25% INCREASE In
Instruction Costs!

Will Result if the Proposed Zorn-Macpherson
School "Juggling" Bill is Allowed to Pass!

The costly experience of 18 States, which have combined institutions, should be heeded by the people of Oregon in considering the so-called consolidation measure, which actually is only a costly and unneeded expansion, establishing 4 NEW schools and creating 2 NEW types of schools at taxpayers' expense.

The following graph, which is compiled from the authentic figures of the United States Office of Education for the school year 1931-32, will enable every taxpayer to prevent this increase in instruction cost, resulting from an experiment proposed by unknown interests.

IS THIS ECONOMY?

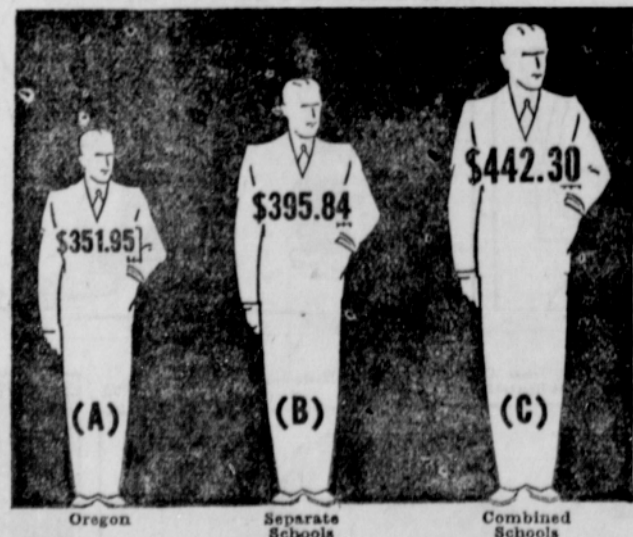

FIGURE (A) represents the present average low cost of instruction per student in Oregon. This cost is being continually reduced as a result of a unified system of instruction and management, which is now being operated at an annual saving of \$900,000 compared with previous costs.

FIGURE (B) represents the average instruction cost per student in the 17 States having separate institutions.

FIGURE (C) represents the average instruction cost per student in the 18 States which have combined institutions.

IF OREGON is forced to combine the University of Oregon with the Oregon State College, there would be an increase in instructional costs of \$20.00 each year per student, or over \$450,000 ADDITIONAL INSTRUCTION costs for a combined student body.

COUNTY TREASURER WALKER HAS HANDLED JOB WELL

County Treasurer Walker, custodian of the funds of Jackson county for the last six years points to his past record in soliciting the votes of the people November 8, according to his campaign statement this week.

He states that he has handled the county funds efficiently, keeping careful record of all receipts and expenditures. He also states that in spite of the many bank failures during his period of office, no county funds have been lost in this manner.

He also points out that in a period such as we are now passing through efficient handling of the county's funds is unusually important and that a man of experience is far preferable to one with no knowledge of such affairs.
