STATE AND COAST NEWS.

PORTLAND POINTS.

Breezy Notes from the East Oregonian's Special Correspondent.

PORTLAND, Oregon, February 21.—The sixth annual report of the Portland fire commissioners, just published, shows the cost of maintaining the department for the year 1888 to be \$79,469.80, and estimate the cost for 1889 to be \$65,891.84.

The assets of the department are: Real estate and improvements, \$133,000; horses, apparatus, etc., \$53,950; fire alarm apparatus, \$15,327.60; total, \$202,277.60.

The department has responded to 132 calls during 1888, though the loss for the year has been only \$54,347.70, the lightest since the organization of the department. Hydrants have followed the laying of new mains, and will be continued during the coming year.

The department recommend the building of a fire boat; also that the city pass an ordinance compelling house owners to put fire escapes on all buildings three or more stories high. The department has 22 horses and employ 80 men.

There were 361 arrivals at six of the leading hotels yesterday, and 204 to arrive over through railroad lines to-day, a greater portion of whom are immigrants.

This does not include a great number to arrive over local lines. At this rate it looks as though the great Northwest would be filled up in time, though it has ample room for immigration for a long time to come.

Still real estate is being bought and sold right and left. Considerations in deeds filed for record yesterday amounted to \$23,777.

Four years ago Mr. A. M. Simpson conceived the idea of transplanting Eastern claims, and procured about six bushels, which he distributed at various places in Gray's harbor. To-day it is estimated that they have multiplied so that they would fill two of the largest vessels that come into the harbor. They are far superior to any shell-fish on the coast, being remarkably sweet and juicy.

Several Chinese witnesses in the case of Fong Long Ick yesterday testified that they were chambermaids by occupation. It appears that the heathen Chinese are not only crowding men out of work, but there is no telling when they will become old maids, then what will become of the country?

A friend of Vernon Housman, who skipped the town about a year ago under a cloud, has received a letter from him, stating that he is in the Argentine Republic, where soon after his arrival he married a Spanish lady, owning countless miles of land and an enormous bank account.

In Justice Phelan's court to-day Fred Love was tried by a jury for the crime of assaulting one Louis Kisk. At this time the trial has not been completed, so the verdict can only be guessed at, but it seems that the verdict must be that of acquittal, for it is against nature for any trouble to spring up between love and kisses.

The remains of the suicide, Lottie Clark, were today shipped to San Francisco for interment, her sister, Mrs. Malie Woodward, accompanying them.

An attempt was made to forge the name of S. G. Reed to a check of \$800, but the paying teller discovered that the final "d" did not correspond with that of Mr. Reed's own signature, so did not cash it. He held it, however, to which the holder made no objection, but withdrew never to show up again.

In the criminal court this morning Edward Jones pleaded guilty to a charge of stealing a lot of harness, and was sentenced to serve one year in the penitentiary.

THE GOVERNOR ON HIS EAR.

He Appoints Railroad Commissioners in Opposition to the Republican Caucus—Wager's Exemption Bill Defeated.

PORTLAND, Feb. 21.—The Governor, in opposition to the Republican caucus, has appointed Charles P. Church of Portland, and George H. Briggs of Wasco, as railroad commissioners on the ground that as he did not sign the bill it would not become a law for ninety days. He says at that time he will appoint three permanent commissioners, two Democrats and one Republican, and adds: "No Republicans need apply."

Wager's bill to exempt homesteads from execution was defeated.

CONGRESS.

Yesterday's Proceedings in the Senate and House.

WASHINGTON, Feb. 21.—Randall fired the first gun in the contest between the ways and means committee and the committee on appropriations, with a resolution amending the rules to provide that on blank day the House shall at once proceed in a committee of the whole to consider the Cowl's bill. It shall report it to the House at 4 p. m., and a vote on its passage takes place immediately. No dilatory motions are to be allowed at any stage of the proceedings. The resolution was referred to the committee on rules.

After several unsuccessful attempts to get particular measures considered, the House went into a committee of the whole on the postoffice appropriation bill.

COAL FOR SAMOA.

The Secretary of the Navy has contracted with M. F. Pickering & Company, of New York, for the delivery of 2000 tons of coal at the coaling station at Apia, in Samoa, at \$13.25 per ton. The coal is purchased from C. G. Barker &

Company, New York, for \$3.61 per ton. The ship Schem, of Boston, will be used in transporting the coal. It is expected to make the voyage in four months. The vessel is being loaded in New York. The shipment will cost the government about \$14,000.

A DEMOCRATIC CAUCUS.

The Democrats of the House will caucus to-night to agree upon a line of policy in respect to revenue reduction.

A BILL VETOED.

The President returned to the House with a veto message the bill for the relief of settlers on the Des Moines river lands.

WILL SIGN THE BILL.

It is believed the President will affix his signature to the Territorial omnibus bill to-morrow in honor of Washington's birthday.

ADVICERS FROM HAYTI.

Report That Hippolyte Has Been Assassinated—A Desperate Battle.

BOSTON, Feb. 21.—The latest news from Hayti is furnished by the second officer of the steamer Delta, from Port-de-Praix. The officer states that there is no communication between the coastwise towns, but information was received February 12 from the native mail carrier just from St. Mary, which reports a serious conflict between the Northern and Southern armies, lasting three days, one mile below St. Mary, in which the army under Hippolyte was completely routed, and 200 or 300 killed. The second officer also states that the rumor has gained considerable currency at Port-de-Praix that Hippolyte has been killed by a soldier, who received \$2000 for the deed.

BLOWN TO ATOMS.

A Laborer Killed by the Explosion of 150 Pounds of Dynamite.

NEW YORK, Feb. 21.—George Smith, aged 60, was instantly killed this morning by an explosion of dynamite. Smith was foreman of a gang of laborers engaged in digging out cellars at Seventy-sixth street and Boulevard. The man entered the tool box, and almost immediately a terrific explosion took place. Smith was literally blown to atoms. In the tool box had been stored 150 pounds of dynamite, and in some unaccountable way Smith's entering the box caused the stuff to explode. Windows in houses for a quarter of a mile away were shattered by the concussion.

Quite Correct, Why?

From the Oregonian.

Eugene City is to have an ordinance to prevent minors and students from frequenting billiard saloons in that city. Why relieve, or seek to relieve, parents and the faculty of the State University of authority and responsibility in this matter? It cannot be that the mission of the former is solely to board and clothe minors, and that the duty of the latter is confined to hearing recitations. States and municipalities are undertaking a great deal in these days in the line of supervision of private morals—much more than they are likely to perform with benefit to society. The tendency is to ignore individual responsibility where it should be to encourage and insist upon its assumption.

A Land Value Rule.

From the Capital Journal.

When a town is in a normally prosperous condition its best corner lot of 50 feet front by 150 feet will sell for just about as many dollars as there are people in the place. Village best corner lots sell at from one to a thousand dollars; towns, from one thousand up to twenty thousand; cities, at from one hundred thousand up to millions of dollars, depending on population. The best lot in Hardacreville sold for \$150, and the people brag on the big transaction; the best in New York sold for two millions and no one wondered. Decline or boom will vary these figures. This is an approximation rule.

No Pay, No Pray.

From the Alta California.

A fashionable church in New York has adopted the policy of "No pay, no pray." No person who has not paid pew rent in advance can listen to the gospel in that church. Well, it's a consolation to know that money can't buy reserved seats in heaven.
