place near where he was found but it did not turn over. He did not seem to remember where he left his clothes or just how he happened not to have them with him. Genius Gets Recognition
There is little unrecognized genius going a-begging; at least, if it has character behind it. Keats and Shelley are often quoted to the contrary. They both died before they turned thirty. Had they lived as long as Tennyson and Wordsworth they would have enjoyed forty or fifty years of fame. As it is, it is untrue to say they died "unwept, unhonoured and unsung."—London Tit-Bits.
