

st Oregonian  
RDAY, JULY 28, 1888.  
Oregonian Branch Office.  
The three tramps arrested yesterday, after being confined in jail, at once began to look around to see what they could steal, true to their nature. Seeing R. M. Tweedy, a half-crazy inmate of the establishment, the idea struck them that he would be a good subject for thievery, and it was at once put in practice. He was stripped of nearly all his clothing by the vags, but the robbery was discovered by Tweedy's relatives, who came in to visit him, and his wardrobe was restored by the jailer at their discovery and complaint.  
Tink French and Al Despain have returned from their extended hunting, fishing and mining trip to the Greenhorn mountains, the balance of the party stopping at Teel springs on the return trip, not yet being surfeited with mountain life and its pleasures. The boys created quite a sensation on riding into town looking like a couple of desperadoes with their mustangs and pistols. They very naturally report a fine time in the rugged mountains, "far off from the madding crowd."  
A prominent young man went to a hotel in Pendleton the other evening to engage a bed. He also asked for a sheet of paper on which to write a letter. He happened to be unknown to the night-clerk, and was refused both without a "put up" in advance. The fact that he was suspected of being a dead-beat naturally aroused his anger, and he departed in high dudgeon for another hotel. Whether the joke is on the young man or the night-clerk still remains in doubt.  
Five soldiers from the Walla Walla garrison came in on the train yesterday evening, and left on the west-bound passenger train for Vancouver, W. T. They are men picked from each company at Walla Walla for superior marksmanship, and will contest in Vancouver with the pick of several regiments on the coast and in Arizona. After the contest, the four best marksmen will be selected and sent to Fort Niagara, to take part in a national contest.  
The upper Columbia river is to be navigated. Steamers are already on the river, and on a trial trip the steamer City of Ellensburg went from Port Eaton to the Okanogan river and up that stream ten miles, and returned, making the round trip in thirty-three hours. The country opened up by this new steamboat line is a magnificent one, rich in both agricultural and mineral resources.  
It is stated by the Oregon Blade that the Stars were defeated in their game at Baker City with the picked nines, composed of Boise, North Powder and La Grande nines. This is a strange mistake on the part of the Blade, and will be deemed intentional unless a correction is made. The Stars won every game in which they contested.  
Oscar Cran is on the programme for to-day's game between the Portlands and Willamettes at Portland, as catcher for the former club. A report of the game and his work behind the bat will be looked for anxiously in Sunday's Oregonian by his Pendleton admirers.  
J. F. Robinson has returned from Meacham, to remain in Pendleton to-day and to-morrow. He has not yet obtained his fill of the pleasures of mountain life, and will again depart for the shades of the pines on Monday next.  
As soon as ground are obtained, a stock company formed, and everything satisfactorily arranged, the Stars will challenge the Colfax nine, which appears to be so awfully anxious to cross bats with the Pendleton boys.  
Centerville Home Press: The Pendleton Stars have just cause to feel proud over their victory at the baseball tournament held in Baker City last week. They were given a grand reception when they returned Sunday night.  
Mr. A. H. Barker, who has been visiting relatives here, together with his two daughters, was compelled to return to his home in Albany last evening, having received word that his immediate presence was necessary.  
Robert Henderson, of Silver City, Idaho, blew out the gas in a Chicago hotel several nights ago, and when found was barely alive. It is thought he will recover, although it is a "close shave."  
Another "advance brigade" of Sells Bros. circus passed through town yesterday. It looks like the circus was composed entirely of "advance brigades," so frequent are their visits.  
George D. Riehl, of Camas prairie, has been granted a pension of \$8 per month with about \$150 back pay. Mr. Riehl is one of the veterans of the Mexican war.  
Drs. Egan and Vincent visited Sam Hays yesterday, and report that he is doing splendidly, and is getting well very rapidly for a man with a badly broken leg.  
Mr. J. J. Worcester and wife will leave on to-night's train for Cayuse, to spend another Sunday on a search for the "speckled beauties" of the Umatilla.  
Charles Wilkins is engaged to-day in removing his family and belongings to his new residence on the hill south of town.  
B. Coffey, Indian Agent, has a notice under "New To-day" of interest to persons gunning and fishing on the reservation.  
His Grace, Archbishop Gross, will lecture in the Catholic church to-morrow at 10:30 A. M.  
It is now the dulllest season of the year in the clerk's office.  
W. S. Ford, the genial landlord of La Grande, is in town.  
The Harvester on Its Travels.  
The combined harvester left Friday afternoon for Temple's farm. Its trip through the streets was a sort of triumphal parade, a large number of spectators witnessing its lumbering motions. Six horses were all that were necessary to haul the machine to the farm, although twenty are necessary to its complete operation in the harvest field. Its peculiar appearance struck terror to the hearts of horses, and a couple of the animals tied to the hitching-rack on Alta street, got excited and twisted the tongue of the buggy to which they were attached. Before leaving, the huge machine was photographed. Its trip across the Main street bridge was a severe trial to that structure.  
NOT A GOOD MECHANIC.  
Mathew Herron Would Have Been Given Work if He Had Been a Capable Mechanic.  
PENDLETON, July 26, 1888.  
To the Editor of the East Oregonian.  
In response to the article published in your paper of Thursday, I will take pleasure in explaining the matter to your readers. I can say you have been misinformed concerning the matter. You and the general public know the French mechanics, and know them to be free and liberal men, far above small actions. They never boycott any one, no matter who they are. It takes masons who know their trade to work with them. If we need stone masons we can get them every day in Pendleton, as good workmen, or better, than Mathew Herron, but they are not capable of doing the work required of them. I wish you would get Mr. Herron a job if you can.  
FRANK ROUMAGOUX.  
Hotel Arrivals.  
VILLARD HOUSE—W C Calhoun, Centerville; C W Ransier, J J Scheimer, F W Bussey, H M Parkhurst, G H English, J Sailer, J Garrigan, advance brigade No. 2, Sells Bros; T H Walsh, W S Ford and wife, La Grande; W C Starr, San Francisco; Geo H Sautbert, Salem; R P Elliott, St Paul; J F Clark, Denver; Wm Muskelyne, Baker City; Thos H Cox, Island City; J B Keeney, Joe Garrett, city; C M Campbell, O R & N Co; J B Benefield, Santa Monica, Cal; J E North, O & W T R R Co; F A Frischkorn, R C Bralby, C Pontius, Harvey Harris, Julius Heilbromell, Portland; Geo Castello, McMahon's circus.  
GOLDEN RULE—S B Crandle, city; Frank Hanna, D Murphy, Cold Spring; E Campbell, C Hardwick, city; Mrs Latimer, A Hodson, Nye; A B Renuick, Juniper; W N Wilson, Long Creek; J B Ogg and brother, Nolin; Frank Williams, Mountain; M Wild, wife and mother, country; T Seragg, W Brown and family, Montana.

"Second to Baker City."  
The Baker City Democrat man is possessed with extraordinary powers. He thinks Baker City comes first; Pendleton second, of the towns of Eastern Oregon. The EAST OREGONIAN of course differs with the Democrat man, but is willing to admit that it is in a position to be prejudiced; so is the Democrat man, but is willing to leave it to the record of both places and the progress each has made in the last five years. The Democrat enthusiast speaks as follows of Pendleton and Baker.  
"The last issue of the EAST OREGONIAN was brimming with good cheer over the news that Pendleton within a few weeks would become the end of a division of the Wallula branch railroad; also, central division of the O. R. & N. system. We are glad of Pendleton's good fortune, and hope she will reap every benefit possible. Pendleton is a live, progressive town, second only to Baker City in all the great Inland Empire, and is destined to be a large city some day. By the way, speaking of this division question, it is now strongly hinted that Baker City is properly situated to become the end of a division, and it is very probable they may conclude to make it so within the next few months."  
A Baseball Stock Company.  
Another meeting of the Pendleton Baseball Association was held Friday evening in the EAST OREGONIAN office. A great deal of informal discussion was carried on about the feasibility of forming a stock company for the purchase of grounds, in order that Pendleton might have full opportunity for a tournament, and liberty to indulge its baseball fever in the future to its fullest extent. With this in view, a committee consisting of Messrs. Turner, Livermore and Carter was appointed to draw up articles of incorporation for a baseball stock company. They were further authorized to see on what terms suitable grounds for baseball purposes could be purchased. The grounds now in view consist of a portion of the old E. O. A. A. track, together with the grand stand, sufficient to make a splendid diamond, and every opportunity for spectators to witness and enjoy the game. Mr. J. H. Turner has promised to subscribe \$250 worth of stock to the association to purchase these grounds, and quite probably others will follow his example. The great national game of America has found a firm footing, and many enthusiastic worshippers in Pendleton.  
From Canyon City.  
Cap. Martin, who for some time has been sojourning in Canyon City, has returned. He brings back the report that the Grant county seat is quite dull, very little business being transacted there at present. The new court-house there looms up on an attractive site, and imparts an air of respectability to the town. The hay crop in that section will be somewhat short this season, this, together with a little mining and stock-raising, being the town's main dependence. Some little placer and quartz-mining is carried on near Canyon City and neighboring towns. At Robinsonville, forty miles distant, a party of four miners took out 400 ounces of gold, or \$6,400, in five weeks. Mr. Martin interviewed "Buccaro Jim" and Bob McGinnis, who murdered Deputy Sheriff Lockwood, both being again behind the prison bars. They have concocted the yarn that Lockwood committed suicide, but will swing all the same for their crime.  
We ask every reader of the Daily and Semi-Weekly EAST OREGONIAN to endeavor to secure one or more campaign subscribers to it. Semi-Weekly, to November 15, 1888, 75 cents; Daily \$1.25.

By the way, speaking of this division question, it is now strongly hinted that Baker City is properly situated to become the end of a division, and it is very probable they may conclude to make it so within the next few months."  
A Baseball Stock Company.  
Another meeting of the Pendleton Baseball Association was held Friday evening in the EAST OREGONIAN office. A great deal of informal discussion was carried on about the feasibility of forming a stock company for the purchase of grounds, in order that Pendleton might have full opportunity for a tournament, and liberty to indulge its baseball fever in the future to its fullest extent. With this in view, a committee consisting of Messrs. Turner, Livermore and Carter was appointed to draw up articles of incorporation for a baseball stock company. They were further authorized to see on what terms suitable grounds for baseball purposes could be purchased. The grounds now in view consist of a portion of the old E. O. A. A. track, together with the grand stand, sufficient to make a splendid diamond, and every opportunity for spectators to witness and enjoy the game. Mr. J. H. Turner has promised to subscribe \$250 worth of stock to the association to purchase these grounds, and quite probably others will follow his example. The great national game of America has found a firm footing, and many enthusiastic worshippers in Pendleton.  
From Canyon City.  
Cap. Martin, who for some time has been sojourning in Canyon City, has returned. He brings back the report that the Grant county seat is quite dull, very little business being transacted there at present. The new court-house there looms up on an attractive site, and imparts an air of respectability to the town. The hay crop in that section will be somewhat short this season, this, together with a little mining and stock-raising, being the town's main dependence. Some little placer and quartz-mining is carried on near Canyon City and neighboring towns. At Robinsonville, forty miles distant, a party of four miners took out 400 ounces of gold, or \$6,400, in five weeks. Mr. Martin interviewed "Buccaro Jim" and Bob McGinnis, who murdered Deputy Sheriff Lockwood, both being again behind the prison bars. They have concocted the yarn that Lockwood committed suicide, but will swing all the same for their crime.  
We ask every reader of the Daily and Semi-Weekly EAST OREGONIAN to endeavor to secure one or more campaign subscribers to it. Semi-Weekly, to November 15, 1888, 75 cents; Daily \$1.25.

st Oregonian  
RDAY, JULY 28, 1888.  
Oregonian Branch Office.  
The three tramps arrested yesterday, after being confined in jail, at once began to look around to see what they could steal, true to their nature. Seeing R. M. Tweedy, a half-crazy inmate of the establishment, the idea struck them that he would be a good subject for thievery, and it was at once put in practice. He was stripped of nearly all his clothing by the vags, but the robbery was discovered by Tweedy's relatives, who came in to visit him, and his wardrobe was restored by the jailer at their discovery and complaint.  
Tink French and Al Despain have returned from their extended hunting, fishing and mining trip to the Greenhorn mountains, the balance of the party stopping at Teel springs on the return trip, not yet being surfeited with mountain life and its pleasures. The boys created quite a sensation on riding into town looking like a couple of desperadoes with their mustangs and pistols. They very naturally report a fine time in the rugged mountains, "far off from the madding crowd."  
A prominent young man went to a hotel in Pendleton the other evening to engage a bed. He also asked for a sheet of paper on which to write a letter. He happened to be unknown to the night-clerk, and was refused both without a "put up" in advance. The fact that he was suspected of being a dead-beat naturally aroused his anger, and he departed in high dudgeon for another hotel. Whether the joke is on the young man or the night-clerk still remains in doubt.  
Five soldiers from the Walla Walla garrison came in on the train yesterday evening, and left on the west-bound passenger train for Vancouver, W. T. They are men picked from each company at Walla Walla for superior marksmanship, and will contest in Vancouver with the pick of several regiments on the coast and in Arizona. After the contest, the four best marksmen will be selected and sent to Fort Niagara, to take part in a national contest.  
The upper Columbia river is to be navigated. Steamers are already on the river, and on a trial trip the steamer City of Ellensburg went from Port Eaton to the Okanogan river and up that stream ten miles, and returned, making the round trip in thirty-three hours. The country opened up by this new steamboat line is a magnificent one, rich in both agricultural and mineral resources.  
It is stated by the Oregon Blade that the Stars were defeated in their game at Baker City with the picked nines, composed of Boise, North Powder and La Grande nines. This is a strange mistake on the part of the Blade, and will be deemed intentional unless a correction is made. The Stars won every game in which they contested.  
Oscar Cran is on the programme for to-day's game between the Portlands and Willamettes at Portland, as catcher for the former club. A report of the game and his work behind the bat will be looked for anxiously in Sunday's Oregonian by his Pendleton admirers.  
J. F. Robinson has returned from Meacham, to remain in Pendleton to-day and to-morrow. He has not yet obtained his fill of the pleasures of mountain life, and will again depart for the shades of the pines on Monday next.  
As soon as ground are obtained, a stock company formed, and everything satisfactorily arranged, the Stars will challenge the Colfax nine, which appears to be so awfully anxious to cross bats with the Pendleton boys.  
Centerville Home Press: The Pendleton Stars have just cause to feel proud over their victory at the baseball tournament held in Baker City last week. They were given a grand reception when they returned Sunday night.  
Mr. A. H. Barker, who has been visiting relatives here, together with his two daughters, was compelled to return to his home in Albany last evening, having received word that his immediate presence was necessary.  
Robert Henderson, of Silver City, Idaho, blew out the gas in a Chicago hotel several nights ago, and when found was barely alive. It is thought he will recover, although it is a "close shave."  
Another "advance brigade" of Sells Bros. circus passed through town yesterday. It looks like the circus was composed entirely of "advance brigades," so frequent are their visits.  
George D. Riehl, of Camas prairie, has been granted a pension of \$8 per month with about \$150 back pay. Mr. Riehl is one of the veterans of the Mexican war.  
Drs. Egan and Vincent visited Sam Hays yesterday, and report that he is doing splendidly, and is getting well very rapidly for a man with a badly broken leg.  
Mr. J. J. Worcester and wife will leave on to-night's train for Cayuse, to spend another Sunday on a search for the "speckled beauties" of the Umatilla.  
Charles Wilkins is engaged to-day in removing his family and belongings to his new residence on the hill south of town.  
B. Coffey, Indian Agent, has a notice under "New To-day" of interest to persons gunning and fishing on the reservation.  
His Grace, Archbishop Gross, will lecture in the Catholic church to-morrow at 10:30 A. M.  
It is now the dulllest season of the year in the clerk's office.  
W. S. Ford, the genial landlord of La Grande, is in town.  
The Harvester on Its Travels.  
The combined harvester left Friday afternoon for Temple's farm. Its trip through the streets was a sort of triumphal parade, a large number of spectators witnessing its lumbering motions. Six horses were all that were necessary to haul the machine to the farm, although twenty are necessary to its complete operation in the harvest field. Its peculiar appearance struck terror to the hearts of horses, and a couple of the animals tied to the hitching-rack on Alta street, got excited and twisted the tongue of the buggy to which they were attached. Before leaving, the huge machine was photographed. Its trip across the Main street bridge was a severe trial to that structure.  
NOT A GOOD MECHANIC.  
Mathew Herron Would Have Been Given Work if He Had Been a Capable Mechanic.  
PENDLETON, July 26, 1888.  
To the Editor of the East Oregonian.  
In response to the article published in your paper of Thursday, I will take pleasure in explaining the matter to your readers. I can say you have been misinformed concerning the matter. You and the general public know the French mechanics, and know them to be free and liberal men, far above small actions. They never boycott any one, no matter who they are. It takes masons who know their trade to work with them. If we need stone masons we can get them every day in Pendleton, as good workmen, or better, than Mathew Herron, but they are not capable of doing the work required of them. I wish you would get Mr. Herron a job if you can.  
FRANK ROUMAGOUX.  
Hotel Arrivals.  
VILLARD HOUSE—W C Calhoun, Centerville; C W Ransier, J J Scheimer, F W Bussey, H M Parkhurst, G H English, J Sailer, J Garrigan, advance brigade No. 2, Sells Bros; T H Walsh, W S Ford and wife, La Grande; W C Starr, San Francisco; Geo H Sautbert, Salem; R P Elliott, St Paul; J F Clark, Denver; Wm Muskelyne, Baker City; Thos H Cox, Island City; J B Keeney, Joe Garrett, city; C M Campbell, O R & N Co; J B Benefield, Santa Monica, Cal; J E North, O & W T R R Co; F A Frischkorn, R C Bralby, C Pontius, Harvey Harris, Julius Heilbromell, Portland; Geo Castello, McMahon's circus.  
GOLDEN RULE—S B Crandle, city; Frank Hanna, D Murphy, Cold Spring; E Campbell, C Hardwick, city; Mrs Latimer, A Hodson, Nye; A B Renuick, Juniper; W N Wilson, Long Creek; J B Ogg and brother, Nolin; Frank Williams, Mountain; M Wild, wife and mother, country; T Seragg, W Brown and family, Montana.  
BOWMAN HOUSE—E F Brunet, Duluth, Minn; Miss Sullivan, Mrs Calmbach, La Grande; M I Mallory, Walla Walla; C H White, LaGrande; Wm Robinson, Arlington; Mrs C W Gates, Baker City; J E Mills and family, Kingsville, Mo; Miss Lebanon, Kansas; Jesse Grimes, L M Brown, C Gerald, H C Muff, Trinidad, Cal; Pat Carroll, Charlie Shafer, Aspen; August Fessel, Joe Black, Fairplay; C F Grieve, R E Hilton, James East, Denver; Wm McFall, Carthage, Mo; A McDonald, W J Gilliam, Denver; D McDonald, A Campbell, Peter Welch, E G Townsend, Collins, LaGrande; J E Beam, Weston; C H Naffaire, Baker City; C W Shank, J Melquist, The Dalles.  
"Second to Baker City."  
The Baker City Democrat man is possessed with extraordinary powers. He thinks Baker City comes first; Pendleton second, of the towns of Eastern Oregon. The EAST OREGONIAN of course differs with the Democrat man, but is willing to admit that it is in a position to be prejudiced; so is the Democrat man, but is willing to leave it to the record of both places and the progress each has made in the last five years. The Democrat enthusiast speaks as follows of Pendleton and Baker.  
"The last issue of the EAST OREGONIAN was brimming with good cheer over the news that Pendleton within a few weeks would become the end of a division of the Wallula branch railroad; also, central division of the O. R. & N. system. We are glad of Pendleton's good fortune, and hope she will reap every benefit possible. Pendleton is a live, progressive town, second only to Baker City in all the great Inland Empire, and is destined to be a large city some day. By the way, speaking of this division question, it is now strongly hinted that Baker City is properly situated to become the end of a division, and it is very probable they may conclude to make it so within the next few months."
