

At this season the housekeeper must look specially after the baking powder.

As she cannot make good cake with bad eggs, no more can she make cake that is light, delicious and dainty with inferior baking powder.

Royal Baking Powder is indispensable for the preparation of the finest food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., which expert bakers say is unobtainable by the use of any other leavening agent.

The "Royal Baker and Pastry Cook"—containing over 800 most practical and valuable cooking receipts—free to every patron. Send postal card with your full address.

There are cheap baking powders, made from alum, but they are exceedingly harmful to health. Their astringent and cauterizing qualities add a dangerous element to food.

GALUSHA A. GROW, OLDEST MAN IN CONGRESS.

Congressman Galusha A. Grow, the oldest member of Congress, celebrated a golden jubilee the other day. It is just fifty years ago since he first became a member of the national legislative body. In the last half century he has been elected and re-elected to Congress twelve times, being defeated once—in 1862—when a zerry-mander threw him into a new and strange district. Previous to that he had served six terms, three as a Free Soil Democrat and three as a Republican. At one of these elections previous to his one defeat he received every vote cast in his district, there being no opposition. He was Speaker of the House during the first two years of the Civil War. When he entered Congress in 1851 he was the youngest member. In his third and fifth terms he was chairman of the important committee on territories. In 1894 he was chosen one of the two members-at-large for the State, and has since been re-elected with increasing pluralities, once with a plurality of 297,446, the largest ever given a candidate for any office in any State. Mr. Grow was born in 1823 in Susquehanna County, Pa. His father died when he was 3, and his primary education was received at winter school after the farm labor of the summer was done with. Later he was enabled to attend Amherst College, and graduated from that institution in 1844. His home is at Glenwood. From 1871 to 1876 he was president of the International and Great Northern Railroad.

SETTLER'S CABIN STILL STANDS

Built of Logs in 1845, It Shelters Today Its First Occupant.

A quarter of a block from the Platt County Courthouse in Monticello, Ill., in the center of a bustling city of 5,000 people stands a quaint old log cabin. It was built when there were but three houses in the town and is to-day the home of a woman who moved into it while wolves and bears were plentiful in the wilderness around.

The cabin was built in 1845. Aunt Anna Honselman lives in it and it has been her home since 1847. All the furniture is the same as when she moved in. There is a bed with cords in place of a spring mattress, an open fire-

coming inhabitants of the new colonies of Peru and Chile. The object of these laws was frankly stated as the preservation of the new countries from the strife and trouble which would certainly follow their advent. Up to 1871 there were statutes in force which prohibited lawyers from sitting in the British House of Commons, but they had long become obsolete and were repealed in that year.

The Straight Ticket.

The professor's eyes twinkled above his evening paper. "My dear," he said to his wife, "I fear that habit is stronger than principle with you suffragists." "What do you mean?" demanded Mrs. Professor.

place with andirons and a crane for cooking, all just as the settlers had them when Illinois was still a frontier State.

Mrs. Honselman is as remarkable as her home. Ninety-five years old, she still does all the work of the house. She prepares the meals for herself, two sons and a grandson and seems as well and strong as the average woman of 50. Her two sons have a fruit farm just outside of Monticello and could provide a much better home for their mother than the cabin, but she wants to stay where she has lived so long and so they all live there, in the style of fifty-five years ago. Rich business blocks have grown up around the cabin.

Lawyers Barred from These Countries

When Yucatan was first colonized by the Spaniards Charles V., in the ordinance which accompanied the appointment of the first Governor, explicitly stated that no lawyers were to be permitted to land from Spain or anywhere else. This law was dated 1526. Three years later an equally stringent provision was made against lawyers be-

"Why, here is an item from a Western paper which asserts that a recent local election in Colorado, where, as you may know, equal suffrage rights prevail, the tellers found a dozen or more cookery recipes in a ballot-box."

"They were voted by mistake, I'm sure!" returned Mrs. Professor, stoutly. "They ought to count just the same. Tuesday is an awfully busy day, anyway. And I am just as sure as I care to be that when men first began to go to the polls they made mistakes in the ticket, too!"

The professor's eyes twinkled behind his paper, but he replied with the perfect gravity of one who has been thrice refined in domestic fires, "Without doubt, my dear."

A Forehanded Lover.

"Shan't we elope, George?" "Yes—if you think it will please your father. Financially I'm not prepared to get him down on me."

What Will Become of China?

None can foresee the outcome of the quarrel between foreign powers over the division of China. It is interesting to watch the going to pieces of this ancient but unprogressive race. Many people in America are also going to pieces because of dyspepsia, constipation, blood, liver and stomach diseases. We are living too fast, but strength, vigor and good health can be retained if we keep off and cure the above diseases with Hostetter's Stomach Bitters.

SAW DARK SPOTS

A Victim of Biliousness and Inflammatory Rheumatism Tells How He Became Free From Disease.

A recommendation that is not based upon experience is without value but in the following interview the reader will at once recognize the force of advice that is the result of personal knowledge.

Mr. Ned Yerkes Hawley is a traveling man whose home is at 1926 W. Boon Ave., Spokane, Wash. He has recently had an experience of more than general interest and in an interview with a representative of the Spokesman-Review, of Spokane, he said:

"In June, 1899, I became bilious and subject to dizzy spells. I had no appetite, my heart seemed to flutter at times and beat irregularly, and dark spots seemed to float before my eyes. This continued for about six months. During that time I was troubled with lameness in my back and pains over my kidneys. I was under a physician's care and he told me my trouble was biliousness and inflammatory rheumatism. I was in bed for over four weeks and did not seem to be getting any better.

"One day I saw an advertisement in which it was stated that a case similar to mine had been cured by Dr. Williams' Pink Pills for Pale People. I procured some of the pills and within two weeks the inflammatory rheumatism which had become very acute and caused me the most intense suffering, was entirely cured.

"You will therefore realize that I am a firm believer in Dr. Williams' Pink Pills. They cured me and I am so sure that they will prove equally valuable in other cases that I have recommended them to a great many people."

NED YERKES HAWLEY.

Dr. Williams' Pink Pills for Pale People are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, after-effects of the grip, palpitation of the heart, pale and sallow complexion and all forms of weakness either in male or female. Sold by all dealers, or sent direct from Dr. Williams' Medicine Co., Schenectady, N. Y., 50 cents per box, or six boxes for \$2.50.
