mission through the mails as second-class matter.

American Boy Magazine Companion to Thousands

Hundreds of thousands of boys and young men read The American Boy Magazine every month and consider it more as a living companion than as a magazine.

"It's as much a buddy to me as my neighborhood chum," write one high school senior. "The American Boy seems to understand boy's problems and considers them in such a sympathetic and helpful way. It gives advice and entertaining reading on every subject in which a young fellow is interested. It is particularly helpful in sports. I made our school basketball team because of playing tips I read in The American Boy."

Many famous athletes in all sports credit much of their success to helpful suggestions received from sports articles carried in The American Boy Magazine. Virtually every issue offers advice from a famous coach or player. Football,

basketball, track, tennis, in fact every major sport is covered in fiction and fact articles.

Teachers, librarians, parents and leaders of boys clubs also recommend The American Boy enthusiastically. They have found that as a general rule regular readers of The American Boy advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

Trained writers and artists, famous coaches and athletes, explorers, scientists and men successful in business and industry join with an experienced staff to produce in The American Boy, the sort of reading matter boys like best.

The American Boy sells on most newsstands at 20c a copy. Subscription prices are \$2.00 for one year or \$3.50 for three years. Foreign rates 50c a year extra. To subscribe simply send your name, address and remittance direct to The American Boy, 7430 Second Blvd., Detroit, Michigan.

RALPH H. CAKE

Ralph H. Cake, prominent Portland civic leader, partyworker and businessman, filed this week with secretary of State Earl Snell for the office of Republican national committeeman.

Cake who is a native of Portland where he was born in 1891 absorbed a Republican doctrine under the tutoring of his father, the late Judge W. M. Cake, while attending Portland grade and high schools and the University of Oregon where he graduated in 1913. He finished his education by taking law at Harvard and returned to Oregon to join his father's firm. In school he joined the Phi Gamma Delta which he has since served as national officer. He is a past president of the University of Oregon Alumni association. He is a member of numerous fraternal and civic organizations and was president of the highly successful 1938 Rose Festival.

Cake was married in 1916 to Gretchen Sherwood of Couville and they have two children, Martha and Ralph Jr.

Since the death of his father Cake has been associated in law practice with Lamar Tooze and Nicholas Jauregui. He is also president of the Equitable Savings & Loan association. His extensive legal contacts require frequent trips east and has resulted in making political contacts there which his friends feel can be of value to Oregon. Always active in local politics Cake was chairman of the finance committee for the recent Lincoln day program in Portland which featured Thomas E. Dewey.

Finnish Premier Lauds Red Cross

Risto Ryti, Finnish Prime Minister, cabled thanks to the American Red Cross for war relief supplies — including 18 tons of anaesthetics — which have been moving to Finland since the outbreak of hostilities.

Chairman Norman H. Davis, in announcing the Finnish Prime Minister's cable, stated that Finnish relief supplies from the American Red Cross are moving periodically out of New York in answer to urgent requests from the Finnish Red Cross. As an emergency measure, the first medical supplies needed by the small northern nation were purchased in London and transported by plane to Helsinki, it was explained.

Supplies now en route to Helsinki, Mr. Davis said, include ten motor ambulances, 25 hospital tents with a capacity of 50 patients each, and large quantities of medical supplies and clothing. In addition, \$30,000 worth of miscellaneous drugs and 20,000 blankets are being readied for shipment in New York, he said.

Fear of an outbreak of typhus and other types of oriental diseases prompted the American Red Cross to obtain the services of two U. S. Public Health Service physicians who were stationed in Europe when hostilities broke out. It was announced they were working with the Finnish Red Cross.

Mrs. Roosevelt Makes Health Inspection Tour

If Mrs. Franklin D. Roosevelt were to step tomorrow into the health department of any city hall or county court house in the country, she probably would ask many of the same leading questions that she did on such a trip in Washington, D. C.

The tour was arranged by Mrs. Thomas F. McAllister, Director, and Mrs. May Thompson Evans, Assistant Director of the Women's Division of the Democratic National Committee who drafted Mrs. Roosevelt for a series of demonstrations of how she finds out about the place where she lives, as part of

the "Know Your County" survey suggested by the Women's Division to gather campaign ammunition for 1940. It is described by Bess and Lucile Furman in an article in the February issue of the Democratic Digest, publication of the Women's Division.

With Mrs. Roosevelt as she visited the Health Department of the Nation's Capital to investigate the vital problem of the city's health were a group of Congressmen's wives from widely separated parts of the country: Mrs. Jerry Voorhis of California, Mrs. John Muddock of Arizona, Mrs. Frank Hook of Michigan, Mrs. John Rankin of Mississippi and Mrs. Herman Eberhart of Pennsylvania.

The First Lady touched on topics of national concern — the supply of public health nurses, the special needs of mothers of lower income brackets in childbirth, the need for hospital beds, and the campaigns against syphilis, tuberculosis and pneumonia.

Many of the questions she asked would be applicable to any town and could be asked by women in any part of the country.

"Would you say that basically your health problem is economic, centering in districts of poor housing, where there is overcrowding and the people haven't the food to build up resistance?" she asked.

"Have you enough public health nurses?" was another question.

A third interrogation, "Is the real need more hospital beds or is it more public health nurses?" "I felt that I had acquired a great deal of knowledge on this 1st trip," Mrs. Roosevelt said. "It is planned to continue these trips, looking into a different phase of District government. It is hoped that this will be helpful to women in other cities or rural areas who wish to study their own problems."

CHRISTIAN SCIENCE CHURCHES

"MAN" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, March 10.

The Golden Text was, "O man greatly beloved, fear not; peace be unto thee, be strong, yea, be strong" (Dan. 10:19).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "And God said, Let us make man in our image, after our likeness; and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth. So God created man in his own image, in the image of God created he them" (Gen. 1:26, 27).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The Scriptures inform us that man is made in the image and likeness of God. . . . Man is spiritual and perfect; and because he is spiritual and perfect, he must be so understood in Christian Science" (p.475).
