DUTIES OF ROAD SUPERVISORS.

Substance of the Law Relating to the Subject.

Following the printing in yesterday's Daily East Oregonian the text of the new sections of the road law, today the duties of road supervisors are set forth in response to a general demand for the information. The provisions of the law are here given in substance:

It shall be the duty of every supervisor of roads, on or before the first day of February of each year, to obtain the names and make out in alphabetical order a list of all persons liable to perform labor on the public roads residing within his road district, and file the same with the county clerk, whose duty it shall be to affix to each name the amount of taxable property owned by each person residing or owning real property therein for county rates the last preceding year.

In making such estimate and assessment, the supervisor shall proceed as follows:

1. He shall apportion the labor to be performed in his road district to the valuation of taxable property owned therein, the ratio of one day's work for each and every $1000 assessed for state and county purposes the last preceding year; provided, that any person may, in lieu of each day's work to be performed according to this chapter, pay into the hands of the supervisor the sum of $1.50, to be expended for labor or material on the public roads in the district where the said property so taxed is located.

Every supervisor of roads shall receive for each day necessarily employed in the performance of any of the duties required by this chapter, over and above the number of days' work required by law to be performed by such supervisor, the sum of $2, to be paid out of the county treasury, after the report of the supervisor shall have been received and approved by the court. Every person employed as surveyor under this chapter shall receive as compensation the sum of $3 per day; each viewer or reviewer the sum of $2 per day, and each chaincarrier and marker the sum of $2 per day; provided, that no surveyor, viewer, reviewer, chaincarrier or marker shall receive any compensation until he shall certify to the county court that he has been necessarily employed the number of days for which he claims pay, and that he has complied with the requirements of this chapter.

When a supervisor cannot find sufficient property of a delinquent out of which to make the amount of his road tax, or any part thereof, he must collect the same, or any part thereof remaining uncollected, by an action in his own name against the delinquent, in any court having jurisdiction thereof, and if judgment be given in such action against the defendant, it shall be enforced in the same manner as a judgment for a fine in a criminal action. All moneys paid to or collected by the supervisor for road taxes shall be expended by the supervisor in the improvement or repairs of the roads in his district as may be most needed or useful.

The supervisor of roads shall open or cause to be opened all public roads which may have been or may hereafter be laid out and established according to law in any part of his road district, and shall keep the same in good repair; and if the labor in his district assessed as provided in section 05 of this chapter is not sufficient for that purpose, then he shall have authority to assess and call out such an amount of labor as will be sufficient to put the public roads in his district in good repair.

He shall assess two days' work to be performed by each male between twenty-one and fifty years of age, except persons who are a public charge or are too infirm to perform labor. Every such male actually in said district shall be subject to such tax at any time from the first day of February of each year to the first day of the following February, and the supervisor may at any time assess such tax and collect the same.

Brave Men Fall

Victims to stomach, liver and kidney troubles as well as women and all feel the results in loss of appetite; poisons in the blood, backache, nervousness, headache, and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters is just the thing for a man when he is all run down and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50c at Tallman & Co.'s drug store. Every bottle guaranteed.

Winter Trips.

For winter residence or winter outing ideal conditions will be found on every hand in Southern California. Plenteous early rainfall has this season given to the semi-tropical vegetation wonderful impetus; the floral offerings are more than usually generous and the crop of southern fruits bountiful and excellent.

Old ocean possesses new charms at Santa Barbara, Santa Monica, Long Beach, Coronado and that enchanted isle of the sea, Catalina—where fishing, boating, rambling, riding, hunting and loafing may be enjoyed as nowhere else.

Quiet little spots, snug and warm, offer themselves at Montecito, Nordhoff, Pasadena, Echo Mountain, San Jacinto, Fall Brook and Palm Springs.

For renewing health and vigor, there abound many hot springs, of widely varying constituents and demonstrated merits; the dry, antiseptic, tonic air of the desert may be enjoyed at Banning, Indio, Yuma; and, even farther on, at Phoenix, Tucson, El Paso, exist conditions equally well indicated for weak throats and lungs.

Many think nothing in nature more attractive than the shimmering olive orchards of Santa Barbara and San Diego; others prefer the stately walnuts of Ventura and Los Nietos, or the lemons of Fernando; but for glorious fruit and graceful tree commend us to the golden orange, first, last and always, and it exists in greatest perfection at Covina, Riverside, Redlands and Highlands. Equally interesting is the scientific and tempting fashion in which the sorting and packing of the orange is here accomplished.

The faithful were exhorted to see Mecca and shuffle off; but wiser generations will see California of the South and prolong life.

"The Strength of Twenty Men."

When Shakespeare employed this phrase he referred, of course, to healthy, able-bodied men. If he had lived in these days he would have known that men and women who are not healthy may become so by taking Hood's Sarsaparilla. This medicine, by making the blood rich and pure and giving good appetite and perfect digestion, imparts vitality and strength to the system.

THE MARKETS.

Wheat Lower and in Poor Demand. Heavy Receipts from Argentina.

Portland, March 1.—The Commercial Review in its review of the wheat market for the week in its issue of today, says:

The local wheat rules quiet, but firm. The demand for export is not very good, the shipping interest having more than sufficient stock on hand to cover wants of spot loading fleet, and recent purchases were mostly to provide for future needs. For milling purposes the inquiry is moderately active. Relatively more wheat is coming from east of the mountains, indicating that many holders are satisfied with existing prices, and are disposed to market holdings. The gradual decline in wheat cargoes abroad and a limited inquiry from Europe for wheat causes exporters to go slow or to defer operations. There has been no absence of sellers the past three weeks, offerings having been larger a week ago than at any time since November, but holders continue the practice of asking above the market value. There is no disguising the fact that the majority of them are sick at heart and anxious to clean up their holdings, yet obtainable prices for many are too low and entail some loss that many seem determined to take further chances on the market improving later on, and for the present posptone selling. Should the market take a downward course again there is no doubt that a large amount of wheat will be thrown on the market, and some important holdings closed out. Buyers are certainly perfectly indifferent whether they do business or not. They have no ships nearly due to provide for, and, with freight rates continually advancing, will not operate unless they are sure of some margin of profit. Prompt-shipment cargoes have yielded another 6d per quarter, with a probability of a further decline if sales were pressed. The value of recent plague reports from Argentina was illustrated by larger shipments last week against the same time last year, showing there has practically been no ban placed on exports by virtue of the bubonic plague. It is more than likely bad crop reports from France, with which we have been recently surfeited, and giving the country press something to work on, to please the farming community to hold their wheat for higher prices, will turn out to be no more serious than was the Argentine plague. Both have undoubtedly been largely magnified or exaggerated, and quite likely for Eastern speculative purposes. Cables from Rio Janeiro said Argentine and Portuguese ports have been declared free of the plague. Prices are: Club, 53c; Valley, 53c; bluestem, 55c per bushel.

Wheat in San Francisco.

San Francisco, March 1.—This market is entirely governed by the European markets, and they show a very decided weakness; hence there is nothing doing for the spot article. The freight market has cut quite an important factor recently as to the value of wheat, and 41s 3d has been paid for two spot ships. Buyers have reduced their bids, and holders are very obstinate and refuse to part with any of their holdings at present. Quotations for No. 1 shipping, 96½c; milling, $1 per cental.

Wool in Boston.

Boston, March 1.—There is little change in this market. The feeling appears to be weaker from lack of general demand for wool.

Quarter-bloods, fleeces and wool of that character and coarser are yet in demand, and hold firm in price. Territory wools are meeting with some sales at about the former range of values. The scoured basis for fine medium and territory is yet about 65 to 70c for coarse staple, with good lines of staple at 60 to 65c. Fine washed fleeces are meeting with a slow trade, but prices are holding fairly steady in the absence of trade. Quotations:

Territory wools—Montana and Dakota, fine medium and fine, 23 to 24c; scoured, 62 to 65c; staple, 68 to 70c. Utah and Wyoming, fine medium and fine, 19 to 22c; scoured, 60 to 63c; staple, 65 to 68c. Idaho, fine medium and fine, 18 to 21c; scoured, 60 to 63c; medium, 20 to 23c; scoured, 52 to 54c.

Australian wools—Scoured, combing, superfine, 93 to 95c; good, 88 to 90c; average, 80 to 85c.

Wool in Portland.

Portland, March 1.—Wool—Valley, 12 to 13c for coarse, 15 to 20c for best; Eastern Oregon, 8 to 14c; mohair, 25 to 30c per pound.

Wool in San Francisco.

San Francisco, March 1—Wool—Spring—Nevada, 12 to 15c; Eastern Oregon, 12 to 16c; do Valley, 20 to 22c. Fall—Northern, mountain, 10 to 12c; mountain, 8 to 10c; plains, 8 to 10c; Humboldt and Mendocino, 15 to 17c per pound.

Skins, Pelts and Hides.

Portland, March 1.—Sheepskins—Shearlings, 15 to 20c; short wool, 25 to 35c; medium-wool, 30 to 50c; long wool, 60c to $1 each.

Pelts—Bear skins, each, as to size, $5 to $15; cubs, each, $1 to $5; badger, each, 10 to 1c; wildcat, 25 to 40c; housecat, 5 to 10c; fox, common gray, 40 to 60c; do red, $1.25 to $1.75; do cross, $2.50 to 6; lynx, $1.50 to $2.50; mink, 30c to $1.25; marten, dark Northern, $4 to $8; do pale, pine, $1.25 to $3; muskrat, 8 to 12c; skunk, 25 to 40c; otter (land), $4 to $6; panther, with head and claws perfect, $1 to $3; raccoon, 25 to 50c; wolf, mountain, with head perfect, $3.550 to $5; wolverine, $2.50 to $5; beaver, per skin, large $6 to $7; do medium, per skin, $4 to $5; do small, per skin, $1 to $2; do kits, per skin, 50c to 1.

Hides—Dry hides, No. 1, 16 pounds and upward, 15 to 15c½; dry kip, No. 1, 5 to 16 pounds, 15c per pound; dry calf, No. 1, under 5 pounds, 15 to 16c; dry salted, one-third less than dry flint; salted hides, sound steers, 60 pounds and over, 8½ to 9c; do 50 to 60 pounds, 8 to 8½c; do under 50 pounds and cows, 7½ to 8c; kip, 13 to 30 pounds, 7½ to 8c; do veal, 10 to 14 pounds, 7½c; do calf, under 10 pounds, 7½c; green (unsalted), 1c per pound less; culls (bulls, stags, motheaten, badly cut, scored hair slipped, weather-beaten or grubby), one-third less.

Eastern Livestock.

Chicago, March 1.—Cattle—Market generally steady; natives, good to prime steers, strong, $5 to $6; poor to medium, steady, $4 to $4.75; selected feeders, dull, $4.25 to $4.75; mixed stockers, slow, $3.50 to $3.90; cows, best steady, others slow, $3 to $4.25, heifers, steady, $3.20 to $4.65; canners, firm, $2.25 to $2.90; bulls, steady, $2.60 to $4.65; calves, shade lower, $5 to $7.75. Texans, receipts, 700; Texas fed steers, steady, $3.90 to $5; Texas bulls, shade easier, $3.25 to $3.75.

WHAT THE CITY WILL SAVE.

Figures Show That Water Improvements Will Pay Well.

Dr. F. W. Vincent, mayor of Pendleton, has been doing some figuring on the amount that will be saved annually by reason of the improvements which were made in the city waterworks system last year, with those remaining to be done in carrying out the plans which have been followed. The result is rather surprising, and yet cannot be gainsaid.

The total saving to Pendleton will be $7600 per annum.

These figures are indeed rather startling, when expressed as a total; but when the items are given and the manner of the saving is explained, they appeal as not only reasonable but absolutely correct.

Heretofore, the fire department has cost the city $3600 a year. Under the reorganization plan which has been inaugurated the entire running expense for twelve months will not reach $1000. It is more likely to be about $500, but in order to figure upon a safe basis the larger estimate will be taken. This will subtract from the former expense, $3600, $2600 of expense saved, and leave $1000 to provide for the year's operation of the fire department.

The amount of fuel required for the operation of the water pumping station has been so much reduced that the annual saving is now $2500 from this item alone.

The insurance union will reduce the rate on Pendleton insurance policies ten per cent, which will reduce the amount paid out by Pendleton property owners at least $2500. The insurance premiums paid annually in Pendleton aggregate from $25,000 to $50,000. On the basis of the lowest estimate, $25,000, the ten per cent reduction will enable a saving of $2500.

This makes the total which will be saved $7600, made up of these items:

Saving in Fuel	$2,500 00
Saving in Fire Department expense	2,600 00
Saving in Insurance	2,500 00
Total	$7,600 00

The total cost of all the improvements affecting the waterworks system will be $30,000. The annual saving, therefore, in fuel, fire department expense and insurance will in four years amount to the principal, $30,000, and in one year more the saving will more than offset the interest on the bonds issued to enable the improvements to be made.

In short, only five years need elapse for the annual saving to have amounted to the bonds, principal and interest.

Drying preparations simply develop dry catarrh; they dry up the secretions which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. All druggists sell it at 50 cents or it will be mailed by Ely Brothers, 56 Warren St., N. Y.

From a Pastor

"I am the pastor of the Baptist Church at Port Jervis, N. Y., and sometimes am called upon to take part in evangelistic work away from home. Not long ago I went to Sandy Creek, N. Y., which is swept by the damp winds from Lake Ontario. Here I contracted a bad cough, and became so hoarse that I could hardly preach to my congregation. It was not only distressing in a bodily sense, but extremely embarrassing to enter the pulpit in this condition. I had heard of Acker's English Remedy and, after service, I bought a bottle and began taking it. The next night my throat was nearly well, and I delivered my sermon without difficulty. In a few days I was thoroughly cured. I conceive it to be my duty to benefit mankind physically as well as spiritually whenever I can, and am glad to write these words in praise of this grand old medicine. Those with sensitive throats and those who catch cold easily should certainly take Acker's English Remedy."

AN ADDITIONAL DYNAMO.

Electric Light Company Increases the Capacity of the Plant.

A new incandescent dynamo has been purchased by the Pendleton Electric Light & Power company for installation in the plant here. It will have a normal capacity of 750 16-candle power incandescent lights, but may be run as high as 1000 when necessity demands.

The Pendleton lighting station is in very fine condition and is doubtless the best plant in the state for its capacity.

It is the intention of the management eventually to place the entire system on the meter plan. At the present time, quite a number of meters are in use and they appear to be satisfactory both to the company and the patrons. So soon as it can be done, meters will be placed with every patron and then people will be at liberty to leave their lights burning all night if they choose so to do. Under the monthly rate per light plan an immense amount of light is wasted by leaving lights burning when they could as well as not be turned off. The meters will prevent the wasting of light and yet insure payment for all light wasted.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land that is not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine, and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness, and all diseases of the throat, chest and lungs, are surely cured by it. Call on Tallman & Co., druggists, and get a free trial bottle. Regular size 50c. and $1. Every bottle guaranteed or price refunded.

Foul-Smelling Catarrh.

Catarrh is one of the most obstinate diseases, and hence the most difficult to get rid of.

There is but one way to cure it. The disease is in the blood, and all the sprays, washes and inhaling mixtures in the world can have no permanent effect whatever upon it. Swift's Specific cures Catarrh permanently, for it is the only remedy which can reach the disease and force it from the blood.

Mr. B. P. McAllister, of Harrodsburg, Ky., had Catarrh for years. He writes:

"I could see no improvement whatever, though I was constantly treated with sprays and washes, and different inhaling remedies—in fact, I could feel that each winter I was worse than the year previous. "Finally it was brought to my notice that Catarrh was a blood disease, and after thinking over the matter, I saw it was unreasonable to expect to be cured by remedies which only reached the surface. I then decided to try S. S. S., and after a few bottles were used, I noticed a perceptible improvement. Continuing the remedy, the disease was forced out of my system, and a complete cure was the result. I advise all who have this dreadful disease to abandon their local treatment, which has never done them any good, and take S. S. S., a remedy that can reach the disease and cure it."

To continue the wrong treatment for Catarrh is to continue to suffer. Swift's Specific is a real blood remedy, and cures obstinate, deep-seated diseases, which other remedies have no effect whatever upon. It promptly reaches Catarrh, and never fails to cure even the most aggravated cases.
