CHRISTIAN SCIENCE CHURCHES

"THANKSGIVING" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Thanksgiving Day.

The Golden Text was, "Offer unto God thanksgiving; and pay thy vows unto the most High; and call upon me in the day of trouble: I will deliver thee, and thou shalt glorify me" (Ps. 50: 14,15).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "O give thanks unto the Lord, for he is good: for his mercy endureth for ever. Let the redeemed of the Lord say so, whom he hath redeemed from the hand of the enemy. Oh that men would praise the Lord for his goodness, and for his wonderful works to the children of men!" (Ps. 107:1,2,8).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Millions of unprejudiced minds—simple seekers for Truth, weary wanderers, athirst in the desert—are waiting and watching for rest and drink. Give them a cup of cold water in Christ's name, and never fear the consequences. Those ready for the blessing you impart will give Thanks. (P570)

"Our Deepest, Most Heartfelt Thanks,
O Lord, for the Blessings of Life,
Liberty and Material Well Being, and
for the Joys of Family, Friendship, Happiness

PRAYERS such as that are being offered all over the nation today, just as they were when that first little group of grateful colonists offered theirs in celebration of the first harvest in their new land. Hundreds of harvests, hundreds of Thanksgivings have passed since then. As a nation, at each of these Thanksgiving observances, we have had much to be thankful for; each of them saw our country a little further down the road of history, a land growing in power, in area, in wealth . . . and, most of all, in the happiness and well being of a free people.

TODAY, Thanksgiving, 1941, we see our country engaged in a tremendous effort that is testing all of our capacities for ingenuity, for skill, for courage and patience. We can be Thankful — and with confidence in the future — that the past has proven our ability to meet problems and to solve them, and that while our present position is a new one in history, It is not without precedent in kind and most certainly will yield to solution by the combined efforts of a people made incredibly strong by the blessings of nature and three centuries of freedom.

As individuals, as a nation, as a people under God, we have much to be thankful for on this Thanksgiving Day. Let each of us individually, or as family groups, offer our thanks as we sit down to that bountiful feast that is the outward sign of our gratitude.
