The boys are working very hard to secure the fine new baseball mitt given by The News for the largest and best list of news items that are printed during the week ending April 29. Get busy, boys.

IF YOU like THE News tell your friends. If you have a news item tell us. We are here to make this paper better. You can help us in many ways, and one is to tell us about the little happenings that come up in the course of your daily business. We appreciate it and so do our readers.

ONLY a few days ago we noticed an item in an exchange headed: "Clean Up," and it looks good to us. We believe that there has been some such suggestion made in Gold Hill the past week. Why not have our mayor set some day and let everyone get out with whatever clean up utensil they possess and make our little city shine like a brand new dollar. We know one teamster who has signified his willingness to donate a day's time with his team toward the work. The cleaning up can be done and the quicker we get busy the less time will be lost. We understand that the members of the Greater Gold Hill club had charge of this movement last year and made much success of the day. THE NEWS moves that they try it on again and will be glad to boost the idea along.

WHEN you clean up, paint up, too. Paint your house, paint your barn, paint your fences. Good paint kills germs and makes the old place look like new—a credit to the city and its owner. Would you rather live in a clean city than a dirty one? Of course you would. So would your friends who come to visit you. Clean up. Every little touch of cleanliness makes the old place look like home. Now is the time to practice the art of spring cleaning. Don't forget the old henhouse and the dark, dingy woodshed. A coat of whitewash will give it a pleasant look. If you start the movement your neighbor will do likewise. Try it.

Cleanliness offers a solution for almost every sanitary problem. It will do more than anything else to solve the fly problem. Little flies and little children cannot dwell in the same habitation. If the first are not killed, the second probably will be. Why not make the cleanup movement a forerunner for the "Swat the Fly" campaign? Now is the time to do both. Flies are carriers of disease seed. They live and breed in all kinds of filth and infect food and drink by germ-laden feet. Each female fly can lay one hundred and fifty eggs, and should be kept out of all dwellings. Get a swatter and let the fly know you are ready for business. One swat may make quite a showing if done in time. Common borax, dissolved in hot water, is recommended as a remedy to be poured over manure piles and compost heaps. It kills the eggs and helps to keep down the fly pest.

## The Mortgage Lifter

An Electric Motor can lift anything. Let us tell you how. By MAKING TWO EARS OF CORN GROW WHERE ONLY ONE GREW BEFORE. Not getting the RIGHT AMOUNT of rain at the RIGHT TIME, is the principal cause of crop failure.

This is past history however, on hundreds of profitable farms throughout the country.

These FARMS use ELECTRIC POWER and MOTOR driven pumps allow IRRIGATION in the RIGHT AMOUNT and at the RIGHT TIME.

They are always ready, reliable and inexpensive, require no expert attention and will last a lifetime.

OUR POWER IS AT YOUR COMMAND AT ANY TIME, DAY OR NIGHT, THROUGHOUT THE YEAR.

Let us show you where ELECTRIC POWER will help on the FARM.
