### THE STALLION WESTFIELD.

Pedigree of as Fine a Piece of Horse Flesh as There is in the Country. It will be interesting to the horseman throughout this section to learn that the celebrated stallion, Westfield, the property of Frank Frazier, will stand for the season in Pendleton and also at Mr. Frazier's ranch near the city. Terms for the season are very low, considering the many fine points of Mr. Frazier's horse. Westfield's pedigree is as follows:

Westfield, son of Billy Wilkes, b. by Harry Wilkes, 2:13 3/4, the fastest son of George Wilkes, dam Flossie (dam of three better than 2:25) by Son's Napoleon, by Volunteer, etc., second dam Mambrinus Gift, 2:20.

Westfield is good size, over 16 hands and weighs 1750 pounds, dark bay and a fine looking horse. His colts are large and fine looking, all bays or browns. There has been but two of them on a track, one 2-year-old, could show better than 2:30 with three months' work. The other is as fine an individual as there is in Oregon and can show a mile in 2:15, or better, with four months' work.

There has never been a stallion in this part of the state that can show a better lot of colts than Westfield. The owners of brood mares have an opportunity to breed to this great sire this year at Pendleton and Mr. Frazier's ranch one mile from town for the very low price of \$15 for the season or \$20 to insure. Good pasture at \$1.50 per month. There is not as good a horse making a season on the Pacific coast for as low a price. This is one of the best opportunities ever offered breeders. Good stallions are scarce, brood mares are scarce, and there are only a very limited number of well-bred colts and fillies in the country. They are getting high; they will get very much higher; they are not in the country and will not be for a good many years. The surplus is all gone. We are commencing over, and there is money to be made and plenty of it for the progressive breeder. Profit by the past experience. Breed only to the best, breed for good size, good colts, beauty and speed. Don't be afraid of a little expense. Breed to a horse that is kept before the public and whose colts prove that he is a sire.

**A Life and Death Fight.**  
Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for consumption, which completely cured me. I would not be without it now if it cost \$5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure throat, Chest and Lung troubles." Regular size 50c and \$1. Trial bottles free at Tallman & Co.'s.

**SUES FOR WHEAT.**  
Dauds for Damages to the Amount of \$728.

Alex McLean has commenced an action in the circuit court against John Daud to recover \$728, with interest at the legal rate from the 12th day of September, 1899. McLean alleged in his complaint that on that date Daud hauled away and sold some 1482 bushels of wheat belonging to him, and that Daud appropriated the money to his own use. It appears that plaintiff and defendant harvested a wheat crop in partnership in 1899 and that the wheat disposed of by Daud belonged to McLean as his share of the wheat harvested. The plaintiff now claims that defendant took and dis-

### GOING TO WASHINGTON.

Chief Poo Will Endeavor to Have Some Indian Grievances Alleviated. Chief Poo, of the Umatillas, left for Washington, D. C., the fore part of the week to have a talk with the Great Father in regard to certain matters which are affecting his people. He was accompanied on his trip by one of the tribe, who is a fluent talker and a master of the English language, and it will be through him that Poo will present his grievances.

The main object of Poo's visit to Washington at this time is to present a claim for the balance of the money due the tribe from the sale of the reservation lands which occurred some years ago. As yet, only a comparatively small portion of the amount agreed upon by the government in payment for these lands has been paid to the Indians, and the chief will endeavor to have the balance due paid over to them. Whether he goes at the solicitation of the Indians or on his own account is not known, but as his departure was very sudden it is presumed the majority of the tribe know nothing of the purpose of his mission.

There is also another matter that he will bring before the officials at Washington, and that is the question concerning the limit of the reservation line in the vicinity of McKay creek. The Indians claim that when the reservation line was run that a considerable stretch of land in that vicinity that properly belongs to the reservation was left out and has now been taken up by the white settlers. Poo will endeavor to have the government straighten this matter out and if possible secure payment for the lands of which they claim to have been deprived.

### THE COMMERCIAL CONGRESS.

To Meet at Houston, Texas, from April 17th to 21st.

The tenth session of the trans-Mississippi commercial congress will convene at Wichita, Kan., May 31, June 1, 2 and 3, decided to hold the next meeting in the City of Houston, Texas, and the eleventh session will occur at Houston on April 17 to the 21st inclusive, as heretofore announced.

The territory represented in this congress, includes all the states and territories lying west of the Mississippi river, and those portions of Minnesota and Louisiana which lie east of it.

A section embracing 2,700,000 square miles, and 20,000,000 intelligent people. The world's greatest agricultural, mineral and stock growing region.

The principal objects of the congress are to encourage the growth and the thorough development of each and every state or territory presented; to work in harmony for such national legislation as is calculated to promote the interests of the people of the trans-Mississippi country; to increase reciprocal trade between these states; to discuss matters of special interest, and to decide upon plans which will bring about desired results; to cultivate a better acquaintance between the citizens of the states and territories interested, and bring about an active and hearty co-operation between the commercial bodies represented.

While any question germane to the objects of the congress may be introduced by any delegate, the following have been suggested by the executive committee, and can be added to before the program, which is now being arranged, is completed: Irrigation, rivers and harbors, Niagara canal, Pacific cable, merchant marine, St. Louis world's fair 1903, trade with the orient, consular service, statehood, railroad transportation, preservation of forests, beet root sugar, trade with Mexico, advantages of navigation, exports and imports through Gulf and Pacific ports, need of home factories, good roads and drainage. The chairman of the executive committee, E. R. Moses, of Great Bend, Kansas, would be grateful for suggestions as to questions to be discussed, by any citizen of the trans-Mississippi country.

### BACK FROM LAWTON.

T. W. Ayers Returns from a Business Trip to That Town.

T. W. Ayers returned to Pendleton Sunday from the new town of Lawton that is now being erected to order in the Granite country. Mr. Ayers has concluded to go into business in that town and now has a building in course of erection. He will engage in the drug business. "Lawton is now only a town of perhaps fifty population," said Mr. Ayers to an East Oregonian representative, "but before two months more have passed it is expected that at least 1000 people will be there. Buildings are going up as fast as workmen can put them together. Considerable delay is occasioned by a scarcity of building material, but this is rapidly being overcome. It is a great country, and in my opinion, there is no better business proposition in the west. I shall try it there and I have no fear of the result." Mr. Ayers says the population of Sumpter is now estimated at 3000, and the new town of Lawton is located only 16 miles from that place. Just as soon as he can get his business affairs straightened out in this city, Mr. Ayers will return to Lawton.

### A SURPRISE.

And a Good Time at Pendleton Camp No. 41.

At the regular weekly meeting of Pendleton Camp No. 41, Woodmen of the World, Tuesday night, the neighbors were interrupted in the discussion of the "important business" they were considering by a demand for admittance from about 50 of the ladies of Daphne Circle No. 2. The souls of displeasure at the unseemly invasion of the Forest were soon turned to smiles, however, when the Woodmen were invited into the banquet hall and seated at a splendid lunch prepared by the circle. The enjoyable pastime of eating was interspersed by toasts from Neighbors L. R. Reeder, Fred Drake, J. E. Krause, A. D. Stillman, E. Tomlinson, Mrs. Minnie Stillman, T. F. Howard, Geo. A. Hartman, Consul Commander Strever, H. H. Hallock and Grand Guardian VanOrsvald.

The camp asked the Circle to "come again," and the evening was voted a social success by all present.

### TIMBER AND PUBLIC LAND.

A Bill Before Congress Which Commissioner Singer Hermann Approves.

An important bill relating to the sale of timber on the public lands was introduced in the house recently by the public lands committee. The bill was framed by the general land office, says the Portland Telegram, to meet the necessity created by a recent decision of the assistant attorney-general for the interior department declaring that existing laws do not authorize sale of timber on public lands.

Commissioner Hermann, transmitting the bill and asking its adoption, said in part: "The protection and disposal of the timber upon the public lands of the United States are shown by the annual reports of the officers of the land department to have been the subject of

### thoughtful consideration and much embarrassment in that department.

"Timber supplies many of the necessities of life, and certainly the use of its products is absolutely necessary to settlers upon the public lands, and to others engaged in industrial pursuits tending to the development of the resources of the country. There are many localities where it cannot be obtained otherwise than from the public lands, and wisdom clearly indicates that methods should be adopted whereby the wants of the people in such localities may be lawfully gratified; otherwise, experience has taught, the timber will be taken at all hazards.

"In the earlier days, when the country was sparsely settled, the necessity for a careful use and conservation of the public timber was not of so much importance, for then the depletions were few and there was a plenty and to spare. Now that the country is settled up and depletions have become more frequent, prompt action on the part of congress to preserve what is left of the timber and to better regulate its use, it is frequently urged, is imperative. Every year's delay inflicts upon the material interests of the country injuries which with the lapse of time increase in magnitude and become more difficult to remedy. It is obvious that the people of the public and states must have timber or its products for domestic purposes and for use in local industries, and if the government has timber that may be disposed of without injury to the more general interests, the people should be allowed to use it on making reasonable compensation for it, and in meritorious cases they should be allowed to use it free of charge in limited quantity. They should be treated with that liberality and justice which will surely promote their welfare and happiness as a self-respecting people, and add immeasurably to the prosperity and stability of the nation."

The essential portions of the measure are as follows:

"That the secretary of the interior is authorized to dispose of by sale to citizens and bona fide settlers who have not a sufficient supply of timber for their own claims for necessary use in developing the natural resources of the land owned by them may procure timber free of charge from unappropriated, unreserved public lands to an extent not exceeding in stumpage value \$50 in one year.

"That miners, prospectors, agriculturists, and bona fide settlers who have not a sufficient supply of timber for their own claims for necessary use in developing the natural resources of the land owned by them may procure timber free of charge from unappropriated, unreserved public lands to an extent not exceeding in stumpage value \$50 in one year.

"That persons who appropriate or cut, or cause the destruction of timber, except as allowed by the proposed act, shall be fined not less than \$100, nor more than \$500, or shall be imprisoned at the discretion of the court.

"The secretary of the interior is authorized to make all proper rules and regulations for carrying the provisions of the act into effect.

"The bill, if it becomes a law, will bring together and revise the various statutes upon the subject of the use of timber on the public lands. It will relieve these statutes of the present ambiguity, uncertainty and conflict which exists, and will prove, it is believed, of great benefit to the public timber states of the west.

### TROUBLE OVER A PIANO.

S. H. Hicks Sued by Mrs. Esther Dupuis to a Possession.

Mrs. Esther Dupuis brought suit in Judge Parker's court Tuesday to replevin a piano from S. H. Hicks, which she had made a demand for and which Hicks refused to give up. Defendant claimed that a year ago or more Mrs. Dupuis lived with his family and agreed to pay him \$1 per day for her keep, and left the piano with him for security. His bill against her was \$42. Mrs. Dupuis claimed that her services during her stay with Hicks' family were to offset Hicks' charge for board, etc. The case took up the greater part of the day and the great many witnesses were summoned on each side. A verdict was rendered in favor of the plaintiff to the action.

### WILL STOP WORK.

There is No Gravel and the Repairing of Alta Street Will Be Suspended.

Work was commenced on the grading and filling in of Alta street yesterday morning, but owing to a lack of gravel that is fit for street purposes, it is proposed to discontinue work until the river recedes sufficiently to allow gravel to be taken from its bed. The high water this spring has remained much longer than has usually been the case, and the supply of gravel has been mostly used up. Street Superintendent Brown stated that the only gravel that is now available for street purposes is of a very inferior quality and is not fit to be placed on the street. He said that work would be resumed just as soon as it was possible and be pushed until Alta street was completed.

### Does This Strike You?

Muddy complexion, nauseating breath come from chronic constipation. Karl's Clover Root Tea is an absolute cure and has been sold for fifty years on an absolute guarantee. Price 25c and 50c. Brock & McComas.

### THE MAYOR OF PHILADELPHIA.

How He Made the Marriage of His Daughter Pay a Dividend.

The stepdaughter of Mayor Ashbridge of Philadelphia, having budded and blossomed into womanhood and having accepted a proposal of marriage from a young undertaker, her marriage was announced, and her enterprising and public-spirited stepfather had 3000 invitations sent out to people who were holding city offices under Mayor Ashbridge's administration.

Here follows a partial list of the "presents" which these invitations yielded from pursuit of the spoils of office:

- Thirteen diamond brooches.
- Sixteen fancy tables, some inlaid with silver and pearl.
- One hundred and seventy-seven pieces of cut glass.
- Sixty-three pieces of silver.
- Thirteen costly china sets.
- The total value of the presents received is estimated to be not less than \$50,000, and Mayor Ashbridge is more than pleased at his political acumen.

### Glorious News.

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which has caused her great suffering for years. Terrible sores would break out on her head and face and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved—that Electric Bitters is the best blood purifier known. It is the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and tanning sores. It stimulates liver, kidneys and bowels, expels poison, builds up the strength. Only 50c. Sold by Tallman & Co., Druggists, Guarant ed.

### The Way to Go.

The shortest, quickest and cheapest route to all points east, north or south is via the O. R. & N. and connecting lines. Full information cheerfully given at the O. R. & N. depot.

F. F. WAMSLEY, Agent.

Rev. W. E. Sitzer, W. Caton, N. Y., writes: "I had dyspepsia over twenty years, and tried doctors and medicines without benefit. I was persuaded to use Kodol Dyspepsia Cure and it helped me from the start. I believe it to be a panacea for all forms of indigestion." It digests what you eat. Tallman & Co., leading druggists.

### Platt Preston's Remains.

Waitsburg, Wash., March 14.—The remains of Platt A. Preston, who died in Galveston, Tex., Sunday, the 10th instant, will arrive at Waitsburg Wednesday, March 21, for interment.

## Scrofula and Consumption

People tainted with scrofula very often develop consumption. Anemia, running of the ear, scaly eruptions, imperfect digestion, and enlargement and breaking down of the glands of the neck, are some of the more prominent of scrofula symptoms—are forerunners of consumption. These conditions can be arrested, consumption prevented and health restored by the early use of Scott's Emulsion.

Your doctor will tell you so.

At all druggists 10c. and 50c. SCOTT & BOWNE, Chemists, New York.

### H. Kopittke
