L. M. Fisher and Robert Burch have just received the fencing to put up a half mile of woven wire fence between their farms.

J. I. Fredenberg has ordered a 2,000 gallon galvanized iron tank, which will be placed upon a 30-foot steel tower which was erected last week by A. J. T. Smith. Chas. Mr. Fredenberg has recently installed a large wind mill on a 40-foot steel tower, making four of these valuable machines in Sams Valley at present, the remaining three being owned respectively by Horace Pelton, Thomas Pankey and M. A. Schultz. We would be glad to see more of them, for they mean water on the land when it is most needed.

Prospects for the adoption of a woman's suffrage platform amendment in Oregon are brighter this year than they have been for a long time. There is still opposition but adverse influences are fewer than formerly, and those who have kept in touch with the long struggle for votes for women are becoming more and more confident that this year will see the adoption of a political equality amendment. One of the indications of the trend of sentiment is the attitude of the Portland Oregonian which is supporting the measure, though in the past it vigorously opposed it. Not a few men are coming to believe that women are a more conservative force in politics than men.
