Mr. and Mrs. J. W. Bryan have returned from a thirty days outing on Deer creek. While there Mr. Bryan worked blazing trail.

Mrs. Ernest McCarty and Mrs. Hazel Mulford of Pasadena, Calif. were visitors in the city a few days this week. They came up by motor.

The Cleveland Saw Mill on Galls Creek shipped another car of lumber the last of last week. This is becoming a habit with this industry. More power to 'em.

Mr. and Mrs. Nichols and daughters of Galt, California, nephew of Mrs. Richards were visitors at her home Friday night on their way to their home.

Oliver (Cy) Pearce fire warden, is suffering with a badly infected foot. He is receiving treatment from a local physician and expects to be around again within a short time.

Mrs. Violet Cook, who some time past left here to join her husband at a tourist station near Portland has returned and is living in the house formerly occupied by Tommy Moore.

Hauling of paper rock from the Lively quarry to the loading bunkers at the S. P. side tracks in Gold Hill was stopped this week because the truck for same has been laid up for repairs.

W. A. Peterson, who for some time has been in Tacoma, Wash., on mining matters returned to Gold Hill Saturday and is resting up at home. He reports progress and much encouragement.

Cleveland Brothers are loading a car of surfaced fir lumber for Moberly, Missouri this week.

Be sure and see, Hoot Gibson in "The Chip of the Flying U" at the Beaver theatre, Saturday Aug. 7.

Wm A. Cook and Jap O'Hara, who last week went to Holcomb Springs in Sams Valley, returned Tuesday of this week and both men seem to have received much benefit from the change of water.

R. W. Nicholas has been making frequent trips to Medford the last several days. He reports the town as egotistical as ever, with the Gold Hill Industries, as usual, "near Medford."

Artificial swarming of bees in Oregon may be resorted to, says the college extension service, when bees persist in their desire to swarm, or when hive preparations such as capped queen cells have gone so far that prevention seems doubtful. When moderate increase is not undesirable this method satisfies the swarming instinct of the bees and may be brought on at a convenient time.

Ernest Ross who last spring purchased a valuable police dog from a dog farm at Glendale was made happy Sunday by the recapture of the animal. It seems that the dog escaped several months ago from its new master and escaped to the hills. Every night the wily canine returned to the city streets and made sport of the local citizens who attempted to recapture him. At last, however the animal was taken into captivity again and has been returned to the owner.

A SENSATION!

That's the only word for it.

A picture such as never before has been seen.

Prehistoric monsters of 10,000,000 years ago discovered by a pair of modern lovers in a world never before dreamed of.

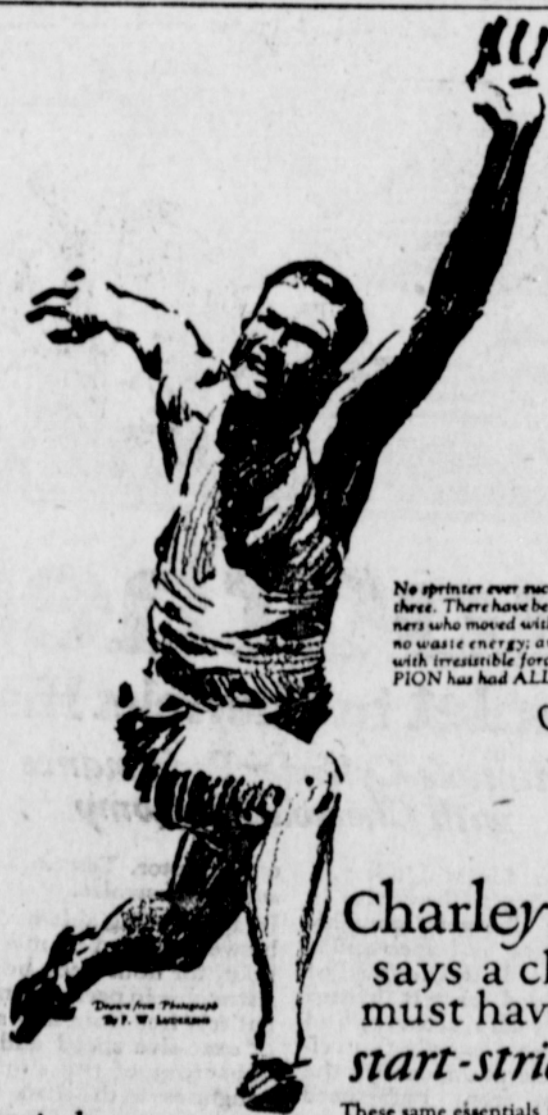

Truly the strangest story of romance and adventure since the world began.

SATURDAY, AUGUST 7 will be shown HOOT GIBSON in "THE CHIP OF THE FLYING U"

No sprinter ever succeeded without ALL three. There have been great starters, runners who moved with perfect rhythm and no waste energy; and men who finished with irresistible force. But the CHAMPION has had ALL THREE.

Charley Paddock says a champion must have all three start-stride-finish

These same essentials in perfect co-ordination—quick start, the full stride of power, and force sustained to the very end [finish]—are necessary to good gasoline. Associated through its distinctive range of boiling points insures this kind of a performance: no sputter when you step on the starter, no miss when you give her the gas, and always a smooth supply of adequate power from start to finish. That's why Associated is Champion. Associated is always associated with "more miles to the gallon."
