1,000 bushels. This is equal to 73 cents
per bushel.

The Supreme court at Salem the
national College case, recently de-
cided in favor of the directors of the
college, has been reversed, and the case
sent to the court below, with direc-
tion to overrule the decision to the court,
and for such other proceedings as
may seem proper.

About 9 o'clock on the 22d, the body
of a man was found on the track in front
of the depot at Arlington. Upon ex-
amination he was found to be dead. The
neck and left arm were broken. It is
supposed the man was under the influ-
ence of liquor, and while attempting to
board an extra freight going West, fell
from the cars and was killed. His name
and residence are unknown.

A very large shin bone or tibia of a
mammoth was received by the museum
of the Willamette University one day last
week from J. S. Hunt, Bliss, Idaho. It
is 29 inches long, 13 inches around the
smallest part of the shaft and 26 inches
around the end forming the knee joint.
It must have belonged to a very large
as well as a very ancient resident and
was found in an excavation made for a mine.

Mr. Buckhart, Weston's shoemaker,
was released Saturday from the county
jail, and sent back home, his lost reason
being fully restored after a short separa-
tion from liquor. He expressed his thanks
to the county officials for taking care of
him, and in all respects showed that he
was a gentleman, although so far forget-
ting himself as to indulge too freely in
election liquor.

The Pendleton hotel is now receiving
its finishing touches. It is a beautiful
building, and one which would credit
to a city like Portland, which can boast
of few finer buildings than this same
Pendleton hotel. Contractor Zeigler is to
be congratulated on the rapidity and suc-
cess with which he has so far conducted
its construction.

John Lucas was forbidden to move his
little building on Main street to a line
with its companions, because of the fire
ordinance, but he has proven equal to the
emergency. He has caused the interven-
ing space to be covered with a plank
floor, so that the building can be used as
a business stand in defiance of ordi-
nances. Here is enterprise for you.

Dr. F. C. Campbell has removed and
fitted up an elegant office in a building
on Main street, near the old postoffice,
and is there prepared to do all classes of
dentistry in his well-known, scientific
manner, and at Eastern rates. All those
in need of dentist work cannot do better
than by giving him a call.

Brother Eddy, who returned on last
night's train from one of his Portland
trips, remarks that there is not half the
scare in Portland over smallpox that
there is in Pendleton to-day. He only
saw two yellow flags while in the met-
ropolis, one of which was flying in the
Chinese quarters.

handsome new residences, several being
now in course of erection.

FEMALE JAIL-BIRDS.

Sheriff Bowles visits prison with a Reques-
tion for Two Women Prisoners.

Sheriff Bowles was over from Walla
Walla Saturday on his way to Union with
a requisition for the two women prisoners
confined in the county jail at that place.
On two previous occasions an officer vis-
ited Union without the proper warrant
for the same purpose, but the obstinate
females refused to leave, and a requisition
became necessary. As it was, Walla
Walla county's worthy sheriff only re-
turned with one of the prisoners, Mrs.
Hale, the other, Mrs. Kicks, being con-
fined to her bed with sickness and un-
able to bear removal.

The two were wanted for the murder of
Charles Summerville in Seattle some
time ago, the husband of Mrs. Kicks.
The deceased was supposed at the time
to have swallowed poison, but subse-
quent events threw a different light on
the question. The then Mrs. Summerville
wanted her husband out of the way
in order that she might have a clear field
to marry her present husband, Kicks,
who is now confined in the jail at Walla
Walla. So Mrs. Summerville, her sister,
Mrs. Hale, and the fellow Kicks con-
cocted a plan for murdering Summerville
by poison. The exact details are unob-
tainable, but it is learned that by some
means they induced their victim to pur-
chase the poison himself, so that the sui-
cide idea would work to advantage.
Subsequently, however, suspicion
leaked out, with the result that the
wretched trio were arrested as above.

The two women have been confined in
the Union jail for over a month, where
they were arrested on a telegraphic war-
rant from Sheriff Bowles. It is thought
by those who ought to know that a strong
case will be presented against the three
prisoners, and that their guilt will be
fully proven by the evidence that can al-
ready be brought to bear.

An Old Miner Returned.
Charles Barnhart, an old resident of
this section and a gentleman who has
spent an active life in mining ventures,
has returned from the Camp Carson
placer mining district, where he has been
engaged all summer working as only a
miner can. Camp Carson is situated not
many miles as the crow flies from La
Grande, but is fifty miles from that point
by wagon road and eighty miles from
Pendleton. The latter route is said by
Mr. Barnhart to be preferable, and the
trade of that section would divert to
Pendleton should the road be put in an
improved condition. Mr. Barnhart says
that the Camp Carson section comprises
quite an area of auriferous soil, and the
diggings could be made greatly profitable
were water plentiful. He has been en-
gaged in constructing a water circuit on
his claim, which he says will take a year
or two of hard labor to finish. When
completed, he hopes to make an inde-
pendent living and fortune in digging and
washing gold-dust and nuggets from the
sandy soil. Mr. Barnhart avers that no
one but a capitalist has any business
monkeying with a quartz ledge of what-
ever richness, and he therefore takes his
chances of a placer, in the operation of
which so many fortunes were made in
the halcyon days of California. As his
whole life has been one round of expe-
rience in mining, Mr. Barnhart's words
have considerable weight.

What They Want.
Correspondence Milton Eagle.
We feel just like we would like to ex-
periment with a county government of
our own, one in which we can have a
voice in saying who shall represent our
interests in the Legislature. Pendleton
has been dictator long enough; we want
a Republican form of government. A few
of us farmers got together a few days ago
and after discussing all the pros
and cons of this division question re-
solved something like this: First, that
we need division of the county, and need
it badly. Second, that we are going to
do all in our power to obtain the same
and work day and night from now until
the forty days session shall have ended
to accomplish it. Third, the lines as pro-
posed by the Crockett bill suit the majority
of the taxpayers within the proposed new
county and will suit us. Fourth, that
though there were nine Democrats and
seven Republicans at our meeting, the
proposition to call the new county "Har-
rison" carried with only one dissenting
vote. The dissenter said Wager would
kick at the name. Fifth, that we thought
while Wager was kicking at the name the
bill would be rushed through. Sixth,
that we stand by the Eagle in its endeav-
ors to procure relief to East Umatilla.

Ballroom Activity.
A. F. Parker writes as follows from
Lewiston, Idaho: There is great activity
here in the way of railroad surveys. The
O. R. & N. and Northern Pacific both
have parties surveying from Lewiston to
the great Camas Prairie country, sixty
miles southeast. The Northern Pa-
cific route will connect with the
Spokane & Palouse at Genesee, run down
Potlatch creek to Clearwater, thence to
Lewiston, thence up Snake river to Asso-
tation, thence up the Tannary to Wahs, and
over Craig's mountains to Camas Prairie.
The O. R. & N. route is from Lewiston
up the Clearwater to Lawyer's canyon,
thence to the prairie. I have definite in-
formation that the O. R. & N. will event-
ually connect with the Manitoba system,
building from Riparia up the Snake and
Clearwater, over the Bitter Root divide
to Manitoba, Canada, through Butte,
thus making another and shorter trans-
continental road between Portland and
the East, and traversing and opening the
great Clearwater basin, the most produc-
tive scope of country in the entire moun-
tain region. Its agricultural, pasturage,
mineral and timber resources are un-
excelled.

Thanksgiving Concert.
The Thanksgiving Concert given last
evening at the Congregational church
was well attended, a large audience being
present. A pleasant program was ren-
dered, notwithstanding the sudden ill-
ness of the pastor, the Rev. Mr. Lee,
who was unable to take part. The ex-
ercises opened with an essay on Thank-
sgiving given by Miss Lucas, the remainder
of giving by Miss Lucas, the remainder
of the program consisting of songs, inter-
spersed with recitations and readings,
class exercises by Classes Nos. 1 and 2,
composed of little boys and girls, who
acquitted themselves well.

A Compulsory Marriage.
Alexander Foster, of Whitman county,
W. T., and Sarah E. Edwards, of Wasco,
Oregon, were married at his office
last Saturday by Justice Bishop.
It was a case of romance in high life. The
couple had run away from home and
came to Pendleton, but were followed by
relatives of the bride, who compelled Fos-
ter to marry the girl, to which fate he
submitted gracefully. The ceremony was
therefore performed to the satisfaction of
all concerned, and what might have ended
in misery was turned to probable happi-
ness by the prompt action of the bride's
relatives. Both the bride and bridegroom
showed traces of the presence of consid-
erable Indian blood in their veins, and are
probably what the unsympathetic world
would style half-breeds.

More About the Change.
The change of time will take place next
Sunday. By the provisions of the new
time-card then to be issued, the west-
bound and Farmington passengers will
arrive a little after five in the evening.
The east-bound passenger will come in at
about eight in the morning, and the
Farmington train will depart shortly af-
ter its arrival. It is probable that pas-
sengers on both the east and west-bound
and the Farmington trains will stop here
for their meals, those on the west-bound
and Farmington No. 5 being served with
supplies as usual, and those on the east-
bound with their breakfast. In this event,
the change will work considerable of a
benefit to the town.

Officers Elected.
At a meeting of the local stockholders
of the American Building & Loan Asso-
ciation of Minneapolis, Saturday evening,
at the court house, held with a view to ef-
fecting a permanent organization, the fol-
lowing officers were elected, all of them
unanimously: Directors, W. D. Fletcher,
W. S. Byers, J. N. Nickerson, J. M. Lee-
ser, E. E. Sharon; President, W. S.
Byers; Secretary, E. E. Sharon; Treasur-
er, S. P. Sturgis; Attorney, H. J. Bean;
Appraiser, J. M. Leoser. The shares
sold in Pendleton amounted to \$480.
Some few subscribers for stock withdrew
their subscriptions before the final organ-
ization, and their money was refunded.

The Hotel of Salem.
The Chemekete Hotel at Salem has
lately come under the management of
C. H. Monroe and J. R. N. Bell and has
furnished and thoroughly changed from
top to bottom. The building having been
entirely rebuilt and the lobby and rooms
overhauled and put in first class order
for the coming season of the lightness.
The price of accommodation will average
from 50 to 75 per week according to
room and location. The patronage of
the public is solicited.
