### MEDFORD ICE & STORAGE COMPANY ASKS ATTENTION

To the 'Perfect' Refrigerant—Ice

Located in Medford on South Fir, Phone 264.

Their cold storage service is open every day of the year to the public for meats, or in fact anything you would care to store. They know how it should be prepared for storage as they are experienced in this work.

The pure ice manufactured by this concern adds to the length of human life, is a great benefit to the sick and more than all, lifts the burdens from the housewife. She can always have everything cool and well preserved for the meals. As the air circulates over the ice in the refrigerator it is constantly purified. As the ice melts it washes

down the drain impurities and odor collected by the air circulating over the food. Ice guards in every way against the loss of flavor.

Ice is inexpensive. The initial investment in equipment for the proper use of ice is very much lower than would be required for any other form of refrigeration. Repairs and upkeep are practically nothing.

Medford Ice & Storage Company plant is of large capacity, thus they are able to produce not only the purest of ice, but sufficient quantities of ice to meet the demand of the public for miles around, and manufacture it in an economical way. Thus the public is assured of ice at a price that is very attractive.

In this issue we are glad to compliment the Medford Ice & Storage Company management upon their fine service, and call the attention to advantages of the location of this industry in Medford.

### ROGUE RIVER BOX COMPANY

Manufacturers

(Manufacturers)

In Grants Pass on J street, phone 246-R. Renders such satisfactory service to the trade that they are recognized as one of the leading box manufacturers in this part of the country. Under the direction of men well and favorably known in wholesale trade circles.

Located as they are, and determined to furnish boxes of quality upon reasonable margin of profit has caused the business of the Rogue River Box Company to flourish and expand. Keeping their name constantly before the people and the fact that they are a local industry has so firmly established them that their products will be found all over this territory.

Much is being done to aid in giving this community a commercial prestige by the activities of the management. This volume of business which they transact, the quality of the boxes which they

make and the business methods of the company are responsible for the reputation they have won.

While their activities cover a wide scope of territory, their special field is that of Oregon. To keep their organization complete, it is necessary that the Rogue River Box Company employ a number of people at all times, and being a local enterprise, thousands of dollars are placed in immediate circulation that would never find its way here if it were not for their efforts.

Every department of this house is in charge of an expert, the management is in the hands of men who have had years of experience in the manufacture of boxes, and thoroughly understand trade conditions, and we predict that if the present policies of this concern continue, the future will hold greater advantages than they have enjoyed in the past.

### W. G. BISHOP

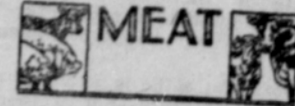

There are plenty of men in their chosen field who are prominent but who will not permit anyone to say much about it. But it is public property every time a man reaches a position in any community where he is generally recognized as a leader. W. G. Bishop has always done his work effectively even though it has been quite encompassed and without the blare of trumpets.

Thus his many friends and appreciative patients would think it a strange omission were we not to print a word about him. No one has gained a higher regard of his conferees or has been more instru-

mental in maintaining the high standards set by the world of materia medica for its representatives to follow.

W. G. Bishop, busy as he is, always manages, somehow or other, to do his bit in any progressive movement beneficial to the county's welfare. This is not to say that he comes out prominently as a conspicuous factor for he is a man who prefers to carry on unostentatiously but none the less effectively. It is men of this type who go the even tenor of their way and accomplish much without saying much, and whose achievements are indeed well merited.

### HUBER PACKING COMPANY

Any business to be permanently successful must be founded upon principal, honesty, fair dealing and full value for the prices asked. From these there can be no deviation

regardless of economic or other conditions.

They are thoroughly trained for all the work that accountancy entails and have had much valuable experience in being prepared to take complete charge of a general audit of any business.

The reason for so many business firms not succeeding is the fact that they do not know just where they are financially. Every man, no matter how small a business he

conducts, should occasionally have it gone over by an expert and get recommendations as to methods of accountability to pursue in its proper conduct. They have made a very complete study of all classes of business, thus are in a position by reason of the wide experience to make recommendations that will help to keep business on a substantial financial basis.
