

# WHY

## MOVE THE COUNTY SEAT?

*Do You Wish to Participate in Medford's scheme of Aggrandizement and at Your Expense?*

Never before in its history has Jacksonville be better able to serve as the county seat. Practically everyone has access to an auto and Jacksonville is on a paved highway which connects with all portions of the county by hard surfaced roads. Yet Medford wants the taxpayers to vote to move the court house to that city and thereby add very heavily to your financial burdens.

Ever since the dawn of history the strong have oppressed and crushed the weak. This is the attitude which Medford is assuming in their demands for the county seat. Jacksonville is a small city and Medford is large. They want to

take from Jacksonville to add to their already greater portion. And they want the taxpayers of this county to foot the bills. Are you going to do it friends? Are you going to dig down deep into your pockets and aid in this imperialistic move on the part of Medford? Think long and concentratively upon this question. We want you to be fair with yourself and fair with Jacksonville.

When you do, you will see the folly of a move we are sure.

If you do, be sure and vote to retain the the county seat at Jacksonville. Such a vote will mean the saving of many dollars to you.
