GENERAL NEWS.

Russia has just borrowed \$25,000,000 in New York at four per cent. The money is all to spend for American material and supplies for Russia's railroad.

Tuesday night was probably the coldest of the winter in the Adirondacks region. It was 12 below zero at daylight at Plattsburg, 14 below at Malone, and 22 below at Saranac Lake.

The greatest fire Newark, N. J., ever experienced swept through the retail dry goods district Tuesday night, destroying a score or more of buildings. The loss is estimated at over \$1,000,000.

The island of Basilian in the Philippines is reported to have been purchased by Prince Poniatowski of San Francisco for \$500,000. Basilian is 20 miles long, lies southeast of Mindanao, and is valuable for its pearl fisheries and hemp trade.

On his return from Washington to Lincoln, Neb., Governor Poynter announced a meeting of Western governors, at Salt Lake, April 18, at which time it is proposed to draft a bill for presentation to congress dealing with Western Arid Lands.

The steamer Australia arrived at San Francisco from Honolulu Tuesday. After twelve days had passed without a sign of plague, three cases were discovered February 19, all ending fatally. The San Francisco council has appropriated another \$100,000 to allow the board of health to carry on the work of fighting the plague.

The fast St. Louis day express due to arrive in Kansas City at 5:45 Tuesday evening, was delayed by a freight train, which struck in a snow drift, two miles south of Independence, Mo., about 12 miles out of Kansas City. The St. Louis local passenger train, running 40 minutes behind the fast express, came on through the blinding snow storm and crashed into the express train ahead, the engineer having failed in the driving snow to see the danger signal which the fast train had sent back. Several Pullman sleepers were wrecked, several people killed and several women burned to death before they could be rescued.

PACIFIC NORTHWEST NEWS.

A creamery is to be established at Salem by T. S. Townsend.

General Charles King, noted as a writer as well as an army officer, may pay a visit to the Northwest in the near future on a lecturing tour.

John Grant, an old resident of Knappton, died at the hospital in Astoria of erysipelas, after a protracted illness. He was 70 years of age, and unmarried.

A. P. Moss, a well known man at Moscow, Idaho, committed suicide a few days ago by cutting his throat with a razor. He left a wife and seven children. He was dependent.

The health authorities of Astoria urge the citizens of that place to engage in a general rat-killing as a precautionary measure against the introduction of the plague into that port.

The Northwestern Dairyman and Hog Raisers' Convention, an organization embracing the states of Montana, Washington, Oregon and Idaho, will hold its third annual meeting at Moscow, March 21, 22 and 23.

Dr. J. H. Carper, of Farmington, died at Spokane Tuesday of cancer of the nose. He left two small children. He was one of the most prominent physicians of Eastern Washington, and was state senator in the legislature.

Joseph Abbott Roundy, a native of Marblehead, Mass., died at his home in Hillsboro, Washington county, Tuesday, having for several years been a sufferer with consumption. He came to the Pacific coast about 20 years ago.

America's Greatest Medicine is Hood's Sarsaparilla, because it was originated and prepared by competent, experienced and educated pharmacists from the best known alternative, diuretic, anti-bilious remedies and stomach aches, by a combination, proper and process.

It is still prepared by the same process, and is known to other remedies and is giving to Hood's Sarsaparilla the reputation of being unequalled in the history of medicine. It has accomplished many marvelous cures when all other medicines failed, and even when cure seemed impossible, and really was impossible by any other medicine than Hood's Sarsaparilla. It has effected wonderful cures of scrofula, salt rheum, psoriasis, blood poisoning, boils, pimples, rheumatism, catarrh and other troubles originating in or promoted by impure state or low condition of the blood. It has cured thousands of cases of dyspepsia, indigestion, nervousness, gastritis, catarrh in the stomach and other kindred troubles. It has given nerve, brain and mental strength in cases of nervous prostration and nervous debility, cured the loss of appetite, and has

ENGLAND WILD WITH JOY

The Relief of Ladysmith an Accomplished Fact.

BULLER'S TROOPS OCCUPY THE CITY

Demonstrations of Enthusiasm and Jubilation Without a Parallel—British Empire Takes a Holiday.

London, March 1.—A dispatch from South Africa this morning states that Ladysmith has been relieved, and that Buller's forces now occupy the city.

ENGLAND WILD WITH JOY.

The Relief of Ladysmith an Accomplished Fact.

London, March 1.—When the relief of Ladysmith became generally known, London literally went mad with joy, and throughout England the scenes witnessed have no parallel in the memories of this generation. The pent-up jubilation at the relief of Kimberley and the defeat of Cronje could no longer be controlled and with today's crowning triumph self-restraint was thrown to the winds. Bells on the curfew tower of Windsor castle rang in honor of the event. The storm of jubilation centered around the mansion house and by noon thousands of people blocked the approaches to the building. The only way to get past the mansion house was by mounting busses which soon began to resemble chariots in a triumphal pageant. The procession became continuous, yet the crowd never tired, cheering every time the name of White, Buller or Roberts was mentioned. Grave old financiers waved flags and yelled frantically that England's honor had been saved. The strain that for 113 days had kept the nation in terrible anxiety was removed. Staid magnates grabbed flaring posters from news boys and brandished "Ladysmith relieved." All thought of business was forgotten. Nothing could be done on the stock exchange except "God save the Queen" and cheer. Stores put their shutters up and gave the employees a holiday.

All over the United Kingdom these scenes were duplicated. In all cities, big and little, flags float everywhere and crowds parade the streets singing patriotic songs.

Lord Dundonald is assumed to have made a wide detouring movement eastward, skirmishing Bulwana hill, and Buller may reasonably be expected to be in Ladysmith with the bulk of his forces by tonight. Opinion here inclines to the belief that an aggressive movement can not be immediately undertaken by Buller and White's forces, hence Roberts is likely soon to have to face the enemy strengthened by large reinforcements from all sides. While it is generally realized that Roberts' strategy is mainly responsible for the relief of Ladysmith there is a feeling of anxiety lest his plans suffer from the hordes Buller might let slip into the Free State.

It is reported in London, but the news is not confirmed, that French has already reached Bloemfontein.

Boers Repulsed at Mafeking. London, March 1.—A special from Cape Town says that a telegram from Mafeking announces that the Boers made a protracted assault on February 17, but were driven off. On the 18th another fierce attack was made but the Boers were repulsed with a loss of forty killed and wounded.

Boer Losses at Jamestown. Sterkspruit.—The Boer losses when Braam captured Jamestown were 500 killed, 123 wounded and 300 missing.

Germany Will Not Intervene. Berlin, March 1.—The foreign office has told a correspondent of the Associated Press that, newspaper statements to the contrary, Germany neither knows of any project for intervention in South Africa, nor intends such herself.

The Country Cleared of Boers. London, March 1.—Buller wires from Nelthorpe that he has just returned from Ladysmith. He adds that the whole country south of that place is cleared of Boers.

Buller's Dispatch. London, March 1.—Following is the text of Buller's dispatch: "Nelthorpe.—I have just returned from Ladysmith. Except a small guard north of Surprise hill, the whole of the enemy lately besieging the town have retired in hot haste and to the south the country is quite clear of them. The garrison was on half a pound of meal per man per day and supplementing meat ration was horses and mules. The men will want a little nursing before being fit for the field."

Looking for More Troops. Melbourne, March 1.—The secretary of state for the colonies, Chamberlain, has cabled the Australian government asking whether they will be able to send additional troops to South Africa in the event of imperial troops being required elsewhere.

Talk of Peace. London, March 1.—The Cape Town correspondent of the Daily Telegraph, telegraphing Monday, says: There is talk of peace in the air. The English organ of the Afrikaner bond proposes the formation of a conciliation committee, the object being, of course, to save Boer independence.

Clements Occupies Colesburg. Renberg, Feb. 28.—General Clements entered Colesburg this morning and received a A MEDICAL CO. The Boers at Colesburg, N. D., are being driven out by the U. S. Army.

BOSTON WOOL SALES.

The American Wool and Cotton Reporter on the Market. Boston, March 1.—The American Wool and Cotton Reporter will say: "There has been little demand for wool during the week, the entire sales being only about 2,400,000 pounds. The demand still runs principally to medium and low wools, although a little more inquiry is noticeable for fine wools, and the feeling with reference to the latter is slightly improved. Prices are irregular and on clothing territory wools slightly easier. The London wool sales open next Tuesday and about 260,000 bales will be offered. The sales of the week in Boston amounted to 2,140,000 pounds domestic, and 242,000 pounds foreign, making a total of 2,382,000 against a total of 2,371,000 for the previous week, and a total of 3,463,000 for the corresponding week last year. The sales since January 1 amount to 20,616,000 pounds against 33,440,050 pounds for the corresponding period last year.

SNOW STORM IN CHICAGO.

Traffic Blocked by a Snow Fall of Seven Inches. Chicago, March 1.—The weather bureau announced today that the snow fall of yesterday was the greatest since the winter of 1898, averaging nearly 7 inches in the middle western states. It was stated that the conditions give no promise of any abatement of the storm before tonight. The greatest snowfall, according to the weather map, is in Illinois, Missouri, Kansas, Southern Michigan, Northern Indiana, Southeastern Iowa and southeastern Wisconsin. Railroads running through these states report trains from half an hour to five hours late. All the roads sent out their plows during the night. Traffic was blocked in this city.

A MINE CAVES IN.

Nine Miners Entombed Near Redding, California. Redding, Calif., March 1.—A cave-in occurred in the Iron Mountain mine entombing nine miners. Owing to the natural caverns existing the mine could not be properly timbered, and the lack of supports caused the accident. A large force of men is engaged in the work of rescue. The imprisoned men can be heard tapping on the walls, and it is hoped that they can all be rescued alive though the air pipes are broken and foul air may cause the deaths of the men. The names of the imprisoned miners are: MacBroom, R. McCally, J. Oates, A. Oates, A. Cavanaugh, A. VanBuren, D. E. Ross, H. Cantillon and one unknown.

STORM IN THE EAST.

Railway and Street Car Traffic Impeded by Snow. St. Louis, March 1.—All the railroads are suffering as the result of a heavy fall of snow. In St. Louis traffic is much impeded.

Cleveland, March 1.—The most destructive sleet storm ever experienced in this city prevailed last night. The streets were blocked by hundreds of prostrated poles and trees. Every street car line is tied up.

New York, March 1.—Reports from all points in this state indicate the worst snow storm in many years.

British Columbia Politics.

Victoria, March 1.—The policy upon which the new government intends to work will go at once to the people. The chief plank is the public ownership and operation of railways, cancellation of the alien exclusion law and retention of the principle of the eight hour law.

French Cannon Factory Burned. Leeresote, France, March 1.—Fire yesterday destroyed the cannon factory here whence the Boers obtained their powerful "Long Tom." Two enormous buildings containing gun materials, stores and a number of artillery models were destroyed. The loss is nearly one million francs.

NEW CREAMERY AT UKIAH. E. Woody Will Have One Operating in Two Weeks. E. Woody, of Ukiah, will have a new creamery in operation in about two weeks. He left Pendleton for Portland this morning, to make some purchases of machinery and fittings, and will hurry up the work of installing the plant at Ukiah. Mr. Woody will put in the latest improved machinery for the separation of the cream from the milk and for the manufacture of butter of the highest grade.

The creamery industry at Ukiah has developed to large proportions. Mr. Woody's creamery will make two in operation at Ukiah. The people living there have gone extensively into the breeding of finebred milk cows and the community is quite prosperous, largely owing to the dairy industry.

Mr. Woody formerly lived at Athens.

His Sight Restored. C. C. McCoy, the well known mail contractor who has operated in the upper country for years, and who has suffered from blindness for a number of years, has now nearly recovered his sight as the result of a surgical operation in a Portland hospital. Mr. McCoy was seen a few days ago in Portland and was of course in excellent spirits because he had his sight and could see his many friends once more.

IDAHO LABOR TROUBLES

Editor Stewart's Story of His Experience in the Riots.

DETAILS OF LIFE IN THE BULL PEN

His Newspaper Confiscated—Describes the Kangaroo Court—Says There Was No Occasion for Martial Law.

Washington, March 1.—Wilbur Stewart continued his testimony today concerning the labor troubles in Idaho. He said his newspaper was confiscated, causing him considerable loss. The witness said that throughout his detention he was given no trial except before a "Kangaroo court." He said this was a name applied to an "inquisition" carried on by a local official, not a magistrate. Asked as to the death of one Johnson, a prisoner in the "bull-pen," he said Johnson was taken before the "inquisition" and an effort made to learn from him the names of those who participated in the riot. When Johnson returned to the pen he expressed fears that he would be hanged. He tried to kill himself and later, while fleeing from an imaginary foe, he was killed by the guard. Witness said Johnson was mentally sound before being put in the "pen." He expressed the opinion that there had been no occasion for declaring martial law.

THE DAY IN CONGRESS.

Hawaiian Bill Passes the Senate—The House Takes a Rest.

Washington, March 1.—The senate has decided to take a final vote on the conference report on the financial bill next Tuesday.

The quorum question was not called up today on account of a unanimous agreement as to a final vote on the Hawaii government bill.

The bill providing for a government for Hawaii passed the senate on a viva voce vote.

There was a general relaxation in the house today after the bitter and protracted struggle over the Puerto Rican bill. No business of importance was transacted.

Amushed by Insurgents. Manila, March 1.—A hundred insurgents of San Fernando La Union ambushed ten men of the Third cavalry who were escorting a provision train. One American was killed. The insurgents captured four horses and a quantity of provisions.

The Clark Investigation. Washington, March 1.—In the Clark case today Campbell was cross-examined by Faulkner. Campbell told of the organization of the movement for the investigation of Clark's election.

Utah Democratic Convention. Salt Lake, March 1.—The democratic state convention met this morning. W. L. Maginnis, of Ogden, was made temporary chairman, and Mrs. Mattie Hughes Cannon, vice chairman.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.
