemite Valley, and the wondrous groves of Mariposa and Calaveras; the Parisians are likely to make inquiries concerning these attraction resorts."
