Everybody at Teel Springs Happy. Mr. Henry Bowman returned to-day from Warm Spring Prairie and Teel Springs. He has been overlooking and arranging his herds of stock, and visiting the Springs. He reports the mountain range excellent, and stock all fat.

At the Springs are about 175 visitors, all hugely enjoying themselves. They hunt, fish, bathe, dance and amuse themselves to their heart's content. They have a fine bathing place, and bathe in regular seaside fashion. There is a splendid dance-hall and billiard-hall, but no strong drink is sold.

Lehman's store is well patronized, and the camp is well supplied with vegetables and all necessities. Billy Bowman supplies the camp with fresh milk. Board, lodging and bathing cost only about \$7.50 per week, and pasture \$1.50 a week. All the camp seems as one happy family, without a sign of contentment or disturbance. Mr. Bowman will return in a few days.

The Drummer Boy of the Rappahannock. Major Hendershott the "drummer boy of the Rappahannock" has stopped over in Pendleton a day or two to look after property interests here, being on his way to Columbus, Ohio. On his arrival there, he will enter into the Presidential fight with vigor, waving the "protection" banner of Harrison and Merton. He will return to Oregon in November to cast his ballot for the Republican ticket, and will then make a tour of the East, giving exhibitions of his wonderful skill as a drummer, which occupation he has found both pleasant and profitable. The Major has made his home in Ashland, Ore., and is very enthusiastic in his praise as a beautiful residence point. He says that Ashland and Pendleton are his choice of all the interior towns of Oregon in the way of business enterprise and other advantages.

PORTLAND LETTER.

Booming Portland—New Blood Making a Change in the Metropolis—The Narrow Gauge—The Rich Go to the Seaside, the Poor Stay at Home—A Phenomenon—Gamblers Discomfited.

Portland, July 30. "1860" (que una signaturax) calls me a "Portland boomer." If he knew how small my interest is in Portland, he would think differently, but notwithstanding, I think Portland is destined to be a large city, and I cannot understand why the interior is so prejudiced against the city, for what is to the interest of one is to the interest of the other.

Do not understand me to be particularly gone on Portland, for I am not; her people are too selfish, especially those who have been here for the last twenty-five years, and before there was any communication with the outside world, with the exception of steamers from San Francisco. A great many of those people are jealous of those who came here with money, and those who came with none they wonder what they came for.

The wealthy men of the East are sending their sons out here, knowing Portland is a grand opening for a young man with capital. I know of one instance where an Eastern man bought property, costing \$90,000, and started his son in business.

The Portland & Willamette Valley Narrow Gauge railroad now comes in to the foot of Jefferson street, where their terminal buildings are located. They have better facilities for handling freight, and better accommodations for passengers than all the other roads together.

Every one who has money enough has gone to the seaside, and some have gone who did not have an over-supply, and left all the poor who have not any, to fight it out with the sun, which beams down upon them amidst dusty streets and brick blocks.

The city is wild over the blackmailing case, which came to light the other day. It is the general topic of conversation on the streets, and makes the daily papers eagerly sought after. Where this will end I cannot at present say, but if you are to believe the many rumors that are floating around, something more serious may yet come out of it than some people think.

There is not much doing in the way of politics; neither party seems to be making any efforts to start the canvass. I guess it is too warm on the outside to get warmed up on politics yet.

It has always been a mystery to me why a man, immediately after taking a drink of any kind of spirituous liquor, raises his hat and sets it a little further forward on his head. I was standing on the corner of the street the other evening with a friend when three men came along and went into a saloon. I said to my friend: "You notice when these men come out, if they do as soon as they have drunk, and you will see each one of them lift his hat and set it a little of them forward on his head?"

THE GREAT SHOW.

Sells Brothers' Hippodrome, Managerial and Circus Announced as Coming.

After a weary interval we are to have with us once more a tented exhibition in every way worthy of patronage, and one which possesses the rare merit of giving more than value received in return for money invested in admissions.

The above electrolyte is an excellent representation of young Harry Bogardus, the 12-year-old son of Captain Bogardus, the phenomenal marks-man, who is now giving exhibitions of his remarkable skill with the rifle and shotgun at Keith's New Gaiety Museum.

Yesterday afternoon, about three o'clock, Pendleton people were treated to an out-door tight-rope performance by the Davison Brothers.

Another Baseball Letter. The following letter was received by the manager of the Pendleton Baseball Association a short time ago.

WILLARD, UTAH, July 31, 1888. Manager Baseball Club, Pendleton. Sir—We, the Willard Baseball Club, desire taking a trip to your city to have a series of baseball games, providing satisfactory arrangements can be made.

Misplaced Confidence. Circus men unquestionably are born sharpers. It has just been learned that Frank Arnold, proprietor of the saloon next the Masonic restaurant, was the victim of misplaced confidence in two members of McMahon's outfit.
