Keep The Town Clean.

A clean town attracts attention whenever and wherever it is seen. A dirty one catches the public eye in even less time.

When the streets and alleys and yards and vacant lots in a town are clean and sanitary it bespeaks a like condition on the part of the residents with regard to their personal habits.

The Lord loves a clean man or woman, and the devil worships a dirty one. Which do you prefer?

If each person in this town would use just a little more energy and thoughtfulness we could make this one of the cleanest spots in the country and our reputation would grow apace. Not only would we benefit thusly, but the health of the community would be vastly improved and the physical capacity of the people would be greatly increased.

A clean man works with pleasure and with a definite object in view. Generally he gets there. The dirty one labors for necessity only, has no ambition, and is the black eye that kills the town in the eyes of other people. Keep the town clean.

LISTEN! —

And now a few short ones.

"Zz"qx&£!£E—zz?(-)" bury that hammer.

We can if we will, but too often we prefer to won't.

Of course—we understand, the town is perfectly dead, its dry, no work, no money, no crowds loafing around, the mines are all fakes, that prospective investor was a grafter, the town I came from—say sport I honestly don't believe we are capable of appreciating your company and if you'd return to the "live town" you could write us about "how they thrive", you could greatly benefit this community thus.

In case of war we might marshal our army of "favorite sons" for the first line. But, then, we fear they would prefer to be in the last line, or in no line at all.

Make up your mind, young man, that you will hold your job only until a better man comes along to take it. When you get this fact firmly planted in your noodle you will be worth something to your employer.

We can imagine no more distressing sight than to see a beautiful completion disappearing with the perspiration on a hot summer day.

When a fellow ahems and fidgets and squirms he is generally getting ready to say nothing or tell a whopper.

Men Who Live In Memory.

Every town (and ours is no exception) has two distinct classes of citizens—those who live in the memory of their fellow men and those who are promptly forgotten. The man who is energetic, persevering, and keeps always in mind the welfare of the community in which he lives will never need a marble slab to keep his memory green. The fellow who kicks and villifies his own home town will die unmourned and his neighbors will not even think of him long enough to forget him. Say a good word for your town—and say it again.

We haven't a single cuss word left this week suitable to apply to Villa.

Having failed in his announced determination to kick the American army out of Mexico, the only remaining thing now for Obregon to do is to kick some sense into Carranza.

It begins to look as tho the crowned heads of Europe had grabbed a great big bear by the tail and don't know how to let go

Perhaps, tho, those border raids are just neighborly calls from our dear friends on the other side.

The aim of every man, said Humboldt, should be to secure the highest and most harmonious development of his powers to a complete and consistent whole. Sounds good, but—oh, well!

When you hear a fellow constantly grumbling about his luck he is simply advertising the fact that he is getting exactly the luck that he is entitled to.

Jordan may be a hard river to cross, but not so the Rio Grande

Result - Getting Classified Columns

THE ONE-ATTEMPT MAN OR WOMAN

who, for example, publishes a Want ad once, and if it does not bring the results desired, decides that "advertising does not pay," should study the practical results, in all lines of endeavor, of perseverance. The law of "try again" is as potent in want advertising as in any other effort or enterprise.

Classified Rates: One cent per word, first insertion, 1/2 cent per word for each insertion thereafter; No advertisement inserted for less than 25 cents, cash with order.

WHY THE BEST OF CHEWS IS "SPEAR HEAD"

Its Rich, Sweet, Mellow Flavor Has Been Famous for a Generation

MADE OF CHOICEST RED BURLEY

The secret of tobacco satisfaction is known only to the man who chews *plug tobacco*. The reason is that a good chew gets right next to your taste, while the leaf in *plug tobacco* is in a state of fresh, juicy richness that is not possible in any other form of tobacco.

There's no tobacco in the world that can give you the hearty, wholesome flavor that you get from a delicious chew of *Spear Head*.

Spear Head is made exclusively of ripe, red Kentucky Burley—the most richly-flavored chewing tobacco that grows. Still more, only the very choicest red Burley leaf is used for *Spear Head*.

This choice leaf is selected with the most painstaking care, is stemmed by hand, is thoroughly washed free of all foreign matter, and is pressed into *Spear Head* plugs so slowly that not a drop of juice or an atom of the natural flavor escapes.

Try *Spear Head*, and you'll get a sweet, mellow, luscious, satisfying chew that cannot be obtained in any other tobacco. In 10c cuts, wrapped in wax paper.

The Health Light for Homes

Now perhaps you didn't know that high medical authority attributes all these ills, at their inception to "Eye-Strain"—excessive Reading, and sewing, at close range, under injurious Artificial Lights. Well, put it down in your memory that what I've told you here is true. And if you doubt what Eye-Strain does to you, and yours, try this simple experiment. Put a pair of Old - Person's (highly-magnifying) glasses upon a young person whose sight is almost perfect. For a few minutes there is only inconvenience—a desperate effort to see clearly. In twenty minutes there is dizziness—vertigo—weakness. In forty five minutes, there is nausea, the nerves of the stomach being sympathetically affected. All this is due to the use of misfit Glasses. That's practically what "Eye-Strain" does, in a more gradual but permanent manner. Because it is merely a desperate effort to see—under adverse conditions. Misfit glasses, poor light, long continued reading at close range. But more than all else—thru reading under poor Artificial Light. Estimates cheerfully furnished for **Pilot Acetylene Lighting Plants, Plumbing, Heating.**

H. H. LEONARD,
With Gold Hill Implement Co., Gold Hill, Oregon.

Who Pays for Advertising

In the Final Analysis It Is

The Merchant Who Does Not Advertise

The aggressive, progressive merchant advertises and gets the business that the non-advertiser misses and loses—so he does not pay.

The customer gets more and better merchandise for less money from the merchant who advertises.
