

## If You Want To Be Happy

You cannot depend on others for the things that, most of all, give life its color, the joy of being yourself—the thrill of self-expression.

Not exactly unhappy, but not getting much real, vital enjoyment of life.

Listening to other people play and sing—reading other people's work—

And so, many of us go through life—missing one of its great thrills—the thrill of self-expression.

To give you just this deep enjoyment, the Gulbransen Registering Piano was designed.

It gives you all the enjoyment and all the natural beauty of hand playing. It responds to your mood. It registers exactly your touch, your expression.

For you the Gulbransen holds the deep enjoyment and the lasting satisfaction it has already brought to thousands. Thousands like yourself—who have wanted to be happy.

## SCHOOL NOTES

### Of Rogue River

Daphne Matthews

The music classes of the Rogue River school are rapidly progressing under the supervision of Mrs. Knapp of Grants Pass. This is the first year music has been taught in the school in such an extensive division.

The high school student body was organized October 1, with an enrollment of forty five students; a much larger class than last year.

The staff of students for editing the school paper were elected Oct. 13 under the supervision of Mr. Oliver, the principal. The enrollment of twenty three students in the Freshman class is the largest ever known in Rogue River.

The High school students are sorry to lose Geneva Shattuck from their number for the girls are of a very small number in high school this year.

Mr. Oliver has ordered one hundred and fifty new books for the school library and expects the students to use them.

Mrs. Older the 5th and 6th grade teacher is very proud of her art classes in the grades and hopes to be able to put on a good exhibit for the fair next year.

Miss Martin, our primary teacher is ready for Hallowe'en and her room looks spooky with its witches and black cats.

The teachers attended institute in Ashland Monday and Tuesday of this week.

### COPCO STOCK GOING UP AGAIN

On November 16, 1926, the price of Copco 6% Preferred stock will advance from \$95.00 to \$96.00 per share.

"This raise in price is made necessary by active demand and strong financial market for the type of security throughout the country", stated R. G. Tyree, Secretary of the California Oregon Power Company when interviewed upon the subject. "It is further justified by the present satisfactory condition of the Company's revenue-producing properties throughout Southern Oregon and Northern California".

"We are giving our customers and friends advance notice in order that everyone residing in our field of service may have the opportunity to invest in this dependable security before the increase in price takes effect on November 16th. Over \$500,000.00 worth of this 6% Preferred Stock has been purchased during the past few months by careful investors who recognize the true worth of this excellent security. Less than 1/2 of the original issue is left and it begins to look as if this will all be sold out and over subscribed in the very near future".

"Those who purchase this stock during the next few days will still be able to take advantage of the \$95 figures. On November 16th, the price will advance to \$96. per share".
