PORTLAND POINTS.

Another Suicide—An Insane Man Arrested—Other Interesting Items.

Portland, Feb. 19.—Yesterday Lottie Clark, an inmate of a Third street bagnio, committed suicide by taking an overdose of morphine. She had been imbibing too freely during the day, and the other inmates of the place were not aware of her doings till she told some one that she had been taking poison, and was going to take more. She had some two-grain capsules, one of which she dropped, but before the others could get it she picked it up and swallowed it and another one beside. The poison soon began to assert itself, and a message was sent to Dr. Jeiger to come as soon as he could. The doctor hurried to the scene and found her, to all outward appearances, dead. After three hours' hard work she was pronounced out of danger, and the doctor left. At 2 o'clock this morning, Coroner DeLin sent word to the Oregonian office that Lottie Clark was dead. After Dr. Jeiger left respiration began to flag, and she began to breathe very slowly. Believing that she was again getting worse, and not being able to find Dr. Jeiger, Dr. D. H. Rand was summoned, who arrived at 1:15. He said, "I found her in a dying condition, and immediately wrote a prescription for antidotes, and, while waiting, performed artificial respiration, but in fifteen minutes she was dead." Mr. DeLin took the body to the morgue and an inquest will be held soon. Her parents formerly lived in San Francisco. About eight years ago her father was in business in that city. No cause can be assigned for the deed, as she had quite a sum of money in the bank and plenty of fine diamonds and jewelry.

Oliver J. Bohl, an employe in the auditor's office of the O. R. & N., left his desk three days ago, without any explanation. Sunday he was arrested on the streets of East Portland, where he was wandering aimlessly around, a fit subject for the asylum. Though he had been adjudged insane, Mr. E. C. Masten interested himself in the young man's case, and took him to a hospital where he will be taken care of. He is not destructive in his tendencies, though he made an unsuccessful attempt to commit suicide by cutting his throat about a year ago. He is 22 years of age, and has a wife and child in St. Louis. He is given to periodical drunks.

At the 7:30 P. & W. V. train pulled into the depot, it was boarded by the sheriff and his deputy, who were armed with an execution in favor of Thomas Callahan for \$561.73 and costs. At an early hour therefore, this morning the train had not pulled out, much to the disgust of the train men and numerous passengers in waiting.

Jachetta, who shot and killed Olsen Sunday night, was arraigned in the police court this afternoon, but owing to the fact that the third party had not been apprehended the examination was postponed till to-morrow.

At a meeting of the Portland Cable railroad company held yesterday, it was decided to increase the capital stock of the company \$150,000, making in all \$300,000. It is understood that \$70,000 of the additional stock is already taken. It looks now as though Portland would, at no distant day, have a cable railway.

The weather has turned out fine to-day, and overcasts, which have been with for the past few days, are at a discount.

Mr. H. C. Eckenburger, who has held the office of general agent for the Northern Pacific in this city, has tendered his resignation, to take effect March 1st. He will take a few weeks' rest, after which he contemplates emigrating to other business.

At present the prospects for the passage of the Portland and East Portland consolidation bill look rather gloomy. It is understood that an amendment submitting it to a popular vote will be made to the bill. The fact is, the bill is being most assiduously rocked to sleep.

Gov. Penney has allowed all the road appropriation bills to become laws with his signature. The appropriations for building wagon roads, aggregate \$87,000.

Lard, steady; cash \$6.62 1/2; March, \$6.62 1/2; May, \$6.72 to \$6.76.

SOME TARIFF TALK.

Cleveland's Letter to the National Reform League in Chicago.

Chicago, Feb. 18.—The following is a copy of President Cleveland's reply to an invitation to be present at the convention of the National Tariff Reform League which would meet in this city this afternoon:
WASHINGTON, Jan. 24, 1889.
John Z. White, Esq., Sec'y., Dear Sir: I have received the invitation of the Tariff Reform League to be present at the convention of the tariff reformers to be held in Chicago. I have also read the circular of the league accompanying the invitation, in which the objects and purpose of the convention are specifically set forth. The scheme of practical and efficient work therein described meets with my hearty approval, and promises, if honestly followed, to be the most valuable aid to the furtherance of a cause which is very near to the interests and welfare of the people. A danger which we have to guard against is the misleading of our countrymen by theories cunningly contrived, and falsely offering to the people relief from present burdens and the legitimate expenses necessary to secure the benefits of a beneficial rule under the sanction of free institutions. The declared purpose of your league will not be attained until all those interested in the economy question, which is now pressed upon their attention, are freed from all sophistry and clouding fallacies, and until the subject of tariff reform is presented to them as a plain involving the relief of the plain people of the land, in homes, from useless and unjust expense.

The question is a simple and a plain one, and needs but to be fairly represented to be understood. It is the positive duty of your organization to guard the people against deception. My extreme interest in the work which your league has undertaken, and the expressed object of the proposed convention, would lead me to accept your invitation if it were possible to do so, but my public duties here positively prevent such acceptance. Hoping that the convention will be very successful, and with my earnest wish for the prosperity and success of your league in efforts to enlighten and benefit the people, I am,
Yours very truly,
GROVER CLEVELAND.

THE BARTFORD HORROR.

More Bodies Exhibited—The Building Was of Heavy Construction.

Hartford, Feb. 19.—The body of Dr. Pennington, and another, supposed to be Mrs. Pennington, have just been taken from the hotel rooms. Two other bodies are in sight. The second body is fully identified as that of Mrs. Pennington. Another body, that of William Earle, has been exhibited. Work was suspended to allow the taking down of the interior walls, which threaten the lives of the occupants. It is made evident that the building was of the most flimsy construction. None of the local insurance companies would touch it. A large fragment of the boiler has been discovered, showing that an explosion was the actual cause of the catastrophe.

GOULD'S RETIREMENT.

New York, Feb. 19.—The annual meeting of the stockholders of the Delaware, Lackawanna & Western railway was held to-day. The only change in the directors is caused by the retirement of Jay Gould, whose place was filled by Henry A. Taylor, son of the late Moses Taylor, whose estate is still the largest holder of the company's stock. The retirement of Gould is in accordance with his wish.

O'BRIEN SENTENCED.

Imprisonment at Hard Labor for Six Months Given to the Irish Patriot.

Dublin, Feb. 19.—When the case of O'Brien resumed at Tralee to-day, O'Brien refused to allow Healey, his counsel, to apologize for the language the latter had used to Colonel Turner during the progress of the case yesterday. O'Brien also declined to make any further defense against the charges brought against him under the Crimes act. The magistrate thereupon sentenced O'Brien to six months' imprisonment at hard labor.

Attempted Train Robbery.
Crescent, Feb. 19.—A statement is published that the last train on the Louisville & Nashville road, carrying a carload of silver dollars, and one hundred passengers, ran into a lot of ice, placed on the track by an unknown party, Kentucky, Friday night, but the force of the shock broke the obstruction and the train went safely on.
Escaped With Their Lives.
San Francisco, Cal., Feb. 19.—A fire last night destroyed the tariff building, losing about \$1,000, insured for \$240,000. 210 men and children narrowly escaped with their lives.
