FLIVVERITE SAYINGS  
\*\*\*\*\*Our schools and churches are the  
best things we have. They have n-  
selfish motives. The betterment  
of mankind is their noble purpose.  
We should see that they are well  
housed, amply financed and let the  
clergy and teachers know that they  
have our sympathy and support.There's no friend like money in  
the bank! It works for you, comes  
to your aid when you are sick, takes  
care of you in old age and looks  
after your family when you are gone  
Start a little savings account today  
and watch it grow.A booster is a man who thinks  
the census man missed several of  
our streets when he was counting  
noses, besides being blind in both  
eyes and poor at figures to boot—  
and the booster is sincere about it—The man who will not buy a radio  
until they perfect them, has no busi-  
ness buying a car for they are not  
perfected yet either. My radio is  
more pleasure for me these long  
nights than anything I ever owned.The reason why we want to keep  
our town abreast of the times is so  
that our young people will stay here  
instead of going to the cities. We  
need our young folks, but they won't  
stay in a back number town.Booster digs out the weeds, cuts  
the grass, keeps his cut-out closed  
(in his face) speaks well of all his  
neighbors and his town, pays his  
bills, supports his church, subscrib-  
es to his home paper, keeps cheer-  
ful and puts aside a little for that  
rainy day!The real community worker never  
watches the clock.Co-operation is born of under-  
standing the other fellows problemsNewspapers are just as good as the  
people of the community are at  
subscribing for it.A town is prosperous in propor-  
tion to the horse-power and horse-

sense of its boosters.

A Knocker is a mortgage on his  
home town, and every other citizen  
is paying interest on him.The home-town newspaper is the  
loud speaker for the community and  
it costs very little per year to  
tune in.Ask the next peddler that sells  
you something where he will be  
when you want to make an adjust-  
ment on your purchase.A town isn't worth a whoop that  
doesn't have some fellow in it who  
has worked long and hard enough  
for it to become unpopular.Dirt, iron, wood, stone, brick, and  
concrete never built a city. They  
have to be mixed with human pep,  
brains, muscle and everlasting co-  
operation.No Sherman Anti-trust law ever  
will be invoked to break up a com-  
bine of loyal, forward-looking, clear  
minded men and women co-operat-  
ing to put their town on the map  
and keep it there.

## BRIEF NEWS

Miss Josephine McKray, of the  
Millionaire Mine colony, a student  
of the Gold Hill schools for the last  
several years, is now employed as  
clerk in the office of County Judge  
Hartzell at Jacksonville. This is  
indeed a stepping stone for the re-  
cent Gold Hill student and speaks  
very well for her ability.Following the arguments of both  
state and defense in a hearing this  
week before Circuit Judge George  
R. Bagley of Hillsboro, on demurrer  
filed by the defense to the recent  
perjury indictment against Dr. C.  
T. Sweeney, Medford physician, the  
case was taken under advisement  
without comment. No trial date  
will be set until disposition of the  
demurrer, if favorable to the state,  
has been made, according to an an-  
nouncement in the Medford TribuneThe growth of the Eagle Point  
district has caused such a demandfor more school conveniences that  
a new and modern school building  
is being planned. The plans for  
the new structure are on exhibit  
and a vote on the issuance of bonds  
for construction of the school on  
May 1.The Gold Hill Schools May Day  
Picnic this year will be held on the  
last day of April, as May 1st is on  
Saturday. Parents of the students  
will attend school that day and at  
noon all will enjoy a basket lunch  
on the school lawn.

## LUTHER BURBANK

Luther Burbank, whose wizardry with plants won him  
an everlasting name in this world, died the other day, one  
writer says, "as one of the plants he nurtured might have  
died had it been subjected too harshly by the elements."Burbank, whose genius had made the world more beau-  
tiful, died in the midst of a battle with the world so to  
speak—a battle which really hastened his death.He called himself an "infidel," "The idea that a good  
God would send people to a burning hell is utterly hamn-  
able," he said. "My religion is a religion of love. I love  
everybody. I want everybody to be happy."His pronouncement that he was an infidel brought a  
storm of protests upon him. He sought vainly, at his age,  
to answer each critic—and there were thousands of them.  
He clung to his contention that there is no life beyond the  
grave.The controversy unnerved him—and his strength fail-  
ed in the crisis.And now the entire world lauds him, despite his re-  
ligious conviction, as a great scientist and a great and lov-  
able man.(Overheard on the street corner by one of the members  
of the community Anvil Chorus) "I went away and my  
wife missed me. "She missed me about an inch as I went  
out the door and the flat-iron killed the cat."

MORE  
MILES  
TO THE  
GALLON

## It takes in all three

To satisfy 999 out of every 1000 motorists, a  
gasoline should provide these three essential  
results—[1] satisfactory quick starting, [2] a  
full stride of power, [3] mileage.And these results should be properly pro-  
portioned—full measure of each without  
sacrificing any one of them. That is what  
Associated gives you in gasoline performance  
—a perfect coordination of the three results  
you want most. The distinctive range of boil-  
ing points of Associated takes care of that.  
Associated is always associated with "more  
miles to the gallon."
