The dance at the Gold Hill Pavilion did not draw the usual large crowd of dancers, Saturday evening. This was attributed to the lack of advertising and the early hour of dismissal. Cement shipments from the Beaver Portland Cement company's local factory has been very heavy this spring and are still continuing heavy. The inclement weather of the fore part of June and last of May slackened the trade up some but the sacking department is going full time now preparing this great Gold Hill product for the markets of the world. The local company has done much good work in their laboratories the past two years in formulating better mixtures for making Beaver brand cement and the product which they are producing is rapidly achieving popularity until if the present rate of increase is continued it will be but a few years until a larger plant will be necessary. The finish mill is rapidly eating away at the clinker dump and soon the mountain of clinker which was there a few weeks ago will be reduced to a mere mole hill. Prospects are good for the starting of the kiln again within the present month for several months run.

Visitors Always Welcome

Always The Leader

When any store in a town the size of Gold Hill can maintain the lead in grocery sales and constantly increase their volume of business it should be proof to the most doubtful that there is some good reason for it.

The best way to find out is to ask one of many satisfied customers. They will tell you that it is here that they procure the best foods to eat and at prices that are in keeping with the quality of the product.

They will tell you that they receive courteous, prompt service and free delivery. Get the habit yourself and follow the crowd to Gold Hill's leading grocery.
