LADIES!
Dress Up For The Fourth
 We have anticipated your desires and have some
 very attractive, Summer Things ready for you.
 You will want to look your best and we are ready
 to help you to achieve this desire.
Mrs Nellie Neas

**Our Sale Was
 a Wow!**
 Our sale went over big and we have made
 many new friends as a result of the friendly rela-
 tions and splendid prices our patrons received. In
 fact many marveled that we were actually selling
 good staple groceries at real bargain prices and
 not cheap goods purchased especially for the sale.
 We know people like that kind of service and we
 are going to give it to them.
 This week we are getting the first of the
 fruit season rush. We are prepared to handle
 your canning needs. Just let us know and we
 will see that you get what you want in the fruit
 line.

**Roads to Romance
 with Jack and Ethyl**
 Being the original letters of a young wife on her honey-
 moon over the Pacific Coast to the girl-friend back home.

Dear Marion and Jim:
 Have you decided yet where you
 are going on your vacation? Of
 course you'll drive; I was certainly
 glad to hear about the new car and
 how pleased you are with it. Now
 that it's all broken in you can start
 out and cover miles and miles and
 do it at small cost and have a really
 wonderful time. Jack and I know;
 this honeymoon trip has certainly
 shown us how to make the most of
 a trip through this country.
 You want to plan to stay some of
 the time at auto-camps. Like the
 hotels out here, they take wonder-
 ful care of the tourists and you can
 just live as comfortable as you can
 at home. All you have to do is take
 along a change of clothing so you
 can dress up if you want to go to a
 theatre or something. One suitcase
 a piece is enough, though you can
 take bedding and cooking utensils
 and a tent and the whole array if
 you want to.
 But the way things are now you
 don't need them. You drive into an
 auto-camp along about sun-down.
 The man shows you a cabin or a
 tent just as you prefer. And in
 there is just everything to set up
 housekeeping with for as long as
 you want to stay.
 For dinner you can drive into town
 or eat at the restaurant at the auto
 camp or prepare your own meal in
 your cabin if you want to. Step over
 to the general store and buy provi-
 sions, come back and cook them
 on the stove in the cabin or at an
 open fire-place outside. Dishes,
 stove, tables and chairs—everything
 is there.
 In the evenings there's a jolly
 bunch around and usually a big
 camp-fire. To bed in a bed that's
 really comfortable, a night's won-
 derful sleep, and up when you're
 ready for breakfast. Oh, it's com-
 plete as can be. Then there's laun-
 dry facilities, auto service, why some
 of these camps are regular little
 towns all of themselves. And yet
 you're out and away and vacationing
 and it's just great.
 There really isn't any reason why
 everybody that has a car shouldn't
 get out and enjoy it on weekends
 and during vacation. Jack and I are
 entirely sold on it; I find that I have
 spent this whole letter talking about
 what we've been doing.
 You better start planning soon to
 get out like we are and enjoy this
 western play land. Anywhere on
 the Pacific Coast is a magnificent
 out-door wonderland.
 Love, ETHYL.

P. S. If you want information re-
 garding vacation trips write and ask
 Jack and me. We're getting to be

**WHY NOT A CITY
 BEAUTIFUL CAMPAIGN**
 We have had the pleasure during
 our life to travel over other portions
 of this globe than this particular sec-
 tion and in our travels find that it
 is always the more impossible
 things which people want to ac-
 complish.
 For instance we have been in cit-
 ies located out on the prairie with
 no hills and no shade. In these
 places we have seen people go to
 enormous expense to build small el-
 evations upon which to erect their
 public buildings or homes that they
 might effect a terrace when they
 built their lawns and to better dis-
 play their landscaping.
 Here in our home city we find
 wonderful advantages for the dis-
 play of fine yards and parks and

**Put Cycol on Trial
 in Your Motor**

Stability The new Cycol will stand the hardest
 kind of usage. It is refined to meet the
 severer conditions of heat and pressure developed by
 the modern high compression engines, assuring you
 an unbroken oil film where heat, pressure and fric-
 tion are greatest.

No Acids The new Cycol refining process elim-
 inates the use of acids, though most
 refiners use them. While acids clear the "crude oil"
 they chemically change its structure and composi-
 tion, thus seriously cutting its lubricating value.
 The new refining process of Cycol is different in
 every respect. It selects from the "crude" those ele-
 ments of greatest lubricating value and stability
 in performance, rejecting at the same those ele-
 ments which readily break down under engine heat
 and cause excessive carbon deposits.

So Cycol gives a protective oil film on cylinder
 walls and moving parts, not vapor at the breather pipe.

Less Carbon As to carbon, Cycol like all other
 oils deposits some carbon. But it
 deposits less carbon than any other oil. The most
 exhaustive tests have proven that statement.

And even more important, the carbon that is de-
 posited by Cycol is soft and easily removable. It is
 not hard or sticky and cannot scratch a cylinder.

Prove it Yourself For these reasons you will
 find the finest results you have ever known—more perfect
 lubrication, "endurance beyond belief" and the elimi-
 nation of carbon trouble.

So fill your crank case with Cycol. You can identify
 it by the new transparent green-gold color.
