Direct Appeal to President for Crater Forests

EUGENE, Ore., July 8—In an effort to save virgin forests along the highway from Medford to Crater Lake, the Oregon Council of Roadside Beauty at a meeting here Saturday decided to make a direct appeal to President Roosevelt.

It was pointed out that the state highway commission lacks either authority or the funds to take over the timber, in danger of being logged off. It was further said that the newly created state park commission lacks funds to save the timber.

The association members said legislation empowering the federal forest service to exchange timber lands of equal value for the timber along the highway cannot be enacted until congress meets again next January, but it was believed the president might have power under his new executive grants to authorize such an expense.

Lumber Camp Payrolls Large at Lakeview—

Seven hundred and fifteen men are on the payrolls of lumber companies in the mills at Lakeview a survey just completed revealed. This is the largest number employed for several months. This number will be increased this month when night shifts are put to work at several of the mills. Wage scales generally are rather low due to the low prices prevailing in the lumber markets, although in the latter some improvement has been noted.

Four Thousand Go to Work in Lane County—

Approximately 4000 people have gone to work in Lane county during the past month and at least half of these were not gainfully employed at this time last year. Lumber mills are reopening, cherry picking is at its height and many are employed in fruit canneries.

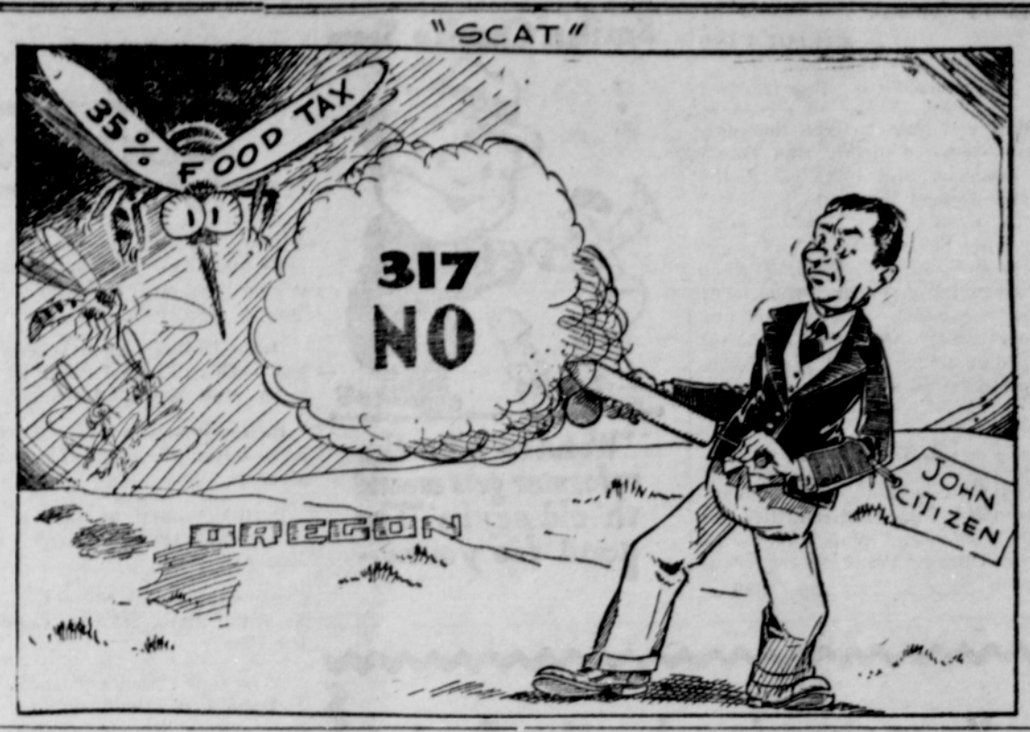
Ashland Beer Seller To Lose License—

The first revocation of a beer license in this part of the state was foretold this week when the Ashland city council recommended the cancelling of the license issued to the Pastime pool hall, because of the fact that an employee in the establishment was arrested and convicted of spiking the 3.2 which he admitted greatly increased the beer business which had been lagging.



JOAN BENNETT APPEARS WITH BEARS—AND LIKES IT

One of the highlights of the sojourn of the "Wild Girl" unit in the Sequoia big tree country, according to Director Raoul Walsh, was the courage shown by Joan Bennett during the filming of scenes in which she appears with a number of bears. The coaxing of the animals into the right spot at the right time took some close figuring. Trails of strained honey were made to converge in the clearing where the cameras were set up and the bears came in droves. Charles had some exciting experiences with the animals.

"Wild Girl" opens on Sunday at the Roxy Theatre, in Medford.
