

Local News Notes

THE world's all right,
With its lilacs and its light,
And it rolls so close to heaven
That the angels are in sight—
The world's all right, all right!

But there are people everywhere—even in Gold Hill—who, for their own selfish ends, are trying to make the world an unpleasant place for other people to live in. A thirty-four per cent mortgage on every piece of property in the town will make Gold Hill an unpleasant place to live in. You wouldn't be able to see the angels, or even the moon, with all those fine new cluster lights turned on full blast. The world's all right. So's Gold Hill. We must do our best to keep 'em that way. Road Supervisor Frodenburg, of Sams Valley, is having the mule-drawn ponies on the ground to put a large and common stone bridge across Elk Creek near the Johnston place which will accommodate a large and increasing traffic on that way.

Quite a large number of people from various parts of the country attended and enjoyed the dance given at Charles Center's place in Sams Valley. The following places were pretty well represented: Table Rock, Moonville, Gold Hill, Sams Valley, Beagle, Central Point and Debenger Gap.

A Sad Misfortune

(Rogue River Argus.)

A very sad misfortune occurred to one of our townsmen this week, according to report. Fred Bryant, upon whom fate seems to be more than willing to play her pranks, decided that the fish in Rogue river were becoming entirely too gay for local nimrods and that he should therefore be the one to take a fall out of the finny tribe. Shouldering his rod and a goodly supply of bait he made his way to the banks of the beautiful Rogue, and not forgetting his early training, spat several huge spats upon said bait and cast it into the water. We will not go into detail, but Fred says the fish that grabbed that bait would weigh not less than seventy-five pounds, and we will take it for granted that it did. Any way, the weight of the fish or the excitement, whichever it was, dragged Mr. Fred into the cool, deep water and before he had disentangled himself old man Rheumatic had got in his work and our trusty cobbler is now suffering all the torments of the dread disease. We mention as an afterthought that the rheumatics had only attacked the right pedal extremity of Brother Fred and it is hoped that he will soon make full and complete recovery.

Why Do We Do It?

Because we want you to know of US and whrt we do. Because-Its a Business way of getting Business. Because we have found that we are getting results through the columns of the local papers that it would have taken us years to get had we stood idly by and waited for the people to come to our door. We limit our practice to the EYE EAR NOSE & THROAT and SATISFACTION is our middle name. If you need a pair of glasses come in and let us tell you about our methods and prices. We can furnish lots of references.
