

Oregonian Branch Office. Office of the EAST OREGONIAN has been moved to the second floor, under the name of H. H. Bloslock.

RECEIPTS.

Photographers. Whittaker, dentist. At once, a dining room girl at restaurant. Several new coons in town, one of which was found to be of genuine negro minstrel.

A telegram was received at Colfax by T. H. McIntosh, passenger conductor on the Farmington branch, stating that a collision occurred between two freights yesterday on the Northern Pacific.

Another baseball item. The Cyclones and Atlas of Pendleton, of the junior class, will play next Sunday for \$10 a side, put up by the outside backers.

Now and then complaint is made of the cheek and aggressiveness of young hoodlums, who carry on their sports along Main street at unseasonable hours during the night, when youngsters are supposed to be in bed.

E. R. Parkes left this morning with an outfit of carpenters for this end of the line on the "Pendleton branch" of Hunt's railroad, for the purpose of building a wheat platform for Pendleton parties.

The cylinder of the pump-house engine, which is claimed by the engineers, has been cut up and worn out by pumping muddy water, will soon be taken to the machine shops to be bored out and otherwise repaired.

T. H. Bond had his examination yesterday before Commissioner Tustin, and was bound over in the sum of \$300 to appear before the grand jury, Mr. Tustin having received instructions from District Attorney McArthur stating that the evidence produced was sufficient to hold Bond on the complaint.

Journalistic enterprises which are started to fill "long-felt wants" don't always pay. The Wallula Inland Empire has suspended publication, simply because its office material, from the press down to the editor's paste pot and scissors, was sold to satisfy a judgment, the creditor bidding in the outfit.

Rails have now been laid twenty-eight miles east of Albany on the Oregon Pacific. The contract has been let for building the tunnel, which will be worked during the winter. It is thought that fifty miles of rail will be laid down east of Albany before the work ceases.

The cigar made by the Pendleton manufacturer is, to all intents and purposes, equal to imported, as their stock used is exactly the same as composes a bag-up imported cigar. Unfilled orders on hand amounting to \$500 is sufficient evidence of the popularity of their cigars.

From a letter received to-day by Deputy Sheriff Joe McCoy it is learned that Al Stifle, sheriff of Asotin county, is resting easy, although blood poison in the wound is feared. All trace has been lost of William Williamson, the despicable criminal who did the shooting.

The Presidential fight in this section is extremely tame. No enthusiasm of any kind, no torch-light processions, blazing bonfires, and brass band campaigning have as yet marked its progress. Even the everlasting "political pot" has failed to boil.

The "steeples" just completed on the front of the new Pendleton hotel are really very ornamental and imposing. It is suggested, however, that they be braced, as they offer a fair target for Eastern Oregon's famous winds.

County Treasurer Robbins has made another scrip call, amounting to some \$2000, to-day. Umatilla county is now very solid financially, and these repeated calls are gradually diminishing what little debt remains unpaid.

Bessie Louise King, the one-time famous songstress who once visited Pendleton with a minstrel troupe, is said to have lost her voice from the effects of drinking intoxicants, and now occupies a subordinate position.

Holiday is the name of an Indian living on the Umatilla reservation. Being one of the nation's wards, he may be said to be a National Holiday. Of course he has grown used to being observed.

Gold in paying quantities was found on Main street in Helena, Montana, by workmen who were excavating for a sewer, causing considerable excitement among the town's citizens.

Robberies are numerous in Walla Walla, a "hold-up" occurring quite frequently. Pendleton is rather lucky in this regard, although tough characters are plentiful enough.

The rounders, who, according to the Union, have been as thick and doubtless as pestiferous as flies in Walla Walla during the fair, are thinning out.

Frank Ladow was expected home on last night's train, but for some reason failed to arrive. He will probably set foot in Pendleton to-night.

Eight carloads of windmills were taken up on the Farmington branch to-day, for the use of the O. R. & N. Co. at its many stations.

P. G. Wild, the express messenger who was transferred to the Portland office, has been ordered back to Walla Walla.

It Might Have Proved Disastrous. Three or four boys constituted themselves into an amateur fire department with considerable success this morning on Nob Hill. A fire which had caught around one of the chimneys of Mr. Turner's residence and bid fair to be somewhat dangerous, was noticed first by the youngsters, who rustled around, got the hose, and soon had the flames quelled in their incipency, assisted by Mr. Turner, who only discovered what was up when the kids had a stream of water playing on his dwelling. Only a few seconds more and the whole house would have been ablaze, but the prompt action of the boys disappointed the fire send.

ANOTHER PLAN.

An Argument in Favor of Bringing the Railroad Down Near the Levee.

PENDLETON, Or., Oct. 10. To the Editor of the East Oregonian.

In talking with a number of property owners, and after a careful consideration of the matter of a suitable right of way for Hunt's railroad, I would offer the following suggestions, believing they will meet with the approval of a majority of the property owners. In view of the great danger of accidents in crossing numerous streets, and as a perfect safeguard against injury to property, I would recommend that Mr. Hunt be given a right of way along the inside of the levee. This property is owned by comparatively few people, none of whom are using the ground, and in most cases a right of way would undoubtedly be given free, and injure no one, until it reaches the Bailey property, corner of Cottonwood and Water streets, which block would have to be purchased in order to give a curve outlet to Water and Main streets, the road to run thence along Water street, between Failing's and the new hotel, and out to the end of the gravel bar facing Court street, where Mrs. Dickerson would sell a block and a-half, suitable for depot grounds, cheap, and if more room was needed, the property adjoining her on either side could be bought for a reasonable figure. I own property along this route, and am ready and willing to give right of way, and hope every other holder will do the same, and realizing the situation, lend a helping hand in the furtherance of the project. With the right of way, depot grounds, and \$30,000 bonus, Mr. Hunt will no doubt be willing to make his own road bed, and build such bridges and trestles as are necessary, also keep a watchman at the crossing of Main street, thus avoiding any possibility of accidents from approaching trains. I have been a resident of Pendleton for seven years, taking part in its advancement, and am thoroughly satisfied that this road will be of vast benefit to the town. The subsidy alone will repay itself within a short time. Without this road the sale of the reservation, and the long-sought manufacturing enterprises, would fall flat and prove of slight benefit to the town, but with it every encouragement in the way of through Eastern competing lines will tend to lessen freight rates, increase travel, and build up our city to at least double its present size within four years, thus offering greater inducements to capital. I do not approve of running the line along any of our principal streets, and as Mr. Hunt says the levee is too narrow and a few of its curves too abrupt for his road bed, I think he will be satisfied with the route and depot grounds. We need the road, and as its building will employ a large force of men for a period of about eight months, the natural result will be that Pendleton will supply these men with goods, thus giving a large trade to our merchants, and the road, once completed, will certainly employ a large number of men at this end, who will make their homes here. The actual cost will not exceed \$40,000. The right of way and grounds would have to be paid for at once, but I would recommend the first payment be made to Mr. Hunt on completion of the road, the others in one and two years following, at six per cent interest, according to his proposition. Now is the time to secure the road, and it will need a combined effort by all concerned. The road once here will enable us to keep our lead as the best town in the Inland Empire, both for business and general prosperity.

FRANK DUPRAT.

Yellowstone Park in October.

The Northern Pacific railroad in connection with the Yellowstone Park association have arranged to furnish transportation and hotel accommodations throughout the park during October at greatly reduced rates. Passenger trains will make the round trip, from Livingston to Cinnibar and return, on Tuesdays, Thursdays and Saturdays, and a five days' trip from Cinnibar to the principal points of interest in the park can be made at an expense of not to exceed thirty dollars. The rail rate from St. Paul, Minneapolis, Duluth or Ashland on the east, and Portland and Tacoma on the west, to Cinnibar and return, will be \$50, and from intermediate points one and one-fifth fares, but not to exceed \$50. Tickets will be on sale up to and including October 25th. Parties going into the park should call on C. S. Hepperlin, agent for the Northern Pacific railroad, immediately on arrival at Livingston. For full particulars inquire of your nearest agent, or A. D. Charlton, assistant general passenger agent, Portland, Oregon.

Mechanics' Fair.

The tenth annual exhibition of the Portland Mechanics' Fair opens October 4th and closes October 27th, 1888. Large additions have been made to the Pavilion, and it is the intention of the management that the fair of this season shall be the greatest of the Pacific Northwest. The Second U. S. Cavalry Band, the best on the Coast has been secured to furnish music. Half fare rates over the O. R. & N. Co., O. & C. R. R. and Oregonian Railway Companies' lines have been secured. One and one-fifth fare over the N. P. R. Co.'s lines. Special Excursions over the O. R. & N. Co.'s lines at less than half rates from October 8th, 15th and 22d. If further information is desired address A. S. Whiting, Supt., Portland, Ogn.

W. C. T. U.

The members of the W. C. T. U. and the Y. W. C. T. U. are requested to meet at the Baptist Church Friday evening, at 7:30 o'clock, to discuss matters of importance to both Unions. A large attendance requested. Tell the members about it.

Why do savings bank deposits increase 14 per cent. a year, 1846-60, under low tariff, and only 8 per cent. a year, 1860-88, under high tariff?

The Baker City Democrat complains of the apathy and indifference of the town's citizens on the mining question.

Rolly Bolley, a Walla Walla racer, has been sold to a Spokane Falls man for \$500.

OVERWHELMING PROOF.

Of the Superiority of Electricity in the Cure of Diseases by Drs. Darrin—Who Can Doubt When so Many of Our Citizens Testify?

So much has been said in praise of Drs. Darrin and their new method of cure by electro-magnetic treatment, that it seems useless to add further proof. Still, we had occasion to meet the most of the following named people, and from their own lips find their cures to be genuine, and that no exaggeration of their cases occur.

In the main Drs. Darrin use electricity and animal magnetism, applied or imparted by their own hands to the diseased by rubbing or manipulations. They do not, however, rely wholly upon this, as they use medicine in special cases. Some people who have not received treatment pronounce them great humbugs, while hundreds of others speak of them in terms of the highest praise. What physicians are there of any note or practice, against whom there will be no such denunciations? Drs. Darrin do not pretend, not can they cure everything and everybody that comes; but we know that multitudes have been greatly benefited or permanently cured by their treatment. The fact that their offices are crowded the greater part of the time, and that so few go away dissatisfied, is pretty good evidence of their success. We would not knowingly puff up a fraud, either as a physician or otherwise, but facts seen with your own eyes cannot be controverted.

A Loathsome Cataract Cured.

Dr. Darrin, Dear Sir—July 3 I came to you for treatment for a disagreeable case of cataract of seven years standing. My head and throat was thoroughly diseased, and it had deranged my stomach and bronchial tubes to that degree that I was partially incapacitated to do my work. Many things in the way of patent medicines I had tried to no avail. You cured me in two months with home treatment, and I do not begrudge the \$60 I paid you. Refer people to me, at Salem, Oregon. E. ANDERSON.

Card From Mr. Hesse.

Mr. Editor, Sir—For two years prior to calling on Dr. Darrin I had been seriously afflicted with liver and kidney complaint dizziness and pains all over my system. I was almost wholly unable to attend to my work as farmer, and was dragging out a miserable existence, until coming under Dr. Darrin's electro-magnetic treatment. Now I am able to work and I feel like a new man. I reside eight miles west of Fulton, Or., and that is my postoffice; can be referred to. C. HESSE.

Could Not Rise from His Chair.

Dr. Darrin, Sir—I am one of the lucky ones cured by you of a pain in my back of four years' standing. At times I could not move or raise from my chair. Can be seen at Seaton, W. T. A. JACKSON.

More Cures by Drs. Darrin.

Mrs. M. Rebe, 143 1/2 Water street, Portland—Pimples and blotches on the face for years, pains in the back and womb troubles cured.

Mrs. W. H. Austin, The Dalles, Oregon—Confined to her room nine months with an eye affliction, called "nervous abhorrence of light," accompanied with inflammation, cured.

Rev. M. M. Bashor, Brooks, Oregon—Nasal and throat catarrh, cured.

W. F. Ogle, Seaton, W. T.—Liver and kidney complaint and dyspepsia, also deafness and whole system run down, cured.

Wm. Allnow, Drewsey, Grant county, Or.—Catarthal deafness and ringing in the ears for 20 years, perfectly cured.

Wesley Graves, formerly proprietor of the Chemeketa hotel, Salem, Oregon, now residing at Gervais, Or.—cured of sciatic rheumatism and the opium habit.

C. McLaughlin, corner of Nineteenth and Jefferson streets, Portland—Catarthal deafness, could scarcely hear a sound or the car bells and was in constant fear of being run over by wagons, cured so he can hear ordinary conversation.

Robt. Hardy, Etna, W. T.—Weak eyes cured.

Mrs. S. A. Wooden's girl, 94 Fifth street, Portland—Nervous debility and malaria fever and discharging ear, restored.

Leopold Dietzson, Twenty-second and A streets, East Portland—Serofulous lumps on the neck and head, cured.

J. W. Zumwalt, Albany, Oregon—Rheumatism, spinal complaint, chills and malaria, restored.

Alfred Lethor, Tillamook, Oregon—discharging ears, cured.

Mrs. N. P. Briggs, Corvallis, Oregon, rejoices in a permanent cure of paralysis, malaria, liver and stomach troubles. This cure was performed one year ago by Drs. Darrin.

J. F. Peebler, Adams, Or., deafness seven years, restored.

Mrs. E. A. Allif, 160 North Fourteenth street, Portland, painful menstruation, ten years womb trouble in every conceivable way; cured six months ago. Also, her husband was cured of a cross eye in one minute.

J. S. Ryckman, Knappa, Or., skin disease and a loathsome catarrh; cured.

C. W. Scott, 271 Fifth street, Portland, rheumatism cured.

Adolf Authanson, quartermaster steamer (George W. Elder, deafness cured.

DOCTORS' TERMS OF TREATMENT.

Drs. Darrin can be consulted free at the Stine House, corner Fourth and Main, Walla Walla, W. T., and will under no circumstances take a case that they are positive that they cannot cure or benefit. Charges are reasonable, and the poor treated free from 9 to 10 a. m., Tuesdays and Saturdays. Office hours from 10 to 4 daily; evenings, 7 to 8; Sundays, 10 to 12. All curable chronic diseases—loss of manhood, blood taints, syphilis, gleet, gonorrhoea, stricture, spermatorrhoea, seminal weakness or loss of desire or sexual power in man or woman, catarrh and deafness are confidentially and successfully treated. Most cases can receive home treatment after a visit to the doctors' office. Inquiries answered and circulars sent free. [The Drs. Darrin also have a branch office at 235 Fifth street, Portland, Or., where any in that vicinity can consult them.]

AH, THERE!

Ye Grocery-buying public, are you aware that

Family Groceries

can be purchased at W. C. TILTON'S

STAR BAKERY

Cheaper for cash than at any other place in Pendleton?

Absolutely a Fact!

And a visit to the Star Bakery will doubly prove it to you.
