Last week the News was somewhat hurriedly put together, on account of the lack of sufficient material to handle the immense amount of news that has been pouring into the office since we took charge. Quite a lot of the news matter was left out but we are trying to get our office in shape to handle everything. We ask our friends and patrons not to get discouraged if we pass a few errors remember that an ordinary weekly it is necessary to handle many thousands of pieces of type material during each week and this alone is some job. We want the news and expect our correspondents to deliver the goods. We have some of the best writers in the state on our list and from time to time they will prove our assertions.

The News assumes no responsibility for errors or misstatements made in the news furnished us by our correspondents. We aim to get our items as nearly correct as possible but cannot guarantee them.

Our article in the editorial column of last week was received with pleasure by many of our people and to that end the day for Cleaning up Gold Hill has been arranged for, and it will be taken charge of by the officers of The Greater Gold Hill Club who made such a grand success of the matter last year.

The boys "CONTEST" has been a great success all around and proves that the city is far from asleep. This contest will close Saturday with prizes awarded at the Comus theatre by Prof. Milam immediately after the show to the boy who has secured the most news items of local interest that were published. The coming two weeks will be turned over to the ladies and we assure them that the prize will be a very useful article selected from the stock of a local merchant. The rules of the contest are that every contestant must get her news item to the News office as soon as possible. The first item in is counted thus avoiding any repeating. Don't hold your news items, get them in while it is new. Boys and girls can help their mothers secure the prize. Get in the game, it makes it more interesting when several are entered. The next succeeding weeks may be given to men.

J. Percy Wells

I am a candidate for the Republican nomination for county school superintendent. I stand for: A continuance of progressive policies in education, economy consistent with efficiency, equal educational advantages for the boys and girls on the farms with those in the cities and towns.

If nominated and elected I will in the future, as in the past, give my full time and best efforts to the supervision of the schools and the administration of the duties of the office. During my incumbency I have not confined myself strictly to the routine duties of the office, but have taken a broader view of the mission of the county school superintendent. In addition to my efforts to raise the standard of teaching and improve the physical condition of the schools, I have labored to promote the welfare of the boys and girls through industrial clubs, school fairs, school credit for home work, parent-teacher circles, spelling and arithmetic contests and other activities. I feel that my work has been regarded with favor, and, in order that I may continue it, I am asking for re-election.

The Mortgage Lifter

An Electric Motor can lift anything. Let us tell you how. By MAKING TWO EARS OF CORN GROW WHERE ONLY ONE GREW BEFORE. Not getting the RIGHT AMOUNT of rain at the RIGHT TIME, is the principal cause of crop failure.

This is past history however, on hundreds of profitable farms throughout the country.

These FARMS use ELECTRIC POWER and MOTOR driven pumps allow IRRIGATION in the RIGHT AMOUNT and at the RIGHT TIME.

They are always ready, reliable and inexpensive, require no expert attention and will last a lifetime.

OUR POWER IS AT YOUR COMMAND AT ANY TIME, DAY OR NIGHT, THROUGHOUT THE YEAR.

Let us show you where ELECTRIC POWER will help on the FARM.
