Time Limited on Irrigation Areas

Plans to comply with federal provisions before money already authorized by the Reconstruction Finance Corporation can be appropriated and used for the various irrigation and drainage districts in the state must be completed by June 1, C. E. Stricklin, secretary of the state reclamation commission, announced Monday.

Stricklin was in conference over the week end with Frank J. Keenan, financial advisor of the division of irrigation and drainage for the corporation, and discussed the plans. Keenan made the statement all proposals must be completed by the June date.

Six districts in the state have been authorized loans amounting to $903,606 on the average of 29 per cent on the face value of the districts. Plans for three of these districts were being held up by a suit pending in the supreme court enjoining the state from collecting its previous loans from the districts, one of the provisions of the government terms.

The funds authorized for refinancing were as follows: Talent district, $377,500; Ochoco, $289,-142; Rogue River, $89,000; Hood River district, $64.375; Medford $45,379 and Gold Hill $38,210.

Stricklin stated the Hood River loan was authorized upon a basis of 63 per cent of the face value, one of the highest based loans made by the government.

Why the Sudden Change to Liquid Laxatives?

Doctors have always recognized the value of the laxative whose dose can be measured, and whose action can be thus regulated to suit individual need.

The public, too, is fast returning to the use of liquid laxatives. People have learned that a properly prepared liquid laxative brings a perfect movement without any discomfort at the time, or after.

The dose of a liquid laxative can be varied to suit the needs of the individual. The action can thus be regulated. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The wrong cathartic may often do more harm than good.

Dr. Caldwell's Syrup Pepsin is a prescription, and is perfectly *safe*. Its laxative action is based on senna —a *natural* laxative. The bowels will not become dependent on this form of help. Dr. Caldwell's Syrup Pepsin is at all druggists. Member N. R. A.

March 15 Deadline On Income Taxes

J. W. Maloney, collector of internal revenue, with headquarters in Portland, is reminding taxpayers that federal income tax returns for the calendar year 1933 must be filed with his office not later than March 15, 1934, as required under the law. Through the increased activities of the work in the collector's office, caused by the processing taxes and the numerous added miscellaneous taxes, it is important that all income tax returns be filed promptly.

Requests are now being received from taxpayers, and from representatives of taxpayers, for extensions of time in which to file income tax returns.

"All such requests must be confined to cases where the taxpayer finds it impossible to file his return by March 15, either because of illness, extended absence, or other valid cause, and the reason for such extension must be set out by the taxpayer in affidavit form, to be filed with such request with the collector," Maloney has announced.

All requests must be made by the taxpayer or by the representative of a taxpayer when qualified to act in his behalf. Blanket requests for extensions filed by representatives of taxpayers cannot be permitted; only such as signed by the individual taxpayer or his duly authorized agent will meet requirements.

RE-ENROLLING IN CCC WILL START LAST OF MARCH

With information received by Medford district headquarters, that the Civilian Conservation corps will be continued until March 31, 1935, announcement was issued last week that re-enrollments may be made between March 31 and April 15 of this year.

Persons discharged from the camp, and who are entitled to re-enroll, must do so before March 31, according to instructions received here. Those wishing to re-enroll, who in the opinion of the company commander and the camp superintendent, are not entitled to such privileges, will not be accepted.

The decision of the company commander and the camp superintendent will be considered final in such cases, none of which may be appealed.

Men will be enrolled for the period between March 31 and September 30, and for the purpose of keeping up the quotas, enrollment is to be conducted between July 1 and 20.

ODD BUT TRUE

PERMANENT FOREST CORPS URGED BY FOREST CHIEF

That the civilian conservation corps be made a permanent institution was urged by F. A. Silcox, chief of the forest of the U. S. department of agriculture, who spoke in New York recently.

Mr. Silcox, an old-time forester, who had been director of the bureau of industrial relations of the New York Employing Printers for the last eleven years until his appointment as chief forester last November, spoke at a dinner in his honor given by eighty organizations in the printing and allied industries at the Hotel New York.

"As citizens of the United States", Mr. Silcox said, "you have a right to be proud of the way in which this project has been handled. It has served a great purpose and it would be a real contribution if such an experience could be made a permanent part of the education of our youth."

Pointing out that there were more than 670,000,000 acres of forest land and potential forest-growing areas in this country, of which 445,000,000 acres are privately owned, Mr. Silcox said there must be basic reforms in the use of these lands in any program for permanent recovery. He predicted that within twenty-five years established governmental agencies wiuld be supervising privately-owned forest land.
