Raging Real Estate Boom-The Romantic Story of an Indian Woman-Robbed the Store.

PORTLEND, Feb. 13.—Yesterday a man named Burns, an employe of the Willemette Falls Electric Company, was killed near Oswego by a falling tree. He came here recently from Kansas, where he has relatives. The remains were taken to Oregon City last night for inter-

Everybody seems to have gone wild on real estate. Nine months ago a piece of land containing 180 acres was sold for \$40,000. Not long since a quarter interest was sold for \$11,000, and a few days ago the same quarter was sold for \$21,-000, and another quarter for a little more than \$21,000. At this rate what will the

Mrs. Therese Alice Fisher, an unfortunate German woman, was taken to the police station from a house near Sherman street in this city yesterday. It was evident from the striped bodice of the woman's dress that she had escaped from some insane asylum, and this was found to be the case from the woman's own confession. She could talk very little English, and the reporter, in her own tongue, elicited the following: She and her father had formerly lived on a farm in Minnesota, but sold out everything they had and came West. They had about \$7,000 in cash, and she sewed \$700 of this up in a quilt, \$1300 she had put into a lard pail and poured lard over it, and the balance she sewed in her clothes and carried loose on her person. She says that after a few days she discovered that the people on the train were after her money, and that she gave them what loose change she had, but finally concluded to jump off the train, which she did near Pasco, W. T. When the officers at that time tried to capture her, she struck one of them with a little penknife, as she says, only to protect herself, and the officer took that as a pretext to take her to the insane asylum at Steilacoom, from which place she escaped by jumping from a window. On being asked if she had not been dressed in Steilacoom, from which place she escaped by jumping from a window. On being asked if she had not been dressed in men's clothes, she laughingly replied that she had, and thought the reporter was very inquisitive to ask her such ques-tions. She said she had a suit of her father's clothes, and wore them to keep from being apprehended and taken into custody again. Her feet were sore and custody again. Her feet were sore and swollen, and she looked careworn and swollen, and she looked careworn and tired from her weary journey. She was taken to St. Vincent's hospital, where she will be temporarily taken care of. She will not be taken back to the asylum in all probability, as she has so far recovered her reason that it is thought she can take care of herself, if she can find a home in some German family. Her story is verified in aimost every particular, as ner father was taken to the police station last fall under similar circumstances. He was picked up on one of the docks in a mi scrable condition and taken to the station house, and he being an old man and

THE PILOTAGE BILL

Special Order for 10 A M. Ta-Day-Will Probably Pass the Senate.

SALEM, Or., Feb. 14.-The Smate remorning to commit the pilotage bill to a committee for amend-ments and made it a special order of business for 10 a. m. to-morrow. Senti-ments expressed by members indicate that the bill will pass by a good majority. TERRITORIAL ADMISSION.

House Instructions to Conferrees Regard-

ing Territorial Admission. Washington, Feb. 14.—In the House the Senate bill was passed providing for writs of error to the United States supreme court in all cases involving the question of the jurisdiction of the court

The Senate amendment was concurred in the Legislative and executive bill. The committee on appropriations re-ported back the fortification appropria-tion bill with Senate amendments; re-

ferred to the committee of the whole. The conference report on the Senate bill for the admission of the State of South Dakota, which is a total disagree-South Dakota, which is a total disagree-ment, was argued, and a new conference ordered. Baker, of New York, offeted a resolution giving the House conferrees the following instructions: First, ex-clude the Territory of New Mexico from the bill; second, amend the bill so as to provide for the admission of South Da-kota by preclamation of the President under the Sioux Falls constitution; third,

under the Sioux Falis constitution; third, that the proposed States of North Dakota, Montana and Washington be admitted on the same basis, all by proclamation of the President or by formal acts of admission.

Cox, of New York, offered a substitute differing only from Baker's proposition in that it provides for the admission of North Dakota, Montana and Washington,

by a proclamation of the President.

The House has ordered its conferres on the Territorial bill not to insist on the admission of New Mexico by a vote of 135 to 106.

PROTECTION AT PANAMA. Washington, Feb. 14.—The House committee on foreign affairs to-day instructed the chairman to report faverably the Senate bill appropriating \$250,000 for the protection of American interests and citizens at Panama, in view of the fact that work on the canal ceases to morrow. The committee resolved to make an effort to secure immediate action by the House.

THE PARNELL CASE.

The Commission Refuses to Admit Cortain Letters on Evidence.

London, Feb. 14.—Scattes, solicitor for the Times, festilied before the Parnell commission to day that he visited Dublin in May, 1888, in quest of evidence. He interviewed the person who was introduced to him as a forger, employed in the office of the league, and who produced a slip bearing the signature of Farnell, specimens of Patrick Eagan's handwriting, and a bundle of documents. Those documents were brought to London in 1888 and embodied in the affidavit in the O'Donnell suit against Walter for libel. Attorney General Webster, in arguing in favor of the admission of the letter alfavor of the admission of the letter al-leged to have been written by l'arnell, let slip the fact that they were received from a man named Phillips, said to be an ac-

Blamarck's Devices to Delay the Berlin

BALTIMORE, Feb. 14.—A Sun's Washington special says: It looks now very much as if the Samoan conference at much as if the Samoan conference at Berlin will not be held by representatives of the present administration. Count Areo Valley, German minister, called upon Secretary Bayard yesterday and informed him that the latter's answer to Bismarck regarding the proposal of a conference had been sent to Berlin by mail. It will reach Berlin about the 20th inst. The German foreign office will probably require several days to consider layard a suggestion and answer. If re-Bayard's suggestion and answer. If re-turned by mail, it will hardly reach this country before the beginning of Harcountry before the beginning of Har-rison's regime. There seems to be no good reason why the correspondence should not be conducted by telegraph. It is claimed that Bismarck's resort to the mails is simply a trick to gain time to punish the Samoans before the negotia-tions at Berlin are completed. There is a supposition here that Germany has already sent reinforcements to Samoa to revenge the killing of a number of men in the recent fight with Mataafa. It is not at all unlikely that we will ultimately hear of another bloody battle. Bayard, however, has made a most vigorous pro-test against such a course and has hinted that it will be scarcely worth while to hold a conference unless Germany gives practical evidence of a sincere desire to promote the restoration of peace in the islands by foregoing her desire for venge-
