A Prohibition Town in Earnest.

A Milton correspondent of the Walla Walla Journal writes:

Last week a prominent citizen of Milton and a leading prohibitionist asked Fred Springer, a German, who lately moved to town procure him some whiskey, as he was feeling unwell, and upon receiving it paid Springer 50 cents, the amount it cost him. On the following day, Friday, Springer was arrested, charged with selling liquor without license, and fined \$100 and costs by the recorder. Subsequently C. C. Cunningham was arrested charged with the same offense and fined a like amount, the total being about \$120. This he refused to pay and was remanded to jail to serve out his fine, and at present writing is still there. It is claimed that the case against Springer was arranged to get a case against Cunningham, but it failed, as Springer testified on the witness stand that he had the whisky at home, having procured it in Walla Walla.

The San Francisco Juvenile Opera Company in Olivette.

"Olivette" has proved such a strong draw card that the management have decided to keep it on the boards of the New Park for two nights more.

As has been said before, the company give "Olivette" much better than the "Mikado," and it is now running smoothly and winning continued and pronounced appreciation, the curtain being demanded three and four times after the farandole of the second act at every performance. It seems hardly credible for such young people, really children, the three girls taking the leading characters being under 17 years of age, to do such excellent work.

The conspiracy scene with Coquelicot in the second act being particularly good. Teddy Gamble in his "Bob Up Serenely" song and grotesque dancing, nightly provokes roars of laughter. With proper care the boy will make a second Francis Wilson, the pet comedian of New York.—Oregonian, March 17th.

Started off Badly.

Henry Mitchum started to Henry Bowman's ranch yesterday afternoon, driving a young trotter of Mr. Bowman's, attached to a sulky. When near the depot the mare became frightened, and started to run. Mitchum was bounced out at a street crossing, shaking him up considerably. The mare continued to run until nothing was left of the sulky but the wheels. Mr. Mitchum, who had been engaged to train the mare, made a very bad beginning.

Walla Walla Whiffs.

WALLULA, April 19.

To the Editor of the EAST OREGONIAN.

Having been unexpectedly called to this, "the city in the sand," and remembering the numerous times I have seen it done up on paper, I will not burden you with a detailed account of the many railroads, transcontinental and locals that center here; suffice it to say there will soon be six. Mr. Hunt has about 3 miles graded, and will begin tracklaying in a week or so. The O. R. & N. contractors on the Eureka flat branch will begin grading Monday next. Mr. Hunt finished laying track to Helix to-day and will put a large crew to work surfacing, so as to put the road in first-class running order. The O. R. & N. road runs up main street in "Dubbintown," and the people are very indignant over it.

A. J. Rouzoin, of Milton, has located here; he is in the drug business and is doing well, as he deserves to.

Joe Merchant, for 13 years chief clerk with Schwabacher Bros., of Walla Walla, is in the general merchandising business here and if I am any judge he's the best "merchandise" in the place.

Dr. Stiles, of Weston, is railroad physician for the "Highland" system. This work is not laborious, but then its "style," you know.

Mr. Hughes, superintendent of the Highland route, is just the pleasantest little fellow you ever met; but then he lives in Pendleton and maybe this is not news to you; but its gospel truth, "and don't you forget it."

After a two hours' search I found a bed; that is, a fellow kindly gave me a saddle blanket and a gunny sack and allowed me to sleep on the floor for a quarter.

I learn our old friend U. Garred, of Milton, also Mr. Haggard, talk of locating here. W. W. WINRO.

Emigrants Coming.

From the Weston Leader.

Negotiations are being made by which a very considerable addition to our population will be made. A party of French emigrants that wintered in the vicinity of Walla Walla have been examining the land upon Young's mountain with the view of settling a large colony there. If they can make the necessary arrangements they will buy in several townships and a few years hence what is now a forest will be a cultivated field. This land is the most fertile of any in this rich country.

Somewhat Mixed.

From the Milton Eagle.

"Who are you going to support for the Legislature?" asked the reporter of a friend yesterday. "Why, I'm going to vote for Ramsley, Skipper and Wagworth." "Who did you say?" asked the Eagle man in astonishment. "I said Ramsley, Skipper and Wagworth." The reporter again put the question and was answered somewhat in anger: "D—n it, I told you twice, Ramsworth, Skipper and Wager." The poor man had got things sadly muddled.

All the railroads between Chicago and the Missouri have agreed to drop freight rates between all points east of the Missouri river thirty per cent. This heavy reduction—as brought about by the recent cut in rates between New York and Denver by the Morgan Steamship Company and the Fort Worth & Denver road.
