## STOCK DISEASE SPREADS RAPIDLY

### Secretary of Agriculture Says Hidden Sources of Infection Are Main Danger.

Washington.—Colder weather, with rain, in states infected with the foot and mouth disease was hailed by department of agriculture officials as a powerful ally in their campaign to suppress the rapidly spreading livestock epidemic.

News of more affected districts caused the department to extend the federal quarantine to include Delaware, New Jersey and Rhode Island and to bar cattle shipments from Canada.

This makes thirteen states which are placed under federal quarantine in the campaign to suppress the epidemic of foot and mouth disease, Massachusetts, New York, Ohio, Pennsylvania, Indiana, Illinois, Maryland, Michigan, Wisconsin and Iowa, composing the already wide area affected by the disease.

While no cases of the disease have been found in Canada, the quarantine against the dominion is to prevent the return of infected cattle cars to the United States. It will stop shipments of cattle into the United States valued at approximately \$8,000,000 a year.

Secretary of Agriculture Houston said this epidemic was "one of the most contagious and destructive diseases of cattle, swine and sheep and exceeded in area affected any of the five previous outbreaks in this country." Unless the infection can be immediately localized and quickly eradicated, he said, it threatened untold losses among livestock.

Veterinary authorities of the United States are agreed that the only method of combating the disease is to stop all movement of stock and material which have been subjected to any danger of infection and to kill off without delay all herds in which the disease has gained any foothold.

The rapidity of the movement of the battlefields in Poland have been unequalled since the days of Napoleon. Deducing the time spent in actual fighting the Russian pursuit has been pressed for more than a week at a rate averaging 14 miles a day over the Polish roads, which are heavy after the rainy season.

Belgians Won't Return to Antwerp. Antwerp, (via The Hague and London).—The population of Antwerp, which fled the city at the time of the German occupation, is still unwilling to return. The German demand for a war indemnity of \$10,000,000 is frightening many into staying away.

Wallowa Land Deal is Big. Enterprise.—Three deeds placed on record at the courthouse here transferred 28,969.79 acres of Wallowa county land, by far the largest real estate deal or trade in the history of the county.

In one deed the George Palmer Lumber company, of La Grande, transferred to the East Oregon Lumber company, of Enterprise, 13,830.86 acres of timberland.

## NUMBER EMPLOYES LARGE

Labor Bureau Statistics as Gathered for Biennial Report

Salem.—Figures prepared by Labor Commissioner Hoff for his annual report show there is a total of 1230 general merchandise stores in the state, and during this year they employed 9480 people to whom a total salary of \$7,384,000 was paid.

The following figures show the number of other business institutions engaged in business in the state, the people employed, and the total wages paid, as compiled thus far for Mr. Hoff's biennial report:

Electricians, 85; employment agents, 35; engineers, civil and surveying, 250; engineers, consulting and contracting, etc., 60; engineers, mechanical, 50; engineers, mining, 30; engineers, supplies, 30; express, dray and transfer men, 378; dealers in farm implements, 190; dealers in fish and poultry, 50; florists, 74; dealers in fruits, wholesale, 34; fuel dealers, 178; furniture, retail, 390; general merchants, 1230.

Farm implement stores—In the 190 farm implement stores of the state an average of 760 persons were employed during 1914, to whom a total wage of \$608,000 was paid.

Fish and poultry—The 50 dealers in fish and poultry employed 98 people and paid them \$79,000 in wages.

Fuel dealers—The 178 dealers in fuel gave employment to 490 persons and paid them a total wage of \$41,650.

Furniture, retail—The 390 retail furniture dealers employed 840 people at a total wage of \$58,800.

Transfer and express—The 378 transfer and express men employed 756 people at a total wage of \$52,920.

## THE HALL OF FAME.

BENJAMIN FRANKLIN—Famous American philosopher, statesman, diplomatist and author. Born Boston, Jan. 17, 1706; died Philadelphia, April 17, 1790. Learned printer's trade and established Pennsylvania Gazette at Philadelphia in 1729. Founded Philadelphia library in 1731. Began publishing "Poor Richard's Almanac" in 1732. Founded American Philosophical society and University of Pennsylvania in 1743. Was awarded Copley medal by Royal society in 1753 for demonstrating by experiments made with a kite during a thunderstorm that lightning is a discharge of electricity. Member of Continental congress and one of committee of five to draw up Declaration of Independence, of which he was a signer. Ambassador to France during Revolutionary war and helped to make treaty by which France recognized independence of America. With Jay and Adams concluded treaty of peace with England in 1783. His autobiography is his best known book.

## NATIONAL RESERVE BANKS NOW OPEN

### New Currency System Designed to Provide Elastic Circulating Medium.

Washington.—With the opening of the 12 federal reserve banks Monday the nation will begin actual operation of its new currency system, designed to provide an elastic circulating medium based on modern ideas of finance and economics.

The new system is generally conceded to be a compromise between a central bank and the present system with its thousands of units, scattered reserves and fixed limits of currency. Its chief attraction and value those who interpret it find in the elasticity it will give to recognized paper currency.

Under the new system the federal reserve notes, which, a time, probably will entirely replace the national bank notes, now so familiar, will be issued on commercial paper arising out of actual business transactions. It seems plain that they will rise and fall in amount as the tides of business rise and fall and that there will be no plethora of money to lie idle. They will be obligations of the United States government, which national bank notes are not, and will have back of them a large reserve of gold in the regional banks. Through them the reserve banks are expected to come to the aid of any needy member bank which has plenty of good paper but needs cash.

### Prohibition in Russia

Petrograd.—Thousands of men, women and children have stood since 4 o'clock Sunday morning in a driving snow storm before the doors of the liquor shops on this, the last day on which it is possible to purchase light wine and beer under the prohibition act of the Russian government, which on Monday becomes absolute.

## PLAN TO EVACUATE VERA CRUZ NOV. 23

Washington.—While awaiting official confirmation of the report from Mexico that a trace had been arranged by leaders of the Carranza and Aguas Calientes claimants to control of the central government, the Washington government allowed its order to General Funston to stand and Vera Cruz will be returned to Mexican control November 23, unless some radical change in the situation there prevents.

Although Secretary Bryan declined to say to whom General Funston would surrender custody of Vera Cruz, it is believed his instructions are to turn the city over to whatever de facto authorities appear to receive it. It is not the intention of the Washington government to recognize any faction in Mexico through this transfer.

Assurances have been received both from General Carranza and from the Aguas Calientes convention authorities that the guarantees required by the United States would be forthcoming and Washington officials feel that their responsibility ends there.

### Carranza Offers to Leave.

Mexico City.—General Obregon received a dispatch from Cordoba saying that General Carranza had made an offer to General Eulalio Gutierrez to turn over the military forces to General Gonzales and leave for Havana to arrive there not later than November 25, if General Villa would turn over his command to General Gutierrez and be in Havana the same date.

## GREAT BRITAIN TAKES ACTION

Premier Asks \$1,125,000,000 and Million More Soldiers.

London.—Great Britain set herself for a long war and a determined campaign against Germany when the house of commons voted unanimously for the additional war credit of \$1,125,000,000 asked by Premier Asquith.

The measure also carries provision for an additional army of 1,000,000 men, which also was voted unanimously.

The prime minister characterized the crisis as "the greatest emergency in which the country ever has been placed." He said 1,200,000 men already were under arms; that the war was costing nearly 5,000,000 a day and that the government proposed to lend Belgium \$50,000,000 and Serbia \$4,000,000 without interest, until the end of the war.

### Suffrage Convention Ends.

Nashville, Tenn.—The 46th annual convention of the National American

Woman Suffrage Association, in session here, closed with an apparent truce established between the opposing elements of the organization. Dr. Shaw was unopposed for president.

## AMERICAN MARINES OCCUPY ACAPULCO

Mexico City.—It is reported here that the port of Acapulco, on the Pacific, has been occupied by American marines. The occupation is said to have followed a request of the inhabitants who were suffering great privations owing to the revolution.

General Venustiano Carranza issued an ultimatum declaring himself the chief head of the republic. The proclamation was issued at Cordoba and directed to the military chieftains and the civil employes of the central government, who were ordered to obey Carranza as first chief of the constitutionalists and to disregard totally the mandates of the Aguas Calientes convention.

To the military chieftains he said that unless they left the conference and were back at their posts by 6 o'clock Tuesday evening their next in rank would assume their places.

General Eulalio Gutierrez, who was appointed provisional president of Mexico by the Aguas Calientes convention, has proclaimed himself the chief executive, beginning November 10.

### Boxing Game Over in California.

San Francisco.—The boxing game will shut up shop in California about the first of December. The anti-fight bill, which prohibits all save four-round amateur contests, was carried at the election.

## BERLIN COUNTS ON VICTORY

3,000,000 Germans and Austrians Reported Ready to Crush Enemy.

London.—"It is asserted in Berlin that Germany and Austria-Hungary now have concentrated about 3,000,000 soldiers on the line from Thorn to Cracow, and this is considered sufficient to crush the Russian forces," says a dispatch from Copenhagen to the Times. The message continues: "Military authorities declare that the result of the coming battle is not in doubt and that the Russian army will be completely destroyed. They explain that it is necessary to allow the Russians to advance to the frontier, in order to prevent them from making a good retreat after their defeat."

"The present retirement of the Germans is necessary, they say, in order to have the railways immediately behind the army for the approaching main battle."

Democrat Elected Wisconsin Senator. Milwaukee, Wis.—State Senator Paul Husting, democrat, reached the top in the United States senatorial race just 1001 votes ahead of his republican opponent, Governor Francis E. McGovern.

Albany.—The distinction of being elected constable in two districts in two counties in the same election without opposition belongs to John Catlin of this city. Catlin was unanimously elected constable of North Albany district in Benton county, a half mile across the river from Albany, by voters who wrote his name in on the ballot. Besides this, Catlin was unanimously elected constable of Albany district No. 1, Linn county, a position he has held for years.

### Universal Instinct for Play.

In providing for enjoyment the church uses one of the greatest methods by which human society has developed. Association is never secure until it is pleasurable; in play the instinctive aversion of one person for another is overcome and the social mood is fostered. Play is the chief educational agency in rural communities and in the play-day of human childhood social sympathy and social habits are evolved. As individuals come together in social gatherings, their viewpoint is broadened, their ideals are lifted and finally they constitute a cultured and refined society.

It is plain, therefore, that the church which aims at a perfect society must use in a refined and exalted way the essential factors in social evolution and must avail itself of the universal instinct for play. If the church surrounds itself with social functions which appeal to the young among its membership, it will fill a large part of the lamentable gap in rural pleasures and will reap the richest reward by promoting a higher and better type of manhood and womanhood.

### Italian Ministry Out.

London.—The Italian Cabinet has resigned, according to a dispatch from Rome.
