# These Cars are DOUBLY *guaranteed!*

YOU RECOGNIZE the emblems shown below. But do you know what General Motors has done to make each car the outstanding value in its price class? How it is using its great resources to provide each with a finer engine—a stouter chassis—a more beautiful, more lasting body—a finish that defies wear and weather—quality materials in those hidden places where quality is most needed? You'll save money on your new car by clipping the coupon below. Mail it TODAY.

CHEVROLET

**7 models**—$525 to $745. The quality car of the low-priced field. 3-speed transmission. Dry-disc clutch. Smooth, powerful engine. Fisher Bodies. Duco finish. Fully equipped.

## GOLD HILL HAS REAL HERO AMONG HER CITIZENS

That he is the true hero of the Raton Straits rescue on San Pablo Bay in 1905 at which time he successfully conquered the angry waters of that terrible strait and saved the lives of a woman and three children is declared by our fellow townsman, Tom Moore who is commonly called Lord Sir Thomas Moore.

Below is a communication from Mr. Moore which he has asked us to print.

"This is to prove that the said Thomas Moore is the hero of Raton Strait San Pablo bay. I do, here swear on oath that I am the man and any that don't believe it can see Tom Moore for other proof. Nick name, Lord Sir Thomas Moore.

We publish the above thru courtesy to Mr. Moore who claims that he has been wronged by some one not believing his story.

## NATION'S OBLIGATION TO MEXICO STRESSED

Sympathetic consideration for Mexico should mark American policy because industrial development in the United States has caused a great share of Mexico's economic roblems, Dr. Issas J. Cox, professor of history at Northwestern Universiy, declared in an address under auspices of the Engineering School of the University of Cincinnati.

"Modern capitalism is apparently the factor that has contributed most widely to present misunderstandings between our nation and Mexico." Professor Cox said. "Whether we accept the term 'econmic imperialism' as a fair designation of our close relationship with Mexico, it is obvious that our capitalists hold toward that country and its people position that affects materially the welfare of each."

"Upon the Mexicans has been thrust a system that they were totally unprepared to meet. Upon us rests the duty to assist them. Mexico lives in an economic age. Her people must meet its problems, if for no other reason, because they exist side by side with the most advanced industrial nation of the world."

"But it is not in keeping with the traditions of our nation to take advantage of its power and wealth to exploit weak and unprepared neighbors. Frankness in dealing with them, due consideration for their foibles as well as for their faults, patience combined with firmness, graceful concessions added to wise insistence, these plus a sympathetic understanding will do much to smooth out the present controvesies and to advance the people of Mexico on the pathway of econmic independance."

A recent survey made by the President and Assistant Director of the Federation of British Industries showed that the American percentage of the total world production or resources, such as coal, Petroleum, copper, steel wheat, cotton, lumber, automobiles, railroads, etc., averaged more than 65%. It was pointed out, too, that these percentages of production or ownership applied to a country, large as it is, whose population is less than seven pen cent of the population of the world. Aitention was directed to the high level findividul prosperity which is enjoyed by all classes of our people.

# Farm Pointers

An appetizing dessert or salad can be made of cooked prunes with the pits removed and the cavaties stuffed with cream cheese or cottage cheese seasoned with salt and thick cream. Dates and figs can be used in the same way.

In making boiled icings for a cake if it does not seem to be cooked enough after it has been taken from the fire it can be reheated in the top of a double boiler, even after the sirup has been poured over the egg white.

Rich, heavy foods should be served with lighter, more succulent foods. This evens up the calories and avoids too heavy tax on the digestive system. For example, a light lettuce salad is relished with a heavy meat dish.

When drop cakes spread out too much in baking the trouble is sometimes that the oven is not hot enough, rather than that the mixture is too soft. Drop cakes bake best on a baking sheet without high sides, or on an inverted pan.

Repeated experiments in Oregon have indicated that Grimm alfalfa is the best variety for this state. It appears hardier, more resistance to disease, better able to wihstand unfavorable conditions, a better yielder and longer lived, and it therefore reccommended by the experiment station as the standard variety.

Oregon farmers scan obtain legume basteria from the department of bacteriolgoy at O. A. C. A large supply of the organisms have been produced by the department during the past winter.

Ladino clover a giant form of white clover, early recognized by the experiment station as a valuable variety, is being purchased rather generally for coast pastures this spring. It has proved itself a valuable pasture plant in these parts of Oregon, being productive, palatable and durable.

# THE NUGGET

Published Weekly by the Student Body

VOLUME I — GOLD HILL, OREGON — NUMBER THIRTEEN

THE NUGGET STAFF

Editor ..... Maxwell Marvin
Assistant Editor ..... Asil Walker

REPORTERS

Athletics—Lloyd Scott, Vivian McDermott.
High School ..... Robert Kenaston
Grade School ..... Barbara McQuat
Club & School Ground .. Ethel Smith

Ethel Richardson of the second grade and Lloyd Richardson of the sixth grade have moved to Phoenix.

The third and fourth grade have been studying birds in both their Language and their Drawing.

The School boys have started to get out for track. There has been several nights after school for the past week that they have come out and warmed up. The track fixtures were all gotten out and the rudiments of track are now being learned. Mr. Bluett is the track coach.

We hope that we will have better luck with base ball than we did with basket ball.

The girls have started practicing for the track meat. They have not made much head way but hope so soon.

The A and B class practice on Tuesday afternoon and the C class practice on Wednesday.

Dorthy Shoemaker of the third grade and Irene Shoemaker of the second grade have been absent all week on account of illness.

**GIRLS BASE BALL TEAM**

The girls will start practicing base bill in another week or two with Mr. Orr as coach.
