W. S. Offner and others in Walla Walla are trying to secure enough subscriptions to stock to establish a fruit cannery in that town. They have succeeded so well that there is only a balance of \$2000 to be raised.

There is now a few short of 1800 voters registered in the county. North Pendleton leads the list with 171, the next largest precinct being North Athens with 149. Registrar Frazier says out of something over 100 registered since last Saturday nearly all have been from this town. Returns have come in very slowly from the country the last five days.

Quite a large crowd gathered near the city pond this forenoon to see an exhibition in wild horse riding by a cowboy from the country. Two dollars was raised by the crowd for the privileges, but it turned out a failure. When mounted the bronco took things quietly and resisted all efforts made to cause him to do any high kicking and bucking.

Frank Caldwell, a well known miner, committed suicide a few days ago at his cabin on Burnt river, Baker county. While suffering from pneumonia, he took doses of the White-ostrer from over the bed and shot himself, in the presence of a man named Wheeler. A year ago Caldwell was struck over the head with a billiard cue in Baker City in a quarrel. Mental aberration probably caused the deed.

Mrs. Calvin Zimmerman, Milesburg, Pa., says: "As a speedy cure for coughs, colds, croup and sore throat One Minute Cough Cure is unequalled. It is pleasant for children to take. I heartily recommend it to mothers." It is the only harmless remedy that produces immediate results. It cures bronchitis, pneumonia, grippe and throat and lung diseases. It will prevent consumption. THE REVENUE LAW.

A Special Agent Searching for Violations of It.

For several weeks a special agent of the treasury department has been conducting a quiet investigation in Spokane, the result of which will prove expensive to many prominent citizens

and others, says the Spokesman-Review. It is reported that hundreds of violations of the war revenue act have been discovered. These violations are largely confined to instruments filed with the county auditor to which stamps of sufficient status are required by the act, have not been attached. Every one of these violations subjects the responsible party, the grantor in the instrument, to the penalty of a fine of \$10, and this penalty will be rigidly exacted unless it can be clearly shown there was no intention to defraud the government.

PETITION FOR PARDON.

A 17-Year-Old Boy May Be Released from Prison.

The petition before the governor for the pardon of William Marshall, a lad of 17 years, who was committed two years ago to the state reformatory from Baker county for manslaughter, for a term of eight years, sets forth facts which indicate that the boy has been punished sufficiently for the blow he struck, which resulted in the death of James Reed, says the Oregonian. It is maintained that he dealt the blow to save the life of his brother, who was being choked by a man very much larger and stronger than himself. The younger Marshall, in the excitement of the moment, went to his brother's assistance with a stick, from a blow of which the assailant died three days later. While these facts are surprising that the jurors who now join in the petition for young Marshall's pardon did not acquit him at the trial, it will probably occur to the pardoning board that, even if the facts are now stated somewhat to make out a case, the boy would have done less under the circumstances detailed, though a more prudent or an older man might not have delivered a fatal blow where clearly interference was justifiable.

Open today, 66 to 66 1/2. Close today, 66 1/2.

NEW SCHOOL DIRECTORS.

Business Affairs of the District Will Be Turned Over to Them Tonight.

A meeting of the board of school directors, of district No. 16, will be held this evening, at the law office of T. G. Hailey, for the purpose of turning over the affairs of the district to the newly elected directors and electing the new officers. The directors are D. F. W. Vincent and T. G. Hailey, who conducted the affairs of the school in such an able manner that the many friends of education in Pendleton will regret their retirement. They have interested themselves to a great extent in all matters pertaining to the advancement of the school.

In Police Court.

A shepherd and an Indian were the only persons whose cases occupied the attention of the police judge this morning. Both became highly demonstrative last night and were run in by the police. The shepherd became drunk and wanted to wipe out the tenderloin district, but before he could accomplish his purpose the officers captured him. He put up a fight and a few other trunks for his appearance. He appeared before his honor this morning and was given the usual punishment in such cases, \$10 or five days. The Indian was fined five dollars for drunkenness and was given until this afternoon to raise the amount.

EUROPE AND AMERICA.

The Difference Between Their Industrial Policies.

English visitors to American industrial establishments have frequently expressed their astonishment at the freedom of access generally accorded to their works, and this fact was recently commented upon by a writer who says: "The American and British manufacturers exhibit a marked difference in their willingness to impart information. The American, as a rule, will, without hesitation, take anyone through his works, show any novel methods which he may have adopted, and generally supply any information which his visitor may be anxious to acquire. English and continental manufacturers do not thus open their works to the public, and are not anxious to supply information."

THE COURT'S DECREE.

It Resulted in Putting a Man in Jail for Life.

The husband of Mrs. J. Spencer Middleton, who lives in Camden, N. J., is not a murderer, but he will possibly spend his life in jail. It is now over a year since he was put in prison and although at first he hoped that his stay behind the bars would be for a few days only, he now has given way to absolute indifference. The suitor that would have given him freedom is not forthcoming, and the man, several years over 50, is reconciled to his position.

Wait for the wagon

or rather wait for the "White" bicycle. We have a shipment of "White" wheels in port and while they are coming we want to tell you a few things about them.

Last year in the six-day international bicycle race at San Francisco, from Feb. 13 to Feb. 19, the "White" bicycle won four of the eight prizes offered.

At San Jose, Sept. 9, 1898, C. M. Smith beat Eddie Bald's long-standing record of 2:01 2/5; time 1:59 flat.

We also learn that the 1900 "White" has recently broken two world's records at Los Angeles, one the standing start, in 1:37 flat; also, 15 miles paced competition record in 26:27 2/5.

Ride a "White" and keep it in front.

ITCHING LIMBS

And All Forms of Itching, Scaly Humors Are Instantly Relieved and Speedily Cured by CUTICURA.

The itching and burning I suffered in my feet and limbs for three years were terrible. At night they were worse and would keep me awake a greater part of the night.

I consulted doctor after doctor, as I was traveling on the road most of my time, also one of our city doctors. None of the doctors knew what the trouble was. I got a lot of the different samples of the medicines I had been using. I found them of so many different kinds that I concluded that I would have to go to a Cincinnati hospital before I would get relief.

I had frequently been urged to try CUTICURA REMEDIES, but I had no faith in them. My wife finally prevailed upon me to try them. Presto! What a change! I am now cured, and it is a permanent cure. I feel like kicking some doctor or myself for suffering three years when I could have used CUTICURA REMEDIES.

H. JENKINS, Middleboro, Ky.
